Agreement/Transfer Information

Transfer Articulation with Bucks

Students who enroll in a baccalaureate program that is parallel to the major in which they received the Associate of Arts degree should need no more than 20 additional units (60 semester hour credits) to complete the Bachelor of Arts, Bachelor of Fine Arts or the Bachelor of Science degree.

Terms of Agreement

Students must earn the Associate of Arts (A.A.) degree from BCCC
Students must have a minimum cumulative GPA of 2.0 (Students with a 2.5 minimum will be automatically accepted)
Courses in which a "D" has been earned within the AA degree will be applicable to fulfillment of core or elective requirements.

What this means

Two years at Bucks, Two years at Rosemont

Students who follow a transfer program that parallels a similar program at Rosemont, can expect a smooth transfer that will result in junior status and the completion of the final two years of a four-year program at this institution.

This is contingent upon students graduating with an AA degree from Bucks.

Rosemont will accept a maximum of 60 credits in transfer and will not consider any developmental or remedial coursework in transfer.

Students interested in this program, should consult the Transfer and Job Resource Office for information on satisfying Rosemont's core requirements while at Bucks.

Students can expect to receive credit for most exams through the College Level Examination Program (CLEP) for scores equivalent to a "C" average or better.
