9:00 am – 10:00 am

A Showcase of Canvas Courses

Gateway 129

Get inspired! Check out examples of some terrific e-learning, hybrid, and face-to-face Canvas course spaces developed by your own peers. Take a few minutes to look through the courses and ask the course developers any questions you might have. Discuss the online instructional strategies that really work with the people using them.

Presenter: Georglyn Davidson

**Gone Phishing...Be Back After I Steal Your Data:
Back By Popular Demand!**

Gateway 203

Join your colleagues for a discussion on best practices for keeping data and personal information secure – at home and at work. Discussion topics will include protecting your PII (Personal Identification Information), securing your data – both physically and electronically, and the importance of creating strong and unique passwords. Examples of recent phishing expeditions will be provided!!!

Protect yourself – and the College. Stop. Think. Connect.

Presenters: Jim Sell and Doug Burak

Learn Vocabulary in a Flash

Gateway 205

In this hands-on session you will learn how to configure and use an online flashcard tool called Quizlet. Once you show your students this versatile, flexible tool for spelling, learning, and testing of any subject they will be hooked! Be sure to bring your iPad, iPod, or smartphone as there is a mobile app, too!

Presenter: Linn Lisher

VoiceThread in the Classroom: Face-to-Face and Virtual Possibilities

Gateway 211

This session will introduce you to VoiceThread, one of latest and greatest media tools for teaching and learning. Learn how VoiceThread creates a greater opportunity for interaction and learning in face-to-face and online classrooms.

Presenters: Samantha Gross and Stephanie McBride

What's New in Learning Resources and A Bucks Fair(y) Use Tale

Gateway 213

Are you familiar with LibGuides? Do you know about the new iDea Lab for Teaching and Learning LibGuide with lots of wonderful resources for more effective teaching? Do you know that the Library subscribes to a new JSTOR Arts and Sciences Database? Do you know that we have a LibGuide for recent library acquisitions? Do you know what services are available in MInDSpace? Do you know about Online Tutoring Services? Confused about the rights and wrongs of adding media appropriately to your course? Confused about copyright/fair use? Attend this session to get up to speed on all the recent developments in Learning Resources.

Presenters: Mary Ellen Bornak, Jackie Fritz, Linda McCann, Marzenna Ostrowski, Nicole Tracey

Closed Caption for the Def

Library 220

Captioning in higher education has been difficult and costly. In the era of distributed media production, it becomes the domain of the individual to caption one's own videos with varying levels of support and it gets overlooked. Captioning still isn't instant (the technology exists, but is very rough) but come learn a less painful method for providing more access.

Presenter: Paul Proces

10:15 am – 11:15 am

How Do I Do That In Canvas?

Gateway 129

Your choice! This hands-on help session, designed for instructors already trained in Canvas, is entirely open-ended with no preset topics in mind. If there is a tool you have been wondering how to use, or how to use more effectively, we'll show you how. If there are tasks you have been struggling to make available online and don't quite know how to approach them, we'll help brainstorm ways to make it happen. Come with your questions and problems or just come to find out what others are doing. We learn so much from one another.

Presenter: Georglyn Davidson

Ellucian (formerly Datatel) WebUI 4.3 Overview

Gateway 203

Intimidated or confused by Ellucian (formerly Datatel) WebUI 4.3? Gain a hands-on overview of the new version and compare it to the old desktop interface. See all the new features and impress your co-workers with your newfound knowledge.

Presenter: Glenn Elliott

Mobile Apps Making Options

Gateway 205

Are you a newly minted iPad ninja looking to expand your skills? Want to dip your feet in the app creation waters, but not sure where to start? Come learn your options with estimated time investment.

Presenter: Paul Proce

An Overview of HelpStar and the Phone System

Gateway 211

Do you know what HelpStar is or have wondered why it is used? The HelpStar portion of this presentation will provide those answers as well as show some features of the system and how it can benefit your organizational chart.

Have you wondered why we shifted to a new phone system (IP telephony)? The second part of this presentation will provide an overview of the BCCC communications service platform and the integrated communications it provides.

Presenter: Mary Kuznicki and Cedric White

OnSync: Desktop Web Conferencing Solutions

Gateway 213

An overview of the desktop web conferencing tool OnSync and its applications in higher-ed learning.

Presenter: Damon Hunnicutt

**An Overview of the Bucks Wireless Networks of
Yesterday, Today, and Tomorrow!**

Library 220

This review will explain our simple beginning and growth, what wireless networks are currently available and how they are used, and preparation for supporting BYOD.

Presenters: Carol Oughton and Ron Smith

Collaboration Tools in Canvas

Gateway 129

Facilitating group work online has become much easier with Canvas. In this session you will learn about Canvas' collaboration tools which allow web conferencing, document sharing, and desktop sharing. Peer review of assignments and group work spaces will also be discussed.

Presenter: Georglyn Davidson

Using the More Advanced Features in Outlook Exchange

Gateway 203

This hands-on session will show you how to work with the advance features of Outlook such as working with calendars, sharing calendars and setting up meetings using the meeting scheduler feature. If you want to know how to more effectiviely use Outlook, this session is for you.

Presenter: Charlene Pipito

Mobilepalooza Round Table

Gateway 205

Join in this conversation with faculty, marketing, and Learning Resources areas to learn about the mobile landscape at Bucks.

Presenter: Jackie Fritz

An Overview of MyBucks and Making the Most of the Features in SharePoint

Gateway 211

Do you know all of the cool features MyBucks and SharePoint have to offer? If you would like to learn how to get the most out of MyBucks and SharePoint, then this is the session for you.

Presenter: Liz Sette

Pragmatic Prezis and Pretzels: How to Make Useful Presentations in Prezi

Gateway 213

In this presentation, instruction will be provided on how to create a Prezi Account, how to create a Prezi Presentation, and how to use the tools within Prezi. Creative Commons Media will be used in the presentation in order to illustrate how to find content that is not copyrighted. And we will cover the proper citation formats as well as explain the process of attribution.

Presenter: Matt Seibert

Screen Capture with Screenr: One Take Wonder

Library 220

Learning Screencasting the quick and dirty way. Perfectionists need not apply.

Presenter: Paul Proce

2:00 pm – 3:00 pm

Canvalytics & Best Practices

Gateway 129

This session will give you a better understanding of Canvas's analytic tools. Using visualizations, Canvas's tools provide you with insight into the effectiveness of course activities, student-instructor engagement patterns, and student performance. After exploring the tools, there will be a great opportunity to share your own best practices regarding Canvas.

Presenter: Georglyn Davidson

Better Ways to Read & Write

Gateway 203

This session will specifically focus on the ways in which the reading and writing features in the Read & Write Gold program can translate into classroom pedagogies and student centered learning outside of the classroom. In addition, there will be some discussion about use of the Smart Pen as an instructional tool that can benefit all students.

Presenters: Marie Cooper and Marge Zipin

iPads@Bucks

Gateway 205

The Bucks iPad pilot program participants and iPad support team will share their lessons, discoveries, bumps in the road, and how to overcome those bumps in using iPads in the classroom. If you are interested in joining this pilot program, please attend this session.

Presenter: Jackie Fritz

**An Overview of the College's SQL Project Migration and
What It Means To You**

Gateway 211

Participants are introduced to the business intelligence (BI) solutions using Microsoft SQL Server 2008. Coursework will use the full suite of BI technologies in SQL Server 2008, including Reporting Services, Analysis Services, and Integration Services and how these services are used to manage Big Data within and outside of the college. We will also review how the BI solutions support the Colleague/SQL migration.

Presenter: Rich Hartwell

Recording Audio/Video: Best Practices**Gateway 213**

Tips and best practices when recording audio and video for the virtual and physical classroom.

Presenter: Damon Hunnicutt

Mind Mapping with Margaret**Library 220**

In this presentation on mind mapping, faculty and staff across the institution will learn new ways to organize and present information to each other and to students. Frequently, this kind of visual organization technique helps the learner see connections and hierarchies in their information and find avenues to deeper learning. Mind maps and other similar techniques can be drawn by hand or created with various current web tools.

Presenter: Margaret Montet
