Our records indicate that you (or your parents) own some type of business or farm. You or your parents may have also listed depreciation of assets for your business or farm on your/their 2009 tax return. Depreciation is measuring a loss in value of an asset. Therefore, you must determine a current value of the assets that were depreciated on your/their 2009 tax return. In addition if you owe any debts on the assets you are depreciating; please list them under the debt column. If you have any questions about these items you should contact your tax preparer to get more of an understanding of your 2009 tax return.

Do not include the value of a family farm that you (your spouse and/or your parents) live on and operate. Do not include the value of a small business that you (your spouse and/or your parents) own and control and that has 100 or fewer full-time or full-time equivalent employees. You must include the value of your fixed assets of the business.

Please affix your and your parents’ (if applicable) signatures to the bottom of this form.

Business and/or investment farm value includes the market value of land, buildings, machinery, equipment, inventory, etc. Business and/or investment farm debt means only those debts for which the business or investment farm was used as collateral.

Please note: Any student or parent who declares depreciation value on their 2009 taxes and reports no business value will have this form returned.
