MyBucks – WebAdvisor Test Summary

The Bucks County Community College MyBucks is a way in which employees can access their WebAdvisor account. In the center of MyBucks, is the WebAdvisor tab that is specific to the individual where he/she can find personal information pertinent to their job and/or education at Bucks.

Test Summary

All students must take placement tests to enter the college unless they are eligible for a waiver from testing directly through an academic department or through previous college credit. Once testing is completed, a Test Summary is recorded in the student profile. The results can be accessed through the Academic Profile Menu. Once recorded all test scores are documented by type of test, date taken, score, percentile, status and status date.

1. Under the WebAdvisor banner in the middle of MyBucks, click WebAdvisor for Students. Click the Academic Profile category, then click Test Summary.
A window will appear with a description of what tests were taken and the scores. Courses are recommended based on the scores of placement tests. Click the “Click to view course placement options” link at the top to view the page.
