Connecting to the BUCKSguest wireless network
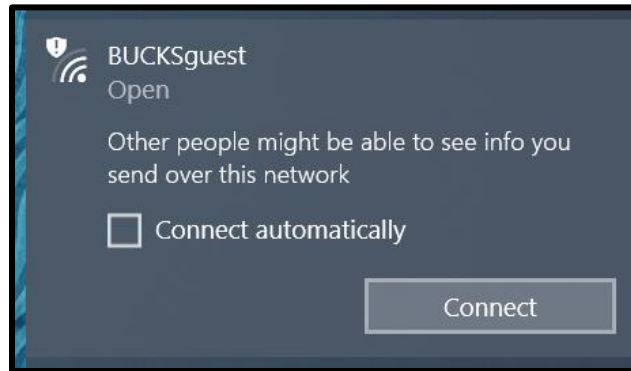

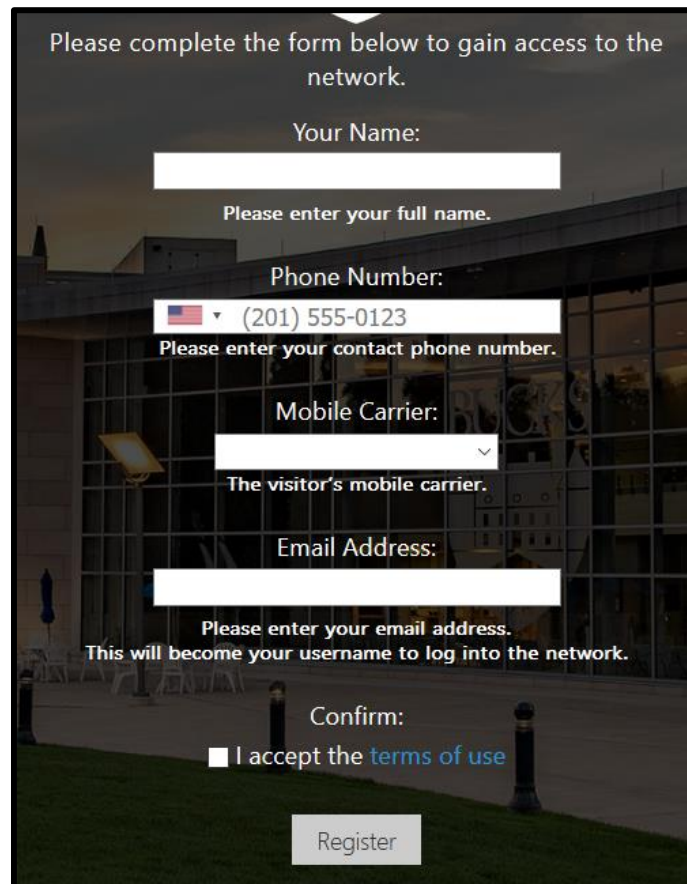

Follow these directions to connect to the BUCKSguest wireless network. Connections will be created for a 24-hour period starting from the initial registration. New registration is required after the 24-hour period has ended.
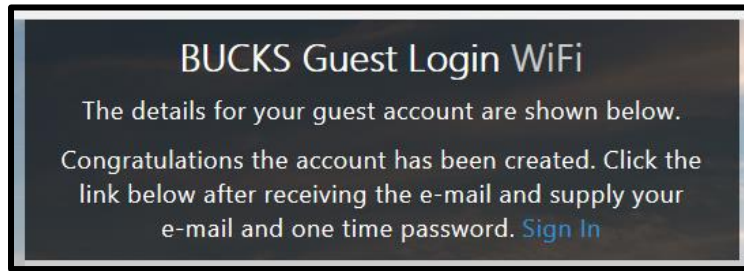

1. Access the wireless networks on your device and find the **BUCKSguest** network and connect.

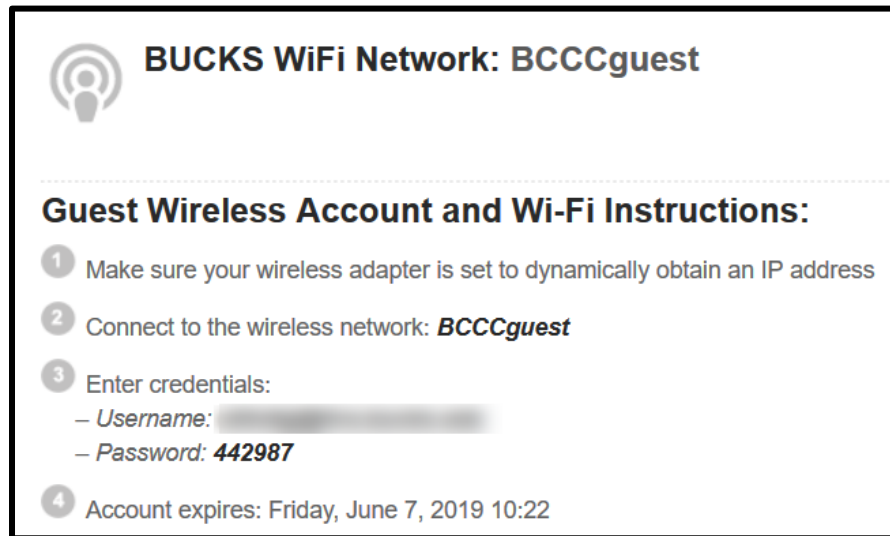

2. Your device should display an additional sign in request or launch a browser with a BUCKS Guest Login wifi page.

    - Type in **Your Name** and **Email Address**, check the box for "I accept the terms of use" and click the **Register** button. Phone Number and Mobile Carrier are optional. An email or text with further details will be sent to you. You **must** have outside access (cellular connectivity) to this email or text to connect.
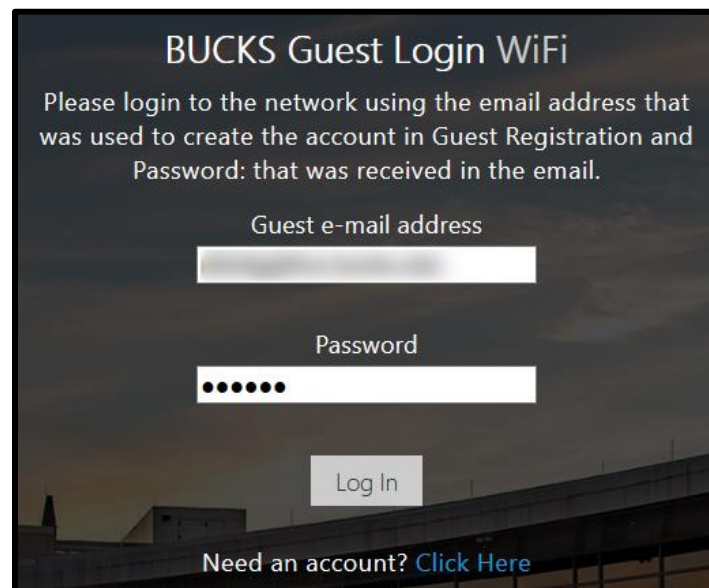

3. After you have entered your information and registered, click the **Sign In** link.

4. Below is an example email that will be sent to your account. Your username will be the email address you specified. The password is a unique 6 digit code for your access. Note the account expiration details in this email.

5. Enter the email address you specified and the password from the email and click **Log In**.

If you require additional assistance connecting to the BUCKSguest network, please contact the Help Desk at 215-968-8191 or email helpdesk@bucks.edu.
