

# Bucks Welcomes the World

**Roonak Jahanpeyma, Germany**

I have been at Bucks for 2 years, and I can tell only nice things about Bucks. Teachers, students, advisors, and employees are very helpful and approachable. They are always there for you. The excellent instructors open the doors for the future and educate

you the best way possible. In retrospect, I would not choose any other college over Bucks. Thank you Bucks County Community College.

I have been in Bucks for almost 2 years and my experience at the school has been amazing. In the beginning it was difficult, but everyday, with sacrifice and heart, it's much better. I love being in Bucks because I met wonderful people, and I opened my mind in a good way to different things. I definitely recommend Bucks County Community College to any student.

**Daniel De la Peña, Peru**

**Mary Muchiri, Kenya**

I have confidence in stating that Bucks County Community College has the best teachers rarely found elsewhere. They not only teach well but give personal attention to any student who needs it, instill confidence in students, inspire and make a person feel capable of climbing higher. For over three years that I have been in this college, I can say that I have been motivated, inspired, and above all, been made to feel confident that I can do what I used to consider as challenging classes.

Bucks County Community College is a place where every student will find what they like. Bucks offers a great variety of majors, a great study environment, great professors, and staff who help with anything a student needs.

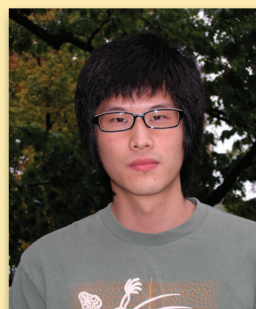

**Sergiy Mimkha, Russia**

**Zhanna Mynenko, Ukraine**

I am a happy person: Love my major, Food Service Management, enjoy my fun classes, and get help from every teacher with studying and planning for a better life. It is my 2nd year at Bucks, and there are no regrets or wishes of other colleges. Hands-on training, interesting lectures, exciting discussions and many new staff I am getting to know here. The only thing is homework. Still, that is what you need to do for your education, and that is how you learn. Thank you Bucks.

**Daniel Min, South Korea**

In my opinion, Bucks County Community College is a very wonderful place for students and especially international students. The international office and faculty members take care of us very well. BCCC does not have only good programs to study and get an education but also offers a nice and safe environment for the students.
