Alex Kolmakov ('11) transferred to Bucks from St. Petersburg State University in Russia to pursue what he calls the American Dream of higher education. The pre-allied health major, who now lives in Warminster, plans to continue on to medical school and become a physician like his father.

“The tuition at Bucks is relatively affordable compared to other universities, and the outcome is the same. Plus Bucks has transfer agreements with prestigious schools like Drexel and Temple. It’s affordable, convenient, and close to home.”

Col. Paulette Schank, MSN ('79), Commander of the 514th Aerospace Medicine Squadron at McGuire Air Force Base, N.J., is a nurse anesthetist at St Mary Medical Center. She served over 21 years in the Air Force Reserves with multiple deployments including Operation Desert Storm and two tours of duty in Operation Iraqi Freedom, and was featured on 60 Minutes’ “A Fighting Chance” in 2006. Schank also participated in multiple medical humanitarian missions to Peru, Honduras, Haiti and Africa, and was the keynote speaker to the National Convention of Operating Room Nurses.

“I chose Bucks to obtain my associate degree in nursing for several reasons. It offered a flexible program allowing me to continue to work and support my family while attending school. It also had reasonable tuition fees and a great reputation. Bucks’ nursing faculty were incredibly supportive, emulating the essence of nursing. I would recommend BCCC to anyone interested in pursuing a nursing career.”

Dr. S. Kuriakose ('02), who recently earned her Ph.D., credits Bucks and a particular professor with inspiring her to enter biochemistry.

“When I came to Bucks, I really didn’t know what I wanted to do or where I was going. It was Dr. Letitia El-Naggar and her organic chemistry class that inspired me to go to Penn State in 2002 for my Biochemistry and Chemistry B.S. degrees. After Penn State, I went on to graduate school at Drexel University College of Medicine, where I recently defended and passed my Ph.D. I am currently revising two papers for publication to Biochemistry. I can honestly say that I would not be here today if it wasn’t for her.”
