Connecting to the BUCKSguest network on a Smartphone

The BUCKSguest network is available for community patrons, vendors, and other guests of the college. Please be aware that this network is unsecured so entering sensitive information is not advisable.

iOS:

1. Click the Settings icon on your home screen.

![Settings Icon]

2. Visit the Wi-Fi options and choose BUCKSguest.

![Wi-Fi Options]

3. A User Agreement Policy will be displayed. Click the Accept button. After accepting the agreement, you should be connected to the network.

![User Agreement Policy]
Android:

1. Go into your wifi settings. Choose the BUCKSguest network from the list of available networks.

2. You should receive a new notification. Swipe down from the top to bring up your notifications area. Click the Sign into Wi-Fi network option.

3. The User Agreement Policy will be displayed. Click the Accept button. After accepting the agreement, you should be connected to the network. If you do not see the policy, open a web browser on your phone and browse to any webpage.
