PARTNERSHIP AGREEMENT
BETWEEN
BUCKS COUNTY COMMUNITY COLLEGE
AND
MIDDLE BUCKS INSTITUTE OF TECHNOLOGY

National Occupational Competency Testing Institute

I. Purpose

Middle Bucks Institute of Technology (MBIT), in partnership with Bucks County Community College (BCCC), will provide both the written and performance sections of the National Occupational Competency Testing Institute (NOCTI) Experienced Worker Assessment for Bucks County Community College.

II. Operational Considerations

A. Test Administrator – MBIT Adult & Industry Education Coordinator - Schedules assessment and administration, including ordering test package, coordinating performance assessment by certified master evaluator, registration requirements, and fees under the conditions set forth by the National Occupational Competency Testing Institute.

B. Certified Master Evaluator – Administers performance assessment in an appropriate laboratory, industrial or clinical setting, including ordering materials needed for evaluation.

C. NOCTI Assessments Offered at MBIT
   Advertising and Design
   Automotive Technician
   Audio-Visual Communication Technology
   Building Construction Occupations
   Carpentry
   Childcare and Guidance
   Collision Repair
   Cosmetology
   Electrical Construction
   Electrical Installation
   Electronic Technology
   Plumbing
   Precision Machining
   Welding

III. Fee Structure

A. Job Ready/Student Assessment Services    $15.00

   Includes both the NOCTI written and performance portions to assess theoretical
concepts and manipulative skills required for certification of completion. We will provide the scoring and reporting services to BCCC for the experienced worker and student wishing to enroll in BCCC.

B. Evaluator Compensation $150.00-$250.00

Fee will be determined by a contract agreement between the school and the evaluator based on number of candidates scheduled and the amount of time designated for performance portion of the test. Required performance time varies for each assessment.

C. Administration $200.00

Includes administrative costs, materials needed for performance work assignments, and janitorial services. Candidate assumes cost incurred for NOCTI Assessment as determined by a contract agreement.

D. Credits Awarded by BCCC

When the student passes the NOCTI for Precision Machining or Electrical Technology the student will receive:
  18 credits for passing the NOCTI exam
  15 credits if employed six (6) years in that trade

TOTAL 33 CREDITS

BCCC is providing these amounts of credits for the persons who have journeymen status without actual papers.
