Agreement/Transfer Information

Guaranteed Admission

Students satisfactorily completing the Associate degree at Bucks County Community College are guaranteed admission to Albright College.

Core-to-Core Agreement

Albright College accepts the general education courses embedded in the BCCC Associate degree as meeting the requirements of its undergraduate general education, with the exception of its foreign language requirement (which can be completed at BCCC or Albright.)

Dual Admissions Agreement

Under the Dual Admissions Agreement, BCCC students will be guaranteed admission into a Bachelor's Degree program with third year (junior) status at Albright College on the condition that they:

- Graduate from BCCC with an Associate degree with a minimum cumulative GPA of 2.0;
- Complete a "[Dual Admissions Intent](#)" form before beginning their final semester at BCCC.
- Enroll in a parallel program at Albright College; and
- Satisfy all other Albright College transfer admission requirements.

Dual Admissions Advantages

BCCC students who satisfy the conditions of the Dual Admissions Agreement:

- will be governed by the Albright College degree requirements in effect at the time of signing the "Dual Admissions Intent" form;
- will receive credit for all courses in which a passing grade was earned;
- will have their Albright College application fee waived;
- can take one Albright College course per year free (maximum of three courses lifetime) while enrolled as a full-time BCCC student

Scholarships

- Dual Admissions students will be eligible for Albright College scholarships as follows:
- Full-time Albright College day students with a final BCCC grade point average of at least 3.0 may be eligible for scholarships of \$5,000-\$20,000.
- Part-time day students taking two Albright courses per semester will receive \$200 per semester.
- BCCC graduates entering Albright's Evening Accelerated Degree Completion Program will be awarded a \$2,500 Partnership Scholarship.

What this means

A full-time student admitted with third year (junior) status to Albright College should be able to complete a Bachelor's Degree in a parallel program at Albright College within four regular semesters or 24 months in the accelerated program provided that the student :

- completes the appropriate Associate Degree program requirements at BCCC,
- completes the appropriate sequence of courses at Albright College.

Generally, a baccalaureate degree consists of three components:

Core Curriculum or General Education requirements (usually 36-54 credits)

Major courses (consists of specific courses and electives within the major)

Free Electives (college level courses from any discipline that are used to complete the remaining credit requirements for the degree.)

A fourth component: business programs usually have core requirements of their own in addition to the college/university's core.

Upon transfer, the Core-to-Core agreement allows the transfer student to concentrate primarily on completing the remaining courses in the major and the free electives in the junior and senior year.

The most efficient transfer is to first earn an Associate degree at Bucks and then transfer to Albright College. This degree path allows most of Albright's general education requirements to be satisfied. Then, the student need meet only the graduation requirements of the chosen baccalaureate major.
