Connecting to the BUCKSguest network on a Laptop

The BUCKSguest network is available for community patrons, vendors, and other guests of the college. Please be aware that this network is unsecured so entering sensitive information is not advisable.

Windows:

1. Click the wireless icon in the bottom left corner of your desktop. Choose the BUCKSguest network from the list of available networks and click Connect.

2. Open a web browser (Firefox, Chrome, or Internet Explorer) on your laptop and browse to any webpage. A User Agreement Policy will be displayed. Click the Accept button. After accepting the agreement, you should be connected to the network.

User Agreement Policy

User Agreement Policy The Mission of Bucks County Community College is to provide to the County's diverse population of learners comprehensive educational, training, and cultural opportunities that are accessible, affordable and convenient, and that will equip them to be successful and effective in their work and as citizens of the world. By clicking "Accept", I agree to abide by the rules and regulations of the College's Guide to Responsible Use of Electronic Communication at BCCC; I accept responsibility and meet all requirements, and I understand that network access privileges will be revoked if I fail to comply. I understand that: • If I connect to the UNSECURED BUCKSguest wireless network, that I do so at my own risk. • The College cannot guarantee privacy of electronic documents, and assumes no responsibility for the loss of data or unauthorized access to an individual's microcomputer due to computer viruses, other willfully destructive software, or from flaws and errors in the application or operating software on the microcomputer. BCCC reserves the right to disconnect any user at any time and for any reason. The BUCKSguest Wireless Network is provided as a courtesy to allow our guests access to the internet.
