

How can I help

The Nor'wester Therapy Dogs: Canine Partners in Education is entirely funded by and dependent on generous donations and sponsorship from individual supporters and area businesses. Please consider making a tax-deductible donation to help keep the magic alive for those who benefit from the powerful work being done by our therapy dog teams.

We are always seeking therapy dog teams to join our force. More information about our requirements and joining the organization is available on our website.

Here's my tax-deductible donation to Nor'wester Therapy Dogs!

Name: _____

Address: _____

City _____ State _____ Zip _____

Email: _____

Phone: _____

Donation Amount: \$ _____

My employer will match my donation

Employer: _____

I am interested in corporate sponsorship opportunities

PEOPLE ARE TALKING!

"Our students have struggled with significant personal issues this year, including eating disorders, OCD, anxiety, depression, family illness, lack of academic motivation, etc. Blu's visits helped brighten the day of students who otherwise have real difficulty connecting with others. There are several students in particular who would light up in Blu's presence. One student in particular struggled with severe anxiety and depression this year, but Blu's visit was when this 17 year old would smile and become engaged with the class. It was amazing to witness the transformation."

~ High School English Teacher

"As a result of having the opportunity to read to Annie, one of my struggling second graders made significant progress in her DRA level. She started the year at level 12 and finished the year at level 24. Reading to Annie each week helped this child's self confidence improve greatly. This, in turn, helped her become a more successful reader!"

~ Title 1 Reading Specialist

"My husband and I are so pleased with the Nor'wester Therapy Dog program, and we hope that the program continues. Hannah has given our son Kyle the individual attention he needs. She sits and listens to every word Kyle is trying to say. As a result Kyle has improved his reading, oral speech (he gets speech therapy), and his self confidence."

~ Parent

This program allows our students to open up and take risks that they may normally have difficulty doing on a daily basis. They look forward to our dog therapy days!

~ Special Education Teacher
