Instructions: After reading *The Lorax* by Dr. Seuss, write a 750-1,000 word essay that answers the following questions, drawing textual support from both the story and the course materials referenced. Time permitting, we will read the book together in class, but you may be able to access an e-book version posted on youtube at: http://www.youtube.com/watch?v=soRbNjPbHEo

1. Identify and explain the combination of worldview and time-perception elements that prompted the Once-ler’s extirpation of the truffula trees, and suggest some members of U.S. American society whom the Once-ler and the Lorax may represent. Refer specifically to these handouts posted in Canvas:
   a. Introduction to Culture, Activity Orientation, & Worldviews
   b. Cultural Perspectives on Time

2. Based upon class discussion and the handout excerpted from Cunningham & Cunningham *Principles of Environmental Science: Inquiry and Application* 7th Edition (posted in Canvas) of these environmental science, economic and societal concepts, discuss how they are addressed in the story, using supporting examples from *The Lorax*:
   a. Sustainable use of natural resources
   b. Point source pollution
   c. Habitat disruption/depletion
   d. Internalizing external costs
   e. Extirpation (which may ultimately result in extinction)
   f. Environmental stewardship

3. Lesson learned: “Analyze the past, assess the present, and plan for the future.” Given the current state of environmental and economic collapse depicted in *The Lorax*, discuss two practices that the Once-ler might have incorporated to ensure future environmental and economic stability.

MLA Formatting Requirements, Including:
