Age Requirements for Taking Courses
All courses are for individuals, ages 16 or older. There are certain programs that are for the younger set. They are noted in this Catalog.

Continuing Education Units
Continuing Education Units (CEUs) are offered for selected courses and are valuable for individuals wishing to demonstrate their participation in educational pursuits beyond or outside of a degree program. One CEU is equal to ten contact hours of participation in continuing education. Upon completion of courses granting CEUs, participants may receive a statement of CEUs earned. These are permanently recorded with the Continuing Education Office. Continuing Education Units do not apply toward degree programs or graduation.

Course Changes/Cancellations
Bucks County Community College reserves the right to cancel a course entirely or to change its time, location or instructor. In the event a course for which you have registered is cancelled, you will be notified. If you are unable to substitute a suitable replacement for a cancelled course, you will be refunded all tuition and fees you have paid for the course.

Emergency Closings & Inclement Weather
We may at times be forced to cancel classes. Please register for Bucks emergency alert system which will send urgent notifications regarding Campus activities to your cell phone and/or email at: http://www2campus.com/my/bucks/signup.htm. The most up-to-date information will also be available on the college’s website at: www.bucks.edu

Employer Tuition Assistance
Your organization may encourage furthering your education by including full or partial tuition assistance for credit and non-credit courses in your benefit package. Check with your Personnel Office today.

Lifetime Learning Credit
For those beyond the first two years of college, or taking classes part-time to improve or upgrade their job skills, the family will receive a 20% tax credit for the first $10,000. The credit is available for net tuition and fees (less grant aid) paid for post-secondary education by including full or partial tuition assistance to the start date of each class. You will receive a course confirmation upon registration. However, if the class fills (with the exception of computer classes), you will be called and given the option to either pay for the class or to withdraw. Please note that it is the student’s responsibility to pay materials and book fees. Please use registration form and check box regarding senior citizen status.

Senior Citizen Policy
Adults who are 65 and over and Bucks County residents, may attend Certificate and Computer classes at 50% off the stated fee, plus books/materials fees. Please call for appropriate books/materials costs before registering. Due to the demand for these classes, we can only permit two seniors per class at this discount. Seniors may attend all other non-credit classes free of charge on a space-available basis. Note: Exempt from Senior Policy: Second Act, ed2go, LERN, Protrain, Senior Policy: Exempt, Enrolled Agent, E2Campus, Exempt of charge on a space-available basis.

Refund Policy
There is a $25 non-refundable withdrawal charge if you cancel your enrollment in a course with a fee of $50 or more; $5 for courses less than $50. The following conditions apply to refunds:

1. For All Courses: 100% refund (less withdrawal charge) when you notify the Continuing Education Office at least five (5) working days prior to the course starting date. No refund after this time.
2. For Camps: There is a $25 non-refundable fee for any cancellation. Refunds (less $25) will be made ONLY when you notify the Continuing Education Office AT LEAST SEVEN (7) DAYS before the first day of camp.
3. For Trips: Refund policies vary; please call the Continuing Education Office.

If you have paid by check, your refund will arrive in three weeks. Visa, MasterCard, American Express or Discover payments will be credited to your account. If you are not completely satisfied with our program, please contact the Director of Continuing Education, Maryann Brennan at 215-968-8104.

Staff Waivers
The College and the Continuing Education Department reserves the right to limit the number of waived registrations it accepts in its classes. In some instances, faculty and staff will be required to pay; in addition to class materials, the percentage of tuition owed to third parties who have entered into a partnership or agreement with the College.

Tax Deduction
You can receive a tax deduction for all expenses of continuing management education (including registration fees, travel, meals and lodging) undertaken to maintain and improve professional skills. (Treasury Registration 1-625 Coughlin vs. Commissioner, 203F2d307).
Other registration options:

The Practical Nursing Program is a full-time, twelve month, state approved program beginning annually in July. The curriculum consists of a wide variety of clinical experience, along with classroom instruction. Upon successful completion of our certificate program, students are prepared to sit for the National Council Licensure Examination (NCLEX) and become a Licensed Practical Nurse. This program is an excellent stepping stone towards a RN degree or can provide exciting opportunities working as a LPN in a variety of patient care settings. The first step to admission is the NLN-PN Pre-Entrance Exam, which is a non-medical, basic Math, Reading, and Science test. There are a limited number of testing dates, so register today!

NLN-PN Pre Entrance Exam Review (51 Hrs)
The first step to admission in the Practical Nursing Program is taking the NLN-PN Pre-Entrance Exam. This course will review the basic Math, Reading Comprehension/Vocabulary, and Science skills needed to help you be successful on the exam and pursue your goal of becoming a Practical Nurse. Staff

Thanatology
- Returning Fall 2016
This certificate program is designed to provide you with a basic understanding of issues related to loss, but especially those related to dying, death, and the resultant bereavement whether the death is a result of a long-standing chronic illness, an acute condition, or a traumatic incident.

This 63-hour program, with nine required courses, will benefit the professional and personal caregiver. At the conclusion of the course, you will have developed:

- Knowledge of the research relevant to dying, death, and bereavement
- Understanding the practical approaches relevant to dealing with death and dying
- Comprehension of the significance of spiritual, cultural, and ethnic diversity and their influence on an individual's understanding of dying, death, and bereavement.

Kimberly L. Rabago, MSW
The Association for Death Education and Counseling® has deemed this program as counting toward the continuing education requirements for the ADEC CT and FT programs.

Diabetes: What Nurses Need to Know?
This 9 hour course is intended to inform RNs and LPNs about understanding the background physiology, acute and chronic challenges of diabetes, and the differences between Type 1 and Type 2 diabetes. We will investigate how to encourage basic nutrition and eating out for those with diabetes. Medications, physical activity, acute and chronic complications, blood glucose monitoring, sick day management, and how to create a positive attitude toward daily living will be addressed. Helping those with diabetes initiate goals is an important part of the conclusion of this course.

Diabetes: Learn It, Live It, Love the Results
This is a 9 hour program to inform those in the community about understanding the background physiology, and challenges of diabetes, and the differences between Type 1 and Type 2 diabetes. We will investigate how to encourage basic nutrition and eating out for those with diabetes. Medications, physical activity, acute and chronic complications, blood glucose monitoring, sick day management, and how to create a positive attitude toward daily living will be addressed, as depression often is present with those with diabetes. We will address the feelings associated with having diabetes. We will be investigating Pattern Management and what do the blood glucose numbers mean in relation to daily living. Helping those with diabetes initiate goals is an important part of the conclusion of this course.

Medical Laboratory Technician Program

Medical Laboratory Technicians (MLTs) play a key role on the healthcare team, providing information to physicians for decisions about diagnoses and monitoring treatment. They perform analyses, evaluate normal and abnormal results, and correlate the results with disease states. They are also involved with maintenance of complicated, precise, automated and manual equipment, and quality assurance.

MLTs are in high demand and can seek traditional employment in hospital or private clinical settings, or explore a range of opportunities with community health projects, environmental testing, crime labs, and sales and marketing. Candidates need an Associate Degree or higher with a strong science background. The program will include three semesters of medical laboratory courses and are then supervised and mentored at assigned clinical affiliation sites.

Mandated Child Abuse Reporting

Protecting children is the responsibility of us all. Anybody who suspects that a child is being hurt, has the right to report that suspicion. But, certain professionals, due to their contact or work with children, have special responsibilities. These people are called mandated reporters and are required by law to report suspected child abuse. Mandated reporters are of critical importance in the child abuse prevention effort. This training identifies the role and responsibility bystanders and care providers play in the prevention, protection and intervention of child abuse.

Cash is King

Cash is arguably the most important factor in business success. D&B reports 90% of all small business failures are due to poor cash flow—more money gets paid out than collected. It is the non-financial manager who really makes a difference in the day-to-day cash activities. Discover how to maximize cash flow, learn the importance of cash and find out your role in cash flow success.

Child Development

Child Development Associate

A Child Development Associate (CDA) is an individual who has successfully completed a CDA Assessment and has been awarded the CDA Credential. She meets the specific needs of children and works with parents and other adults to nurture children’s physical, social, emotional and intellectual growth in a child development framework.

The Credential is awarded to individuals who are working in, or wish to work in any of three childcare settings:

- Center-based, for which candidates receive endorsements to work with infants and toddlers or preschool children
- Family Child Care
- Home Visitor

In order to complete the CDA Assessment, the individual must have worked in a childcare setting for a minimum of 480 hours within the previous 5 years. It is possible to complete the coursework offered here before the completion of these mandatory hours.

Please see our website at www.bucks.edu/cda for more information about the CDA program. For information about the CDA Assessment, please go to the website for the Council for Professional Recognition at www.cdacouncil.org.

Please Note: Students must be 18 years of age and have a high school or GED diploma in order to enroll in the CDA program. Reimbursement: Anyone who is a member of a Keystone Stars site can apply for a 90% tuition refund and the $325 assessment fee for the CDA assessment. Please Note: Reimbursement is subject to the availability of funds. Tuition vouchers are available on the Keys website www.pakeys.org under professional development.

The same book and packet will be used for Part I and Part II.

A materials list will be mailed prior to first class, approximate cost $90 for text and, $23 for assessment packet.

For further information please contact Maryann Brennan, Director of Continuing Education at: (215) 968-8104 or email maryann.brennan@bucks.edu

Special Enrollment Examination Prep

Enrolled Agents

An enrolled agent (EA) is a federally-authorized tax practitioner who has technical expertise in the field of taxation and who is empowered by the U.S. Department of the Treasury to represent taxpayers before all administrative levels - examination, collection, and appeals - of the Internal Revenue Service. In addition to taxpayer representation, enrolled agents often provide tax consultation services and prepare a wide range of federal and state tax returns. Unlike CPAs and tax attorneys, Enrolled Agents are tested directly by the IRS, and enrolled agents focus exclusively on tax accounting.

Enrolled Agents are needed in small and large public accounting firms, law firms, corporate accounting departments, state departments of revenue, investment firms, banks and in private practice. Enrolled Agents hold a federal license and have an unrestricted right to represent any taxpayer in any state. There are no prior educational or professional experience prerequisites to becoming an enrolled agent.

IT security is one the fastest growing specialties in the world and is in high demand. As networks grow and become more complex, companies rely heavily on IT security professionals to secure systems, data and services. Well trained IT security engineers are hard to find and recently many news organizations have reported that the demand for these skills is going to skyrocket. CCNA Security is a great way to learn valuable security skills.

Module 1: Networking Fundamentals (76 Hrs)

This first module introduces the student to networking terminology and theory. Topics include an in-depth review of the Open System Interconnection (OSI) model, networking protocols and standards, and IP Addressing. The student will also learn how to build and configure a simple Ethernet network using routers and switches using the Cisco Command Line (CLI) interface.

Upper Bucks Campus/ $1195 (plus book fee)/ WITAC 1011 C70/ 10 M, 9 W, 2/1-4/4, 6:00-10pm

Module 2: Routing Protocols and Concepts (68 Hrs)

The second module will explore basic routing protocols from RIP to more advanced protocols like EIGRP and OSPF with the use of Packet Tracer Labs and hands-on labs. Subnetting and Advanced IP addressing will be used to further refine the student's ability to design and configure network equipment.

Upper Bucks Campus/ $995 (plus book fee)/ WITAC 1012 C70/ 8 M, 9 W, 4/18-6/15, 6:00-10pm (no class 5/30)

Module 3: LAN Switching and Wireless2 (36 Hrs)

The third module includes basic and advanced LAN switching concepts, with an introduction to Wireless Technologies. The student will explore LAN design, basic and advanced switch configuration, Virtual Local Area Networks (VLAN), Virtual Trunking Protocol (VTP), and the Spanning Tree Protocol (STP), along with Inter VLAN routing.

Lower Bucks Campus/ $595 (plus book fee)/ WITAC 1013 C50/ 6 Tu, 5 Th, 3/8-4/12, 6:30-10pm

Module 4: Wan Technologies (36 Hrs)

The fourth and final module leading to the Cisco Certified Network Associate (CCNA) certification covers Wide Area Network (WAN) design. Topics include, Point-to-Point (PPP) protocol, Frame Relay, as well introduction to Network Security theory, Access Control List's (ACL) and the use of the Security Device Manager (SDM). Students will also get an introduction to Virtual Private Networks (VPN), IP Addressing services and network troubleshooting.

CompTIA Certifications

A+, Networking+, Security+ and Linux+ Certifications by CompTIA

A+ Certification (128 Hrs)
The A+ Certification Program offers a standard of excellence to the PC support industry. CompTIA A+ program prepares you for certification by teaching system configuration, installation, upgrades, diagnosis, repair, preventive maintenance, and safety of vendor neutral PC Hardware. Many high-tech companies require their support staff to be certified. Prerequisite: Basic computer and networking knowledge including file management in a Windows environment.

Certification Tests:
220-801 for CompTIA A+ Essentials
220-802 for CompTIA A+ Practical Application

Upper Bucks Campus/ $2,040 (plus book fee) (test voucher included)/ WITAC 2002 C70/ 16 Tu, 16 Th, 2/9-5/26, 6:00-10pm

Network+ Certification (72 Hrs)
Network technicians need to be certified in order to advance in the industry. A certified technician has a much better chance of finding work in the industry. Whether you’re looking to upgrade your skills, advance your career, or start a career in networking, the Network+ certification course is for you. Prerequisite: Basic computer knowledge including file management in a Windows environment.

Certification Test: N10-005 for CompTIA Network+ Certification

Newtown Campus/ $1295 (plus book fee) (test voucher included)/ WITAC 2002 C70/ 16 Tu, 16 Th, 2/9-5/26, 6:00-10pm

Security+ Certification (64 Hrs)
CompTIA Security+ is an international, vendor-neutral certification that demonstrates competency in network security; compliance and operational security; threats and vulnerabilities; application, data and host security; access control and identity management; and cryptography. CompTIA Security+ provides the knowledge of security concepts, tools and procedures to react to security incidents.

Certification Test: SY0-301 for CompTIA Security+ Certification

Linux+ Certification (72 Hrs)
CompTIA Linux+ validates the fundamental knowledge and skills required of a Linux Administrator. The course will cover system architecture, GNU and UNIX commands, user interfaces and desktops, Linux installation and package management. Students who take this course and the certification test will also attain the LPIC-1 certification.

Certification test: LX0-101 covers system architecture; Linux Installation and package management; GNU and UNIX commands; devices, Linux file systems, and file system hierarchy standards. LX0-102 covers shells, scripting and data management; user interfaces and desktops; administrative tasks; essential system services; networking fundamentals and security.

Personal Mindfulness

**Question Your Thinking, Change your World**

What’s going through your mind? Does it serve you? Have you ever stopped to ask yourself if it’s true? Learn how to question your thinking through a contemplative process called The Work. This introduction to The Work of Byron Katie offers a simple, yet powerful way to identify and question any thought that causes stress and suffering in your life. You will leave the workshop with tools to question your thoughts and ways to make this practice a natural part of your life. Anyone with an open mind can do The Work. **An Introduction to Prayer**

Through the ages, the practice of prayer has been the way people of many faith traditions have communica- ted with their higher power. What is prayer? What are some of the time honored methods and who are the great spiritual practitioners of prayer? How can I strengthen my own prayer life? These are some of the questions we will explore and study in this class. All are welcome. Rev. Dr. Marianne Morgan

**To Love, Honor and Cherish Thyself**

New and extended class. By popular demand. When we marry we vow to “love, honor and cherish” our spouse, but what about ourselves? Many women are raised to value others before themselves. If you find yourself at a crossroads, perhaps newly separated, divorced, an empty nester, or in the stages of a career change, take this first step to empower yourself, and discover ways to “love, honor and cherish thyself.” Join us as we expand the exploration of meditation and re- laxation. **From Stuck to Stoked**

Feeling stuck – like you want to take the plunge, but can’t jump off the diving board? You’re at a juncture where you can choose a new direction or finally pursue a longstanding dream, but something’s stopping you. This course is about self-discovery or rediscov- ery, and learning to break through fear, procrastina- tion, or comfort zones to seize the life you want. You’ll make a PACT with yourself. Prioritize your values to choose a goal. Act on your intention. Create change, as you build confidence and skills. Take stock of what works and what doesn’t as you move forward. Get STOKED about what you’ve accomplished and what is yet to come. Ann Schreiber, RN, BSN

**Exploring Life After Death**

“Death is a doorway, a transition into the inner worlds. Births and Deaths mark the journey of Soul. The translation, or movement, from one stage of experience to another is but a further step on Soul’s journey home to God.”* This course will explore various traditions’ views on the topic of Life After Death. Concepts which will be covered include: near death experiences, karma and reincarnation and contact with deceased friends and relatives. Facilitators will present techniques to help students experience the inner planes of existence for themselves, reinforcing through their OWN experi- ences that we are all immortal beings, who do not die with the death of our physical bodies. Wouldn’t it be great to know through YOUR OWN experience that there is more to you and your life then your physical body and mind? This course is open to all, regardless of your spiritual affiliation. (*Harold Klemp, Life After Death). Lisa Gage

Tribal Style Bellydance, Level 1
Lower Bucks Campus
This is a fun and challenging dance form that is joyful, empowering, and builds community & camaraderie. Culled from the folk dances of North Africa, the Middle East, India, and the Mediterranean; Tribal Style Bellydance is an unique fusion of ancient dance forms. Women of the 'Tribe' learn a set vocabulary of moves, and performance is presented in an improvised lead-and-follow format. Together they weave a beautiful tapestry of dance that mesmerizes audiences. This dance is for women and by women regardless of age, shape or size. We dance for ourselves and each other, celebrating our own uniqueness and beauty with every step. No dance experience is required. Please wear comfortable, form fitting clothing such as yoga pants and a tank top. Jennifer A. Parilo, BSN, RN

Playing the Djembe Drum, the Traditional Rhythms of West Africa

The Djembe drum is the very popular goblet shaped hand-drum from West Africa. This class will start with the basics of hand drumming stressing technique and clarity of notes. We play multi part African rhythms where each drum plays a different pattern. Together the drummers create rich and interesting percussion music. The most important skill learned is listening to the other instruments and keeping in time, playing together. Playing in a tight drum circle is a transcendent experience and lots of fun with many proven health benefits. Drums are also available for purchase and the rental fee can be applied. Jim Davidson

**LEED® v4 Accredited Professional for Existing Buildings: Operations + Maintenance Exam Preparation Study Group**
The course will prepare students to earn the LEED for Existing Buildings Operations & Maintenance Accredited Professional (LEED AP O+M) credential from the Green Building Certification Institute. This exam tests the knowledge and skills necessary to participate in the operation and maintenance of existing buildings that implement sustainable practices and reduce the environmental impact of a building over its functional life cycle. Please note that experience on a LEED project is an eligibility requirement to sit for this exam. Students examine case studies of LEED for Existing Buildings Operations & Maintenance certified building projects, concepts of integrated design, third-party verification and the LEED administration process.

**Technical Writing**

**Technical Writing Certificate Program**
Technical writing and communication are among the fastest growing fields in the nation. Add something to that degree in English, History, Philosophy, Communications, Advertising or Marketing that will help you get a job using your language skills in this rewarding profession. Learn key concepts and specific techniques necessary for technical communication, and prepare for the challenges facing today's technical writer.

The Technical Writing Certificate Program includes:

I. Elements of Technical Writing I
II. Elements of Technical Writing II
III. Mathematics & Science for the Technical Writer
IV. Microsoft Word- Introduction or Intermediate
V. Adobe InDesign, Photoshop or Illustrator

**Requirements:** completion of all five courses; attendance at all sessions is required to receive a certificate. The successful completion of a practical exercise or written assignment directly related to your specialty will be part of the Technical Writing II. No certificates will be given to students who fail to successfully complete this related exercise or assignment.
The Bucks County Public Safety Training Center, located in Doylestown, and the Lower Bucks Public Safety Training Center, located in Bristol, are a partnership between the County of Bucks and Bucks County Community College. The Public Safety staff provides international, national, and state level fire, rescue, emergency medical, and hazardous materials training at both facilities and off-site locations, along with an Associate Degree in Fire Science.

The professional certification testing offered has been examined and accredited by the National Professional Qualifications Board (Pro Board). The Department of Public Safety Training & Certification offers professional certification in over 45 NFPA (National Fire Protection Association disciplines).

Our Virtual Campus offers both hybrid and online classes

What Are Hybrid Courses?
Hybrid courses take advantage of the best features of both face-to-face and online learning. In hybrid classes, a significant amount of the course learning activity happens online, making it possible for you to spend less time in the classroom. Traditional face-to-face instruction is reduced, without losing opportunities to meet face-to-face with your instructor and classmates.

Hybrid courses may have as few as two or three on-campus meetings; others may meet weekly or on a more regular basis. So you can plan accordingly--the number of meeting times and dates, as well as the campus location for the face-to-face activities, is specified in all credit course offering information.

What are Online (eLearning) Courses?
eLearning courses are taught completely online, typically through a learning management system. Even though students and instructors do not meet face-to-face, our eLearning courses are highly interactive. A few eLearning courses may allow students to proceed at their own pace, but most follow a schedule laid out by the instructor.

Both of these flexible learning options offer convenience, not ease. Whether a course is online or hybrid you can expect to:

- actively participate in online discussions with your instructor and classmates;
- spend time and effort reading all resource materials, such as textbooks and study guides, and interacting with course materials found on CDs, DVDs, and online;
- watch any required videos;
- complete any written or multi-media assignments - sometimes individually and sometimes in groups; and
- satisfactorily complete any examinations, which may need to be proctored in order to insure the integrity of the exam.

Bucks’ Virtual Campus offers the same excellent professors and small class size that you find in our face-to-face courses. All courses, whether eLearning or hybrid, follow the same master course outline, require the same work, fulfill the same program requirements, and receive the same credit as courses taught in the traditional manner. Just like face-to-face courses, eLearning and Hybrid courses have specific start date and end dates. The schedule of coursework, assignments, and due dates is determined by each instructor. You apply and register for eLearning and hybrid courses the same way you do for face-to-face courses, and you pay the same tuition and fees.

Wondering if hybrid or online courses are a good fit for you?
Contact the Virtual Campus office at virtual@bucks.edu or 215.968.8052.
They have tools to help you decide.

Details about all of our eLearning and hybrid offerings can be found on the Virtual Campus website at www.bucks.edu/welcome.
