

A Message from the President

Now – more than ever – Community Colleges make a difference in the lives of students, families, our economy and our community.

We are there for the student seeking an affordable start to a four year degree; we are there for the first generation student; we are there for the unemployed worker who needs retraining; we are there for the future nurse and radiographer and other health specialists; we are there for our business community to provide education and training; we are there for the adult who recognizes the need for education after missing an earlier opportunity; we are there for the immigrant family seeking productive entry into the American dream.

When other colleges become too expensive or are too far away, or when students need to work and balance family responsibilities with education, we are there.

When the community looks for a place to meet and discuss large issues, we are there.

When cultural events and activities and charitable groups seek a venue, we are there.

Three campuses serve our diverse community, providing education when and where needed. Our expansion projects allow both closer commutes and increased programming in all parts of our community. 95% of our students are from our community and will stay or return to our community. Our faculty and staff are second to none. All we need is a little extra help as we seek to respond to the growing demands on our abilities. I invite you to help our community and our college.

A handwritten signature in blue ink that reads "James J. Links". The signature is stylized and cursive.

Dr. James J. Links, President
Bucks County Community College
