BUCKS COUNTY COMMUNITY COLLEGE
THE COMMUNITY’S COLLEGE

OUR MISSION IN THE COMMUNITY

The Mission of Bucks County Community College is to provide to the County’s diverse population of learners accessible, affordable, convenient, and comprehensive educational, training and cultural opportunities that will equip them to be competent and effective in their work and as citizens of the world.

Vision

Bucks County Community College will be a center for innovative educational opportunities with a national reputation for learning earned by the success of our students and the integrity and skill of our faculty and staff.

Core Values

- Respect for the individual.
- Continuous learning, which fosters success in and out of the classroom.
- Excellence in teaching and the work we do.
- Innovation and open-mindedness.
- Diversity and an understanding of world cultures.
- Collaboration with co-workers, individuals, business, the community, and other learning institutions.
- Responsible stewardship of resources.
- Excellence in service to our students, the community, and each other.

Institutional Goals

The goals of Bucks County Community College are to:

- Prepare students to transfer to four-year institutions.
- Prepare students to enter the workforce.
- Enhance students’ performance in the workplace.
- Provide support and services to help students reach academic success.
- Develop the social and ethical responsibility of our students.
- Enrich the cultural, recreational, and intellectual life of the community.
- Continue to improve our teaching, learning, service, and technical proficiencies.
BUCKS COUNTY COMMUNITY COLLEGE

NURSING PROGRAM

Welcome to the Associate Degree Nursing Program at Bucks County Community College.

Historical Perspective

Associate Degree Nursing (ADN) is in its 49th year, since its inception and implementation by Dr. Mildred Montag, Teachers College, and Columbia University. The ADN programs were developed through research.

ADN programs were developed and based on the following premises:

The function of nursing can and should be differentiated
These functions lie along a continuum, with the professional at one end and the Associate Degree nurse at the other end. At a point on the continuum, the functions may overlap and the roles of the two come very close.

In 1967-1968, Bucks County Community College conducted a study to evaluate the community’s needs for future educational programs. The outcome of this study indicated a need for a program in nursing.

Further support came from recommendations made by the Middle Atlantic States Evaluation Committee. The Bucks County Community College’s Board of Trustees reviewed the recommendations and voted to endorse a nursing program. In 1969, 33 students enrolled in the first class. Since the inception of the program 3,154 students have graduated from Bucks County Community College’s Associate Degree Nursing Program.

Accreditation Status

Bucks County Community College is fully accredited by the Middle States Association of Colleges and Secondary Schools. The College is also an approved institution of higher education in Pennsylvania by the Department of Education of the Commonwealth. Current NCLEX-RN success rates are available at http://www.portal.state.pa.us/portal/server.pt?open=514&objID=572050&mode=2

The Associate Degree Nursing Program is fully approved by the Pennsylvania State Board of Nursing and is accredited by the National League for Nursing Accrediting Commission located at 3343 Peachtree Road, NE, Atlanta Georgia 30326.
PHILOSOPHY

The philosophy of the Nursing Program is consistent with the core values and mission of the College. We affirmatively recruit and provide assistance to students from all racial, ethnic, cultural, and economic backgrounds. We subscribe to the College’s definition of an educated person. Our purpose is to prepare students for entry-level registered nurse positions.

The program of study meets the requirements of the Associate of Arts degree and the nursing graduates are eligible to sit for the National Council Licensure Examination for Registered Nurses. (NCLEX-RN)

Recognizing the dignity and worth of all human beings that deserve respect, we believe that:

**INDIVIDUALS** are unique beings with needs, possessing their own value systems, and have the right to make decisions concerning their health care for the purpose of reaching their optimum state of health and wellness.

**NURSING** is the art and science of caring for and about individuals. Nurses are advocates on behalf of individuals when they are vulnerable to alterations within their environment. Nurses utilize the nursing process to diagnose and treat responses to actual and potential health problems and alleviate suffering.¹

**EDUCATION** is a continuous process of growth resulting in measurable changes in the learner’s behavior. Learning is a highly individual experience that takes place in a variety of settings and proceeds at different rates.

**ASSOCIATE DEGREE NURSING EDUCATION** should be an integral part of the system of higher education. To that end, our course sequence is designed to provide an integrated education in the sciences and the humanities. Further, our Associate Degree Nursing Program proceeds from less complex to more complex in a related organized sequence of learning objectives. These objectives correlate theory with clinical practice using a wide variety of learning experiences. The program develops caring, critical thinking, and inquiring students ready to grow and serve society as nurses and citizens.

**ASSOCIATE DEGREE GRADUATES** use critical thinking and clinical judgment in the practice of nursing and are accountable as direct care providers in settings where patients experience problems that are common to the general population. Nursing practice is defined through the roles of provider of care, manager of care, and member within the discipline. The graduates are skilled in the use of the nursing process in caring for the health-care consumer. They direct less prepared health care providers and are directed by more experienced and/or professional nurses.

The ultimate responsibility, and first priority, of the nursing faculty is to assure the health-care consumer that our graduates are safe, competent, and caring practitioners.

The Nursing Faculty at Bucks County Community College conceives that the notion of nursing as an art and science of caring. Caring includes five concepts. They are: AWARENESS, KNOWLEDGE, INTENTION, POSITIVE CHANGE, and CRITERION WELFARE. These caring concepts reflect a nurturing concern for individuals as they respond to alterations in their environments.

NURSING is a learned skill, requiring a high degree of AWARENESS that an individual has an alteration in their needs and assistance is required, a KNOWLEDGE of nursing principles that can assist an individual’s response while guiding one’s action, a strong INTENTION to assist the individual to effect POSITIVE CHANGES in the individual’s response through the utilization of the nursing process.

KNOWLEDGE of nursing principles that can assist an individual is imperative. The nurse must have a strong INTENTION of caring to be able to assist the individual in a POSITIVE CHANGE. It also reflects, in this larger context, a more generalized CRITERION that is consideration for an individual’s welfare and human dignity, when this individual is to be in a vulnerable state.

However; there is a caveat in that wellness must not be defined solely by the health care provider, but must be seen as a partnership between individuals in need of care and the health care team, of whom the Associate Degree Nurse is an integral part. To that end, the science of caring is reflected in a systematic use of nursing knowledge through the nursing process. The art of caring applies the nursing process in a manner that engenders respect for the uniqueness of each individual and that values human dignity and worth.

CARING is evidenced by touch, trust, nurturance, empathy, and compassion. Individuals are the center of nurses’ caring. In order to teach caring attitudes and activities, the program of study presents essential concepts as a recurring theme which increases in complexity. The caring concepts flow outward from and encircle the individual.

The individual has needs which may be affected by alterations in the internal or external environment. These needs are categorized into Functional Health Patterns. The alterations in these Functional Health Patterns are approached by using common health problem prototypes. When an individual has an alteration in his/her needs, they may respond to these alterations effectively, potentially ineffectively, or ineffectively. Therefore, nursing must be a force acting on their behalf when the individual is vulnerable to an alteration in his/her environment and unable to adapt.

Roles Of The Nurse

Using nursing knowledge and the nursing process, the nurse functions in three designated roles to fulfill caring behaviors and activities. Therefore, caring is a mediated action accomplished through the three roles: Provider of Care, Manager of Care, and Member within the Discipline.

The program of study progresses through four nursing courses, which initially introduce these concepts, then applies them in concurrent laboratory and clinical experiences that build in complexity. Cognitive, affective, and psychomotor skills

---

2 Gaut, D. “Development of a theoretically adequate description of caring”. Western Journal of Nursing Research; Fall 1983.
related to individuals’ health patterns and the three responses to alterations are applied to patients of all ages and stages of development. Initially dealing with singular and advancing to those, which are multifaceted problems.

**Program Outcomes or Student Educational Outcomes**

The Bucks County Community College graduate will practice the three Associate Degree Nursing roles in a safe, competent, and caring manner. The graduate nurse will use critical thinking to apply the theoretical knowledge from the cognitive, affective and psychomotor domains to:

1. Communicate in a professional manner that acknowledges and preserves the individual’s dignity and worth, while recognizing cultural differences.

2. Apply the nursing process to diagnose and treat individual and family responses to alterations in their functional health patterns.

3. Collaborate with the health care team to manage groups of patients with predictable outcomes while appropriately delegating duties to other health care providers.

4. Demonstrate awareness of today’s health care delivery system and its impact on future health, act according to and within the legal and the ethical standards set forth by the Pennsylvania Nurse Practice Act, the College, the Nursing Program, the legal-system at large, the affiliating agency, and the agencies accreditation bodies.

Functional Abilities List

Bucks County Community College AD Nursing program is committed to students achieving their educational goals in a safe environment for students and patients alike. The following are considered functional abilities necessary for all students to safely complete the Program Outcomes, provide patient care, and practice nursing. If students believe they are not able to perform one or more of these activities, the student should discuss this with their instructor, or the Director of Associate Degree Nursing. If a student is aware of a disability that may be affecting the ability to meet the functional abilities, the student is encouraged to self identify to the Office of disAbility Services. The college is committed to provide reasonable accommodations for otherwise qualified students with a disability. The AD nursing program and various campus resources, including the Office of disAbility Services, will work with the student to provide a safe optimal learning environment.

Functional abilities are physical and mental activities and attributes needed by a nurse to practice safely. The following list was developed in part from the National Council of State Boards of Nursing, Inc. Validation Study: Functional Abilities Essential For Nursing Practice., 1996 by Carolyn J Yocom and guidance from the Pa State Board of Nursing Memorandum dated February 28, 2001.

<table>
<thead>
<tr>

Program Outcome Evaluation:

1. First-time candidates will achieve a pass rate at or above the national mean on the NCLEX-RN.

2. Seventy percent (70%) of the students who enter Nursing I will graduate in two years.

3. Eighty percent (80%) of graduating students report program satisfaction.

4. Eighty percent (80%) of the graduates seeking employment will obtain an entry-level position within six (6) months after graduation.

5. Seventy percent (70%) of the employers report satisfaction with graduate performance.

6. Articulation agreements are in place with Colleges/Universities (BSN Programs).

NURSING PROGRAM OF STUDY

The Nursing Program of study consists of 67 credits, 37 general education and 30 nursing credits. All of these courses add to the practice of nursing and are required to graduate. Further information and descriptions of these courses can be found at [www.bucks.edu](http://www.bucks.edu) or in the college catalog.

</tbody>
</table>
I. Course Number and Title:

NURS101 Nursing I

II. Number of Credits:

6 credits

III. Minimum Number of Instructional Minutes Per Semester:

2250 classroom instructional minutes, 2250 college learning laboratory minutes, 4500 clinical instructional minutes

IV. Prerequisites:

$100 nursing fee, plus other fees

Must meet Admission criteria

Co requisites:

CHEM101 and BIOL181 and COMP110

V. Other Pertinent Information:

Students must meet with a nursing faculty advisor. Enrollment is based on a GPA of 2.5. Within one month of their acceptance into the course, students must submit:

1. A "Request for Criminal Record Check"
2. Child Abuse Clearance Form
3. Certification of Health Status (forms are available in Penn 439)
4. Certification in CPR: Health Care Provider

Students are required to purchase a uniform, white shoes, a wrist watch with a sweep second hand, lab pack, and a stethoscope.

Fees:

5. Nursing fee: $150.00/course
6. Malpractice Insurance: $15.00/course
7. Nursing Laboratory Fee: $20.00/course
8. Standardized Testing Fee: TBD
VI. Catalog Course Description:

In Nursing I, students learn the cognitive, psychomotor, and communication skills associated with nursing that recognizes the needs of culturally diverse individuals in a healthy state. The nursing process is introduced. Students use current technology to analyze and integrate data.

VII. Required Course Content and Direction:

A. Learning Goals:

The nursing student using the three associate degree roles will act in a safe, competent, and caring manner. Critical thinking will be used to apply the theoretical constructs from the cognitive, affective, and psychomotor domains to:

1. Acknowledge the dignity and worth of each individual and be aware of the cultural differences that impact on the nurse’s roles.
2. Define and apply the nursing process as it relates to effective patient responses.
3. Identify basic individual learning needs of patients with knowledge deficits.
4. Prioritize the care required, of one patient with simple needs, under direct supervision of the clinical instructor.
5. Act according to, and within the legal and ethical standards set forth by the Pennsylvania Nurse Practice Act, the College, the Nursing Program, the legal-system at large, the affiliating agency, and the agencies' accreditation bodies.

B. Planned Sequence of Topics and/or Learning Activities:

Refer to Nursing Curriculum/Course Format for NURS 101: Nursing I, the Art and Science of Caring.

C. Assessment Methods for Core Learning Goals:

D. Reference, Resource, or Learning Materials to be used by Students:

Current textbooks are listed on the student reference list in the Course Format. All listed texts are on reserve in the library. Interactive videos are in the college library. Videocassettes are available for viewing in the college laboratory.

VIII. Teaching Methods Employed:

Interactive lecture, case studies, videos, demonstration of stalls with supervised student practice and re-demonstration by the student in the college laboratory, as well as clinical site, and clinical pre and post conferences.

Review/Approval Date - 3/99
I. **Course Number and Title:**

NURS102 Nursing II

II. **Number of Credits:**

6 credits

III. **Minimum Number of Instructional Minutes Per Semester:**

2250 classroom instructional minutes, 2250 college learning laboratory minutes, 4500 clinical instructional minutes

IV. **Prerequisites:**

$100 nursing fee, plus other fees; COMP110, NURS101, CHEM101, BIOL181, BIOL182 and BIOL228 and HLTH120

V. **Other Pertinent Information:**

Within one month of their acceptance into this course students must submit a current:

1. "Request for Criminal Record Check"
2. Child Abuse Clearance Form
3. Certification of Health Status (forms are available in Penn 439)
4. Certification in CPR: Health Care Provider

Students are required to purchase a uniform, white shoes, a wrist watch with a sweep second hand and a stethoscope.

Fees:

5. Nursing Fee: $150.00/course
6. Malpractice Insurance: $15.00/course
7. Nursing Laboratory Fee: $20.00/course
8. Standardized Testing Fee: TBD
VI. Catalog Course Description:

In Nursing II, students learn the nursing care of various age individuals who have alterations in their needs. Providing care to individuals with potentially ineffective responses is emphasized, and ineffective responses are introduced. Students use current technology to analyze and integrate data.

VII. Required Course Content and Direction:

A. Learning Goals:

Critical thinking will be used to apply the theoretical constructs from the cognitive, affective, and psychomotor domains to:

1. Initiate and perform caring nursing practices that meet the individual's basic needs without compromising the individual's dignity and worth, with appropriate supervision from the nursing faculty.
2. Utilize the nursing process to diagnose and treat patients with common potentially ineffective responses to alterations in the functional health patterns.
3. Demonstrate therapeutic communication skills with patients who have common health problems, share the findings with other health team members.
4. Describe individual learning needs for patients with common health problems and collaborate and assist with developing and implementing a basic teaching plan.
5. Prepare a prioritized and individualized plan of care for a patient or patients with basic health needs. Act according to, and within the legal and ethical standards set forth by the Pennsylvania Nurse Practice Act, the College, the Nursing Program, the legal-system at large, the affiliating agency, and the agencies' accreditation bodies.

B. Planned Sequence of Topics and/or Learning Activities:

Refer to Nursing Curriculum/Course Format for NURS 102: Nursing II, the Art and Science of Caring.

C. Assessment Methods for Core Learning Goals:

D. Reference, Resource, or Learning Materials to be used by Students:

Current textbooks are listed on the student reference list in the Course Format. All listed texts are on reserve in the library. Interactive videos are in the college library. Videocassettes are available for viewing in the college laboratory.

VIII. Teaching Methods Employed:

Interactive lecture, case studies, videos, demonstration of skills with supervised student practice and redemonstration by the student in the college laboratory, as well as clinical site, and clinical pre and post conferences.

Review/Approval Date - 3/99
I. Course Number and Title:

NURS201 Nursing III

II. Number of Credits:

9 credits

III. Minimum Number of Instructional Minutes Per Semester:

3750 classroom instructional minutes, 9000 clinical instructional minutes

IV. Prerequisites:

$100 nursing fee, plus other fees

NURS102, BIOL228, BIOL182, HLTH120,

Co requisites:

PSYC110 and SOCI110 and COMP111

V. Other Pertinent Information:

Within one month of their acceptance into this course, students must submit a current:

1. "Request for Criminal Record Check"
2. Child Abuse Clearance Form
3. Certification of Health Status (forms are available in Penn 439)
4. Certification in CPR: Health Care Provider

Fees:

5. Nursing Fee: $150.00/course
6. Malpractice Insurance: $15.00/course
7. Nursing Laboratory Fee: $20.00/course
8. Standardized Testing Fee: TBD
VI. **Catalog Course Description:**

Nursing III students care for individuals who have alterations in their functional health patterns with potentially ineffective responses. The nursing process is utilized to diagnose and treat the responses. Clinical experience is expanded to allow for increased student-patient interaction and practice settings. Students use current technology to analyze and integrate data.

VII. **Required Course Content and Direction:**

A. **Learning Goals:**

The nursing student, using the three associate degree roles, will act in a safe, competent, and caring manner. Critical thinking will be used to apply the theoretical constructs from the cognitive, affective, and psychomotor domains to:

1. Apply caring nursing practices, to facilitate patient responses, while maintaining individual dignity and inherent worth, working within the constraints of cultural variances.
2. Utilize the nursing process in diagnosing and treating more complex potentially ineffective and ineffective patient responses to alterations in functional health patterns.
3. Employ therapeutic communication interactions with increasingly complex patients; and collaborate effectively with other members of the health care team.
4. Develop and implement teaching plans for patients with increasingly complex needs; communicate the plans with the patent, their families, significant others, and the health care team.
5. Organize individualized care for increasing numbers of complex patients, prioritize patient's needs, and implement and delegate care.
6. Act according to, and within the legal and ethical standards set forth by the Pennsylvania Nurse Practice Act, the College, the Nursing Program, the legal-system at large, the affiliating agency, and the agencies' accreditation bodies.

B. **Planned Sequence of Topics and/or Learning Activities:**

Refer to Nursing Curriculum/Course Format for NURS 201: Nursing III, the Art and Science of Caring

C. **Assessment Methods for Core Learning Goals:**

D. **Reference, Resource, or Learning Materials to be used by Students:**

Current textbooks are listed on the student reference list in the Course Format. All listed texts are on reserve in the library. Interactive videos are in the college library. Videocassettes are available for viewing in the college laboratory.

VIII. **Teaching Methods Employed:**

Interactive lecture, case studies, videos, demonstration of skills with supervised student practice and re-demonstration by the student in the college laboratory, as well as clinical site, and clinical pre and post conferences.

II. Number of Credits:
9 credits

III. Minimum Number of Instructional Minutes Per Semester:
3750 classroom instructional minutes, 9000 clinical instructional minutes

IV. Prerequisites:
$100 nursing fee, plus other fees
NURS210, SOCI110, PSYC110,

Co requisites:
COMM110 and Cultural Perspective

V. Other Pertinent Information:
Student must have current certification in CPR: Health Care Provider.

Fees:
1. Nursing Fee: $150.00/course
2. Malpractice Insurance: $15.00/course
3. Nursing Laboratory Fee: $20.00/course
4. Standardized Testing Fee: TBD
VI. **Catalog Course Description:**

Nursing IV continues with the nursing care that assists individuals to respond to alterations in every functional health pattern and ineffective responses to each of those alterations, emphasizing the cognitive perceptual health pattern. Students care for patients and use current technology to analyze and integrate data.

VII. **Required Course Content and Direction:**

A. **Learning Goals:**

The graduate will practice the three associate degree roles, in a safe, competent, and caring manner. Critical thinking will be used to apply the theoretical constructs from the cognitive, affective, and psychomotor domains to:

1. Communicate in a professional manner that acknowledges and preserves the individual's dignity and worth, while recognizing cultural differences.
2. Apply the nursing process to diagnose and treat individual and family responses to alterations in their functional health patterns.
3. Collaborate with the health care team to manage groups of patients with predictable outcomes while appropriately delegating duties to other health care providers.
4. Demonstrate awareness of today's health care delivery system and its impact on future health, act according to and within the legal and ethical standards set forth by the Pennsylvania Nurse Practice Act, the College, the Nursing Program, the legal system at large, the affiliating agencies and their accreditation bodies, and the nursing profession.

B. **Planned Sequence of Topics and/or Learning Activities:**

C. **Assessment Methods for Core Learning Goals:**

Functional Health Patterns

The following health patterns are 11 categories of health care assessment. These patterns provide structure for your collection of data and an organized approach to health care. According to Gordon (2010) the functional health patterns:

- Encompass a holistic approach to human functional assessment in any setting for any age group at any point along the health care continuum. They incorporate the concepts of client environment interaction, age developmental level, and culture in the holistic dynamics of life patterns. All functional health patterns are interrelated.
- Are applied and expanded as clinical knowledge accumulates within the nursing setting or specialty or in the case of students across nursing specialties.
- Guide the collection of information on the client, the client’s family, or the community; and their experience of events and problems related to health and health management.

The following is a list of the Functional Health Patterns with North American Nursing Association (NANDA) with a partial list of approved nursing diagnosis problem statements, most NANDA diagnoses problem statements may include a Potential for or Risk for component. For reference purposes, The NANDA Diagnostic Statement is usually listed by the diagnostic concept, not the first word of the diagnosis.

**Health Perception and Health Maintenance**

Describes how clients consider health and well-being and how health is managed. Health Promotion activities and adherence to medical and nursing prescriptions are considered.

<table>

Infant behavior Organized Readiness for enhanced  |  Walking Impaired  
Intracranial Adaptive Capacity Decreased  |  Wandering  

Sleep Rest

Describes patterns of rest, sleep, and relaxation. Perceptions of quality and quantity of sleep are considered as well as aids to sleep and bedtime routines.

| Interrupted Sleep Pattern  |  Sleep Deprivation  
| Insomnia  |  Sleep, Readiness for enhanced  

Sexuality-Reproductive

Describes patterns of satisfaction or dissatisfaction with sexuality and reproductive functioning. The client’s reproductive history including menarche, menstrual patterns, childbearing and post menopausal history are considered.

| Childbearing process enhanced: Readiness for  |  Sexual Dysfunction  
| Maternal- Fetal Dyad: Disturbed Risk for  |  Sexuality Patterns Ineffective  
| Rape Trauma Syndrome:  |  

Cognitive-Perceptual

Describes the client’s patterns of sensory perception and cognitive abilities. This pattern includes the adequacy of the sense and prostheses used for assistance such as glasses and hearing aids. Pain and pain management are focused on in this pattern. Cognitive functions such as language, memory, judgment, and decision-making are addressed.

| Activity (Task) Planning Ineffective  |  Environmental Interpretation Syndrome Impaired  
| Comfort Readiness for enhanced  |  Knowledge Deficit  
| Comfort: Impaired  |  Knowledge, readiness for enhanced  
| Confusion: Acute or Chronic  |  Memory impaired  
| Confusion: Risk for Acute  |  Pain: Acute or Chronic  
| Decisional Conflict  |  Sensory Perception disturbed  
| Decision Making: Enhanced Readiness for  |  Unilateral Neglect  

Self-Perception, Self Concept

Describes attitudes about self-perception ability, image and general sense of self. Body image concepts and self-injury are considered in this pattern.

| Anxiety  |  Powerlessness & risk for  
| Anxiety Death  |  Readiness for enhanced self concept

References:

Johnson, M  PhD, RN, Bulechek, G  PhD, RN, FAAN, et. al. (2006) *NANDA, NOC, and NIC Linkages, - Nursing Diagnoses, Outcomes, and Interventions.* (2nd ed.)Saint Louis: Mosby

EVALUATION: TESTING AND GRADING

I. Testing:

A. There will be scheduled examinations given during each of the courses using percentages.

   2. Final courses grades are available to students on Web Advisor. Grades will not be issued if the student has any encumbrance(s).
   3. No grades will be given via telephone, or mailed in self-addressed envelopes.

B. The days, dates, and times of the examinations will be listed in the course format.

C. Re-examinations will not be given.

D. Missing an examination.

   MISSED TESTS/EXAMINATIONS:

   1. The student is expected to prepare for and to be present for examinations on the scheduled date.
   2. The student must contact the faculty member or Nursing Program Office to report their absence.
   3. The student who is absent on the day of the examination will be required to complete the exam on their first day of return to the college.
   4. The student must contact the faculty member to make arrangements for administration of the exam. The exam may not be scheduled during hours when the student is presently scheduled for class, nursing laboratory, or clinical experience.
   5. The exam administered will be scored at eighty (80) percent of the original. The remainder of the exam 20% will be comprised of written questions related to the objectives and concepts being tested.
   6. Failure of the student to take an exam will result in an incomplete grade.

D. The student has the option to review the examination within the week following the issuance of the examination grade. An appointment for this purpose must be scheduled with the classroom instructor during office hours. The instructor reserves the right to extend this deadline to 2 weeks; however, the student must contact the instructor within the week timeframe. These hours are posted on the instructor’s door. Faculty members are not available after finals week. Faculty members are the only individuals that can review an examination and issue a grade change.

E. Students are expected to follow the code of conduct as outlined in the College Catalog and on the web http://www.bucks.edu/about/policy/conduct/. Failure to do so will result in appropriate action.
F. Students must pass the class, college-laboratory and clinical components in order to progress to the next level. If the course is repeated the student must complete both the classroom and clinical components.

II. CLINICAL EVALUATION OF STUDENTS

Evaluation of Student Clinical Performance is an on-going process. The faculty will determine the frequency of evaluation. Students must complete self-examination of their performance. The last page of the evaluation tool requires the student to self reflect on strengths and weaknesses. This evaluation must include documentation along with a check mark. The student’s signature indicates only that the student has read the evaluation. The student has a right to make a statement(s) regarding the faculty’s evaluation.

Criteria for Clinical Evaluation

The nursing student must be a safe, caring, and competent critical thinker. The student will act within the roles of: provider of care, manager of care, and member of the discipline in nursing. The clinical setting is the arena where the theoretical constructs are applied.

**Clarification:** To demonstrate or perform a technical skill in the clinical setting is only one part of the total picture. The student must be able to verbalize the concepts, principles, and constructs of the theoretical knowledge related to the situation. For example: (this example is not all inclusive).

Nursing care related to a particular patient with a diagnosis and treatment. The student must be able to draw from past courses i.e. Sociology, Psychology, Anatomy and Physiology, Chemistry, Microbiology, Nutrition and Nursing, etc. to critically think. What are the nursing actions based on the patient responses, abnormal findings and laboratory studies? Why are specific laboratory studies and medications given for this specific patient? You will need to research the whys. Keep asking yourself why is this happening, why is this being done, what is my role and so on. Keep in mind the Health-Care-System at large. How can I make a difference in my caring, my teaching, my knowledge, and skills?

Students are required to be at the Expected (or satisfactory) level by stated weeks in the Skills Booklet, Course Clinical Evaluation and Format.

**Needs Improvement:** If one of the Expected Level Criteria is absent, the student needs to examine his/her performance in light of missing criteria and develop with the instructor, a plan to improve.

**Unsatisfactory:** Any activity or lack of activity that may result in potential or actual harm to another individual (i.e., patient, staff, etc.).

1. A student who is unsatisfactory will be informed of the same at the time of the occurrence and a “Conference Note” will be used to document the incident. This must be signed by both faculty and student. Signing by the student means the evaluation has been read and discussed by the faculty member and student. The student has a right to write comments. A copy will be placed in the students file, and a copy will be given to the Director.

2. A student may be asked to leave the clinical area if they are not performing in a satisfactory/safe, competent, and caring manner, displaying inappropriate behavior, or violating any nursing program policy. This also will be documented on a Conference Note form. This time counts towards clinical absence time and must be made up.
3. A student who demonstrates a pattern of 3 unsafe/unsatisfactory occurrences and/or 10% of time below the Expected Level (or unsatisfactory) within a course may be dismissed from the program.

4. A student who administers medication without the faculty’s supervision will be dismissed for the day, and receive an unsafe/unsatisfactory conference note. The faculty member must be with the student when the medication is being administered to the patient.

5. A student who is not able to obtain the required grades on the Dosage Calculation Examinations.

III. Clinical Grades:

1. Clinical attendance is mandatory in order to meet clinical objectives. A student must attend at least 90% of each Course Clinical time. Failure to fulfill this requirement may result in dismissal from the program.

2. Clinical practice must be successfully completed at the expected level: Grading in clinical practice will be pass (at the expected level) or fail (unsatisfactory). The student must receive a **satisfactory** grade for the clinical that includes all experiences offered during clinical time.

3. The clinical instructor will have a conference with the student who has performed in an unsafe or unsatisfactory manner at the time of the incident or at the end of the particular clinical day or when patient and student safety allows. The faculty member must report the said incident that day to the Director.

4. Students may be dismissed from the clinical practice area for unsafe or unsatisfactory performance, inappropriate behavior or violation of any college or agency policy. The faculty member using their professional judgment and the language from the policies will act accordingly in such situations. The student must return to the college laboratory, during the scheduled time for re-mediation to practice that procedure(s), and demonstrate competence at the expected level. The student cannot return to the clinical area until competence is demonstrated in the college laboratory and with the clinical faculty member’s approval.

5. Students who are not prepared theoretically or technically may be dismissed from the clinical area as unsatisfactory. All past theory and technical skills must be at the Expected Level.

6. Increasing proficiency on drug calculation examinations that start at a minimum of 80% and are defined in the individual course formats.

IV. Progression Requirements: In order for a student to progress to the next semester, the student must achieve:

1. A grade of C or better in all required nursing courses, which also includes an overall grade of 70% on examinations, satisfactory laboratory and clinical performance and attendance; and be able to demonstrate increasing proficiency on all drug calculations exams included in the nursing courses that start at a minimum grade of 80%.

2. A grade of C or better in all required non-nursing courses

3. A minimum cumulative GPA of 2.0.

4. Students failing to meet the above criteria will be dismissed from the Program.

5. Nursing students must comply with the rules and policies as presented in the Nursing Student Handbook, in addition to those listed in the catalog.
V. Incomplete Grades:

No student will be permitted to progress in nursing with an incomplete grade in any nursing, or non-nursing, course. All incomplete grades must be removed and replaced with a grade of C or better in order to begin the next semester in the nursing program.

VI. Withdrawals, Failing Grades and Repeating Courses:

Refer to College Web page
Withdrawals:  http://www.bucks.edu/forms/withdrawform.html
Failing Grades:  http://www.bucks.edu/catalog/majors/health/nursing/
Repeating Courses:  with restrictions on Nursing Courses, as noted at http://www.bucks.edu/catalog/majors/health/nursing/.

VII. Repeating a Nursing Course:

A nursing course can only be repeated one time. Readmission to the clinical courses is selective and explained in VIII.  http://www.bucks.edu/catalog/majors/nursing/

VIII. Readmission to the Nursing Clinical Courses:

READMISSION POLICY

Readmission to the clinical component of the nursing program is selective and based on a space available basis. Students must demonstrate a sound academic history and current knowledge to be readmitted to the clinical component of the nursing program.

The student must make an appointment with either the Director of the Associate Degree Nursing program, nursing advisor, nursing faculty member, or Assistant Academic Dean of Health, and Physical Education to turn in the application. Included in the reapplication is a requirement for self assessment with a plan for improvement.

The Admissions and Progressions Committee of the Nursing Faculty will review all the application and calculate the scores for readmission.

In order to be considered for readmission to the clinical component of the Nursing Program:

Students must have an overall GPA of 2.5.

All other courses in the Nursing Program of Study must be completed. Students who were unsuccessful in dosage calculations must take NURS 120. Students are strongly encouraged to take NURS 220.

Enrollment is required prior to the semester of the planned return.

Achieve a minimum of 75% on a Standard Readmission Examination based on the last successful course completed.

Selection for Readmission will be a weighted score based on the following criteria

Overall GPA + “Z” score on NLN Pre-RN Test, or SAT, or ACT admission score + Standard Readmission Examination Score + (-1) each science course repeated + (-2) for each nursing course repeated + (-3) for each nursing course repeated with less than C+, + (-1) for each semester past eligible semester to return.

Procedure:
A student who fails or withdraws from the clinical component in Nursing (NURS 101, 102, 201, 202) must reapply for admission using the Application for Readmission form. Directions and guidelines regarding the procedure for readmission are attached to the reapplication.

Students requesting readmission must submit the application by the dates published each semester.

In order to take the readmission examination students must have completed within the last year and on file in the nursing office:
- CPR card to expire no earlier than May 15 and no later than July 30
- Drug and Alcohol Screen,
- Criminal Record Check,
- Child Abuse Clearance
- Health Examination Record Completed

Full Adoption: Director/Faculty

Target Date: February

Review q 3 years

Revised: 1/92, 8/94, 2/95, 5/99, 8/00, 10/03
Partial revisions for Math 08/04
Partial revision for readmission 09/05, 12/07

IX. Attendance Policy:

A. Classroom Attendance Policy:
   Class attendance falls within the general guidelines of the college attendance policy published on the website. Classroom attendance records are maintained for certification to outside funding. Faculty are required to submit attendance reports after the third and seventh week of the fall semester

B. Clinical Attendance Policy:

   Clinical attendance is mandatory. Absence may result in the student’s inability to meet objectives of the course. When a clinical absence occurs in any semester an alternative assignment with client contact will be required. Students must attend 90% of clinical time and are restricted to 10% make-up time. Inability to meet Clinical Objectives will result in failure of the course.

C. Nursing Lab Attendance Policy:

   Attendance in lab is mandatory. Attendance will be recorded. Lab is a necessary component of Clinical, and assists students in meeting Clinical objectives. Absence from the lab will need to be made up via an alternate lab assignment. A missed lab or an incomplete alternate lab assignment will result in the student being unprepared for Clinical. Students unprepared for Clinical will not be permitted onto the Clinical area.

X. Psychomotor Skills:

Refer to Psychomotor Skills books

| Adopted: 1/86 | Target Date: August |

| Revised | |
Dear Member of the Nursing Class of 2014,

Welcome to the Bucks County Community College Clinical Component of the Associate Degree Nursing Program.

As a nursing student, good health is essential to providing patient care. Our requirements are based on an update from the State Board of Nursing Rules and JCAHO Requirements for given clinical agencies. As part of the enrollment process for Nurs101/Nursing I, you are required to complete the following:

1. A Health Examination, which includes an eye examination.

2. The Immunization Record which also includes-
   a. a 2-step PPD examination (a test for exposure to Tuberculosis), each year, and if you have a history of a positive PPD, you must have a chest x-ray
   b. the series of three Hepatitis "B" Immunizations
   c. Tdap within 5 years
   d. Measles, Mumps, Rubella (titers may be required)

3. A Dental Examination

4. A 9-panel drug and alcohol screen

5. Fill out the Student Profile form and sign the following:
   - Health Risk Waiver
   - Professional Liability
   - Health Insurance
   - Confidentiality Statement
   - Student Records Clinical Responsibilities

6. CPR for Healthcare Providers Certification, including AED training. The date completed must be after June 1, 2012. Renewal is required yearly.
In order to comply with the 1996 Amendment to the Older Adults Protective Services Act 169, and assure your eligibility to participate in all learning experiences offered, the following are required:

1. A Child Abuse report request mailed with a money order for $10.00. The completed report will be mailed to your home. You must include the original with your packet. Renewal is required yearly.

2. A State Police Report request mailed with a money order for $10.00. This form is returned directly to the Nursing Department. Renewal is required yearly.

3. An FBI Criminal History Record. In order to comply with PA state law, 24 PS 1-111 of the Public School Code was amended (Act 114 of 2006) effective April 1, 2007. All student teacher candidates (participating in classroom teaching, internships, clinical or field experience) and prospective employees (including but not limited to administrators, teachers, substitutes, janitors, cafeteria workers, office employees) of public and private schools, Intermediate Units and area vocational-technical schools, including independent contractors and their employees and bus drivers, who have direct contact with children, must provide to their employer a copy of their Pennsylvania State Criminal History Background Check and their Federal Criminal History Record that cannot be more than one (1) year old.

It is imperative that all completed materials listed above be submitted by July 19, 2012. If you do not submit all of the above materials, your registration into Nurs101/Nursing I will be withdrawn. No exceptions.

Your schedule for the Fall 2012, Nurs101/Nursing I, will require you to attend six hours of class and lab per week, and one six hour clinical day at a local clinical facility. In addition to the time that is required, it is strongly recommended that you plan to spend additional time in the Nursing Arts Laboratory. You will then have adequate time to practice the skills you are being taught in order to get signed-off on them before using these skills to care for “real” patients. You will also need to plan on time to study, complete papers, read, and take standardized tests.

Very truly yours,

Claire L. Keane, MSN, RN
Director, Associate Degree Nursing

CLK:Imb

Due to our legal agreement with the hospitals/agencies, students are not permitted into the clinical area (not even for orientation) unless all the required forms and verification of CPR are on file in the nursing office.

| Adopted: 3/87 | Target Date for Review: Yearly |
|Reviewed: 5/01, 8/03, 10/04, | By: Faculty/Director |
|Revised: 9/00, 8/03, 10/04, 06/07, 08/08 |  |

**Policy:** Students will provide documentation of sufficient health to meet the requirements set forth by the Pennsylvania State Board of Nursing, clinical agency requirements, and other requirements related to healthcare workers as defined by Pennsylvania Department of Health, Centers for Disease Control, and the Occupational Safety and Health Administration.

**Purpose:** The purpose of the Health Policy is to ensure students are in good health to provide patient care. The forms associated with the policy provide consistency and documentation for the information required.

**Procedure:**

1. The health record shall include:
   a. Physical Examination form, completed on admission to the program.
   b. Immunization Record, updated yearly
      1. 2 step PPD or Chest X Ray
      2. Hepatitis B series completed
      3. MMR Titers or Proof of vaccination
      4. Current Tetanus Toxoid
      5. 7-Panel Drug Screen
   c. Dental Examination form, completed on admission to the program.
   d. Health Risk Waiver forms completed on admission to the program.
   e. Student’s statement of carrying health insurance policy or acknowledgement of financial responsibility for illness or injury.
   f. *Latex Free Policy* and
   g. Declination statement for Hepatitis B vaccine

2. All student records will be housed in a locked fireproof cabinet in the Nursing Program’s area.

3. Access to the student’s health record is limited to the Program Director or her designee, and examiners for the regulatory and accrediting bodies, i.e. Pennsylvania State Board of Nursing, the National League for Nursing Accrediting Commission (NLNAC) visitors and *random audit by affiliating clinical agency with student privacy protected*.

4. Due dates for all forms **Will be published each year**.

5. The admissions and progressions committee investigates current requirements from all areas, revises and makes recommendations to the full faculty for formal revisions in the policy or forms.

**Due to our legal agreement with the hospitals/agencies, students are not permitted into the clinical area (not even for orientation) unless all the required forms and verification of CPR are on file in the nursing office.**

HEALTH EXAMINATION
BUCKS COUNTY COMMUNITY COLLEGE
DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND NURSING

NAME: ______________________ DATE: ______________________

INITIAL DATA:
Date of Birth ____________________ Vital Signs: __________________
Height _________________ Weight _______________ Body Frame _____________
Allergies: _______________________________________________________________

From Pennsylvania Code of Professional and Vocational Standards, Title 49
Selection and admission standards: “Students admitted shall meet the requirements that are established by the College…
Consideration shall be given to… physical and emotional health necessary to fulfill the objectives of the program.”
Please refer to the attached BCCC Functional Abilities List for further clarification.

1. Is the applicant’s overall physical and emotional health sufficient to fulfill the objectives of the Clinical Component of the Nursing Program?
   □ Yes □ No
   Comments:

2. History: Include current prescription medications. If more space is needed, use additional paper.

3. Health Examination (Be specific please)
   A. Neurological
   B. Integumentary
   C. HEENT
   1. Vision with Correction
   D. Cardiovascular
E. Respiratory

F. GI

G. Urinary

H. Musculoskeletal

I. reproductive

**Females:** breast and vaginal exam *(required)* Printed results for most recent pap smear must be attached.
- Women should have their first cancer screening at age 21.
- Women from ages 21 to 30 should be screened every two years instead of annually, using either the standard Pap or liquid-based cytology.
- Women age 30 and older who have had three consecutive negative cervical cytology test results may be screened once every three years with either the Pap or liquid-based cytology (ACOG)

**Males:** testicular and prostate exam *(required)*
- Examine testicles as part of a cancer-related checkup (ACS)
- Starting at age 50, talk to your doctor about the pros and cons of testing so you can decide if testing is the right choice for you. If you are African American or have a father or brother who had prostate cancer before age 65, you should have this talk with your doctor starting at age 45 (ACS)

Students must carry their own health insurance policy or be prepared to assume financial responsibility for illness or injury. The College and the agencies are not responsible for any cost the student may incur related to ill health or injury. In case of accidents or illness during a clinical practice experience the clinical agency will provide emergency care, if they have the facilities to do so. The student is totally responsible for the financial aspect of the treatment.

BUCKS COUNTY COMMUNITY COLLEGE
DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND NURSING

HEALTH INSURANCE

Nursing students are responsible for carrying health insurance (Blue Cross, Blue Shield, HMO, etc.) or accepting financial responsibility for care rendered as a result of an injury or illness in the clinical area. Bucks County Community College and the official contracted clinical agencies are not responsible for any treatments or care given to nursing students while in the Nursing Program.

Latex Free Policy

Policy: To protect students and faculty from the potential health hazards from exposure to latex and provide an environment that is as latex-free as possible.

Purpose: In order to assure a learning environment that is as latex-free as possible the policy procedure provides faculty and students with consistent clear guidelines for the purchase and use of equipment that may contain latex and the scheduling of student learning experiences.

Procedure

- Students
  - Provide product enclosures to faculty and lab staff for equipment brought into the lab.
  - Review the latex allergy precautions provided by faculty.
  - Inform faculty of potential exposure issues.
  - Option of wearing visible medic alert bracelet

How can I protect myself from latex allergy?

Take the following steps to protect yourself from latex exposure and allergy in the workplace:

1. Use nitrile gloves for activities that are not likely to involve contact with infectious materials (food preparation, routine housekeeping, general maintenance, etc.).
2. Use appropriate barrier protection is necessary when handling infectious materials. If you choose latex gloves, use powder-free gloves with reduced protein content.
3. Such gloves reduce exposures to latex protein and thus reduce the risk of latex allergy.
4. So-called hypoallergenic latex gloves do not reduce the risk of latex allergy. However, they may reduce reactions to chemical additives in the latex (allergic contact dermatitis).
5. Use appropriate work practices to reduce the chance of reactions to latex.
6. When wearing latex gloves, do not use oil-based hand creams or lotions (which can cause glove deterioration).
7. After removing latex gloves, wash hands with a mild soap and dry thoroughly.
8. Practice good housekeeping: frequently clean areas and equipment contaminated with latex-containing dust.
9. Take advantage of all latex allergy education and training provided by your employer and become familiar with procedures for preventing latex allergy.
10. Learn to recognize the symptoms of latex allergy: skin rash; hives; flushing; itching; nasal, eye, or sinus symptoms; asthma; and (rarely) shock.

What if I think I have latex allergy?

If you develop symptoms of latex allergy, avoid direct contact with latex gloves and other latex-containing products until you can see a physician experienced in treating latex allergy.

If you have latex allergy, consult your physician regarding the following precautions:

✓ Avoid contact with latex gloves and products.
✓ Avoid areas where you might inhale the powder from latex gloves worn by other workers.
✓ Tell your employer and health care providers (physicians, nurses, dentists, etc.) that you have latex allergy.
✓ Wear a medical alert bracelet.

ADDITIONAL INFORMATION

For additional information about latex allergy, or to request a copy of NIOSH Alert No. 97-125, Preparing Allergic Reactions to Natural Rubber Latex in the Workplace, call 1-800-35-NIOSH (1-800-356-4674).

You may also visit the NIOSH Homepage on the World Wide Web at

I understand that during my clinical assignments as a student in the Bucks County Community College Nursing Program, I may be exposed to blood or other potentially infectious materials, and thus I may be at risk of acquiring Hepatitis B Virus (HBV) infection. I was given the opportunity to be vaccinated with the Hepatitis B Vaccine; however, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease.

STUDENT RECORDS

The Pennsylvania State Board of Nursing and the National League for Nursing Accrediting Commission, periodically review the nursing program at Bucks County Community College. A portion of this process is the review of nursing student’s educational records, for the purpose of validating the process of faculty/student evaluation. Clinical agencies may request review of student health records to assure compliance with contractual obligation and JCH accreditation standards.

I, ________________________, GIVE MY CONSENT FOR THE VISITORS FROM THE STATE BOARD OF NURSING AND THE NATIONAL LEAGUE FOR NURSING ACCREDITATION COMMISSION AND SELECTED CLINICAL AGENCIES TO REVIEW MY EDUCATIONAL RECORD. I also extend the privilege to review my health record to a clinical agency that I may be affiliated with as a student.

**THE CLINICAL COMPONENT IN NURSING**

An addendum will be provided to students that addresses Professional Behavior and expectations in all areas of nursing.

College and the clinical agencies have legal agreements. The nursing students and faculty must adhere to the language in these documents.

**Responsibility/Accountability**

A. Responsibility refers to the scope of functions and duties associated with the nurse’s role.

B. Accountability calls for an evaluation of a nurse’s effectiveness in performing his/her responsibilities.

**Liability/Malpractice Insurance:**

All students will be covered by a blanket policy. The college will bill the student for this coverage.

---

**BUCKS COUNTY COMMUNITY COLLEGE**  
**DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND NURSING**

**PROFESSIONAL LIABILITY INSURANCE**

**LIABILITY/MALPRACTICE INSURANCE**

- All students will be covered by a blanket policy.
- BCCC will bill the student every **SEMESTER**
- **FEES ARE SUBJECT TO CHANGE**

I have read the above statement regarding the professional liability insurance. I understand that the policy covers my actions **only during the clinical portion of the nursing program** and I am responsible for the cost of the insurance.

**I UNDERSTAND FULLY THE IMPLICATION OF THE ABOVE STATEMENT REGARDING LIABILITY INSURANCE:**

Cardiopulmonary Resuscitation (CPR) Certification

A. All certification and recertification must be done in June and July.
B. Certification must be kept current at all times while in the clinical component of the program.
C. No student is permitted in the clinical area without the CPR Certification
D. A copy must be submitted to the Director

Witnessing Records:

Students are not permitted to witness any agency (hospital) documents, e.g., wills, consent forms, etc.

Recording/Reporting:

A. The patient’s record is a legal document and must be treated as such.
B. Nurse’s notes must be legible and accurate. Nurses are held accountable for their documentation.
C. The clinical instructor will also inform the student on the facility’s charting policy. Instructors may require that all nurses’ notes be checked by themselves before entering the note in the official record. Instructors may also require that they check the official record after the entry is completed.
D. Medication records are considered part of a patient’s record.

Patient/Student Relationships

A. This relationship is to be kept on a professional and therapeutic level at all times.

Students are not permitted to:

1) give home telephone numbers to patients
2) call patients at home or at the agency
3) call the agency (hospital) i.e.: staff. (If you forgot to chart information or/something, call your instructor not the agency)

Beepers and cell phones:

BUCKS COUNTY COMMUNITY COLLEGE
DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND NURSING
Confidentiality Policy

**Policy:** Faculty and Students will adhere to the tenets of patient privacy as required by the affiliating clinical agencies, and outlined in the Health Insurance Portability and Accountability Act (HIPAA), the ANA Code of Ethics, and the PA State Board Rules and Regulations.

**Purpose:** To assure faculty and students have a clear understanding of the wide range of activities that may pose potential threats to patient confidentially and provide guidelines for behaviors.

**Procedure:**

Clinical agencies will be sent instructor and student names prior to the clinical rotation as required.

Instructors will review HIPPA guidelines with students prior to patient contact including why access to equipment containing health information is monitored and controlled.

- How and what parts of computer records students will be authorized to use
- Proper protection of computer screens and student notebooks from public view
- Training required to utilize the facilities’ electronic records.
- Privacy extends to any part of the patient health record, treatment or information

Students are required to sign the BCCC Confidentiality Statement and if requested will sign a specific statement at the clinical agency where assigned.

Students will not discuss (past, present, or future) patients or any information regarding the patient at coffee breaks, lunch, at home, in the community etc.

Patients may be discussed in post-conference only as it relates to the nursing care required. All information discussed in post conference is to be held in strictest confidence.

There will not be photocopying of any patient records. Printed copies of computer generated patient Kardexes or care plans will be disposed of according to agency policy.

A violation of patient privacy in practice may result in a verbal warning, written warning or immediate dismissal from the program.

Written assignments in the nursing program only use initials of the patient, e.g., S.R.

A violation of patient privacy on a written assignment will result in a failure on the assignment and the assignment must be repeated.

CONFIDENTIALITY STATEMENT

A nursing student comes in contact with confidential information in written and spoken form regarding patients and their families during the nursing program, particularly in the clinical arena.

Confidential information includes but is not limited to: patient identity, test results, diagnosis, prognosis, treatments, and results.

Conversations regarding any of the stated confidential information will not take place in elevators, hospital corridors, lunch rooms, supermarkets, etc.

Any discussion in a public place that jeopardizes patient confidentiality may result in immediate dismissal from the nursing program.

All written assignments may not include information that could identify a patient.

Any information that may identify a patient on a written assignment will result in a failure on that assignment.

I, _______________________, will hold in confidence all patient information that I have access to while a nursing student.

Policy:
The expectation of Bucks County Community College and the Associate Degree Nursing Faculty is that the principles of truth and honesty will be rigorously followed in all academic endeavors including the classroom, nursing laboratory, and clinical area. Nurses and nursing students are held to professional standards that reflect a high degree of integrity and principles that guide behavior and decision making. Ethical and legal behaviors that are particularly required in nursing include honesty in all educational preparation and practice areas, trust, advocacy, responsibility, and accountability.

Purpose: Increase student awareness of choices that are made on a routine basis and the ethical and legal implications of those choices. Students will have learning opportunities to examine behaviors in the classroom, clinical, nursing laboratory, and other assignments.

Procedures
Learning Opportunities:
At the Nursing Orientation, students will be introduced to ethical behavior components. The first day of class, clinical, and college laboratory, students will be presented with ethical responsibilities related to nursing and expectations of the instructor.

Testing:

Students must arrive on time for tests.

During testing, all student cell phones, personal belongings, hats, electronic devices, and book bags/backpacks will be at the front of the classroom.

During dosage calculation testing, a simple one-function calculator that is provided by the Nursing Program will be the only calculator allowed for NURS 201 and NURS 202 tests.

Prior to testing, the Instructor will review behaviors that could indicate cheating that include but are not limited to looking at another’s students answer sheet, randomly looking around, not keeping papers covered, tapping on the desk, or rolling up and down sleeves. Instructors reserve the right to inspect forearm tattoos for potential notes.

At the start of each test, Instructors will read and students will sign the following statement:

I understand that academic integrity encompasses a wide range of behaviors that includes honesty, integrity, diligence, and trust. I have prepared for this test in an honest and diligent manner by using only authorized study sources. I have avoided all sources generated by students who have already taken the test. Finally, I understand that the faculty trusts me to not share the questions or content on this test with other students. I understand breaches in academic integrity will result in a Level 2 offense resulting in a zero on this test. If this is the second recorded cheating or plagiarism offense, a Level 4 action will be taken and I will automatically fail the course. If I have three such occurrences, the College may suspend me for 3 years.

Written Assignments and Papers:
The BCCC Cheating & Plagiarism Policy states that all work will be done by the person who purports to do the work without unauthorized aids. In addition, when making use of language and some idea not his
or her own, whether quoting them directly or paraphrasing them into his or her own words, the student must attribute the source of the material in some standard form, such as naming the source in the text or offering a footnote. A nursing written assignment found to be plagiarized, in part or whole, will receive a Level 2 offense and failure is defined as a zero on the assignment for the first offense. If this is the second recorded cheating or plagiarism offense, a Level 4 action will be taken and the student will automatically fail the course.

**Class and Nursing Laboratory:**
Students are responsible for complying with the student Code of Conduct as described on the web at [http://www.Bucks.edu](http://www.Bucks.edu) and in the College catalog. Violations of the Code of Conduct will be dealt with swiftly and the faculty will recommend the strongest sanction available.

**Clinical:**
The following actions may be grounds for immediate dismissal from the Nursing Program (from the PA SBN Rules and Regs).

- **Misappropriate equipment, materials, property, drugs or money from the employer or patient.**
  
  For the BCCC AD Nursing Program, the interpretation/definition of employer shall be extended to include the College or the clinical agency.

- **Solicit, borrow or misappropriate money, materials or property from a patient or the patient’s family**
  
  Patients are defined as those patients/clients the student has contact with during the clinical component of the Nursing Program.

- **Falsify or knowingly make incorrect entries into the patient’s record or other related documents.**
  
  This standard of behavior applies to making verbal or written reports to an instructor that are not true, such as but not limited to reporting to an instructor a task is completed when it has not actually been accomplished, performing a task without Instructor approval, or withholding patient information from the Instructor.

Bucks County Community College
Department of Health, Physical Education and Nursing
Associate Degree Nursing Program

Professional Attire Policy

Policy: Bucks County Community College Nursing students represent the college and nursing at large therefore Nursing students are expected to project a professional image that meets or exceeds the requirements of all the affiliating clinical agencies and assures student and patient safety.

Purpose: Fashion and styles vary and acceptable everyday wear societal norms may be in conflict with what is considered professional attire. This policy assures Nursing students are meeting the contractually required criteria as well as shaping professional expectations

Procedure:

Nursing students will display professional grooming standards as evidenced by:

- Showering, deodorant use, shaved or-trimmed beard
- Neatly secured hair, off the collar
- Proper undergarments that are not visible
- Clean & ironed garments
- Moderate make-up
- Clean nails, no more than 1/8“ past the tip of the finger
- Covered tattoos.

The BCCC nursing uniform should include:

- BCCC picture ID
- BCCC lab coat or jacket to cover the uniform
- Official BCCC Uniform.
- Required BCCC Long Sleeve white shirt under top.
- White mid-calf trouser socks without logos or stockings
- Clean required white shoes that are purchased through uniform vendor.
- Watch with second hand and plain wedding ring
- Latex free stethoscope with dual bell, bandage scissors, penlight, and hemostats

In clinical, Nursing students are specifically not permitted to:

- Wear smocks, sweaters, wrinkled, or dirty uniforms
- Wear Jeans at any school sponsored function or clinical agency
- Wear ankle or short sport socks
- Wear any type of logo laden, canvas, platform, clogs, or open toe or back shoes.
- Have hair that is extreme in color, length, or style and is in the face or on the collar
- Wear jewelry. None is permitted other then the plain wedding band mentioned above.
- Have long, painted or artificial nails
• Emit strong odors such as animal scents, cologne, aftershave, or tobacco
• Chew gum
• Display visible piercings (including tongue) with posts, studs, hoops, chains or expanders: *If the skin does not meet and a visible gap is present, the hole must be filled in with a flesh colored plug.*
• Visible tattoos

In the college lab, Nursing students must wear lab jackets and dress in an appropriate manner to demonstrate skills. This includes the ability to:

• Freely bend, lift, and turn mannequins
• Work with liquids without splashing on skin
• Safely manipulate equipment without harming yourself by wearing dangling items that may catch on bedrails or the equipment

When representing the BCCC Associate Degree Nursing Program at professional meetings, in-services, observations, and clinical days (such as community, mental health, and Poster Presentations) dress standards include:
  Appropriate grooming, nametag, watch, plain wedding ring, and lab coat as directed.
  Business Attire
  No cleavage, jeans, sweats, bare midriffs, print t-shirts
  No open toed shoes, clogs, crocs, flip flops or sneakers

Individual instructors may issue a warning or if the offense is serious enough the Nursing student may be sent home. This dismissed day will be counted as an absence and make-up time will be required.

</tbody>
</table>
**Policy:** Bucks County Community College (BCCC) Associate Degree (AD) Nursing Program students, the Associate Degree Nursing College Faculty, and the Director of the Associate Degree Nursing Program will act in an ethical and legal manner in accordance with the Pennsylvania (PA) State Board of Nursing (SBN) and as published in the American Nurses Association Code of Ethics. All persons subject to this policy will also display standards of nursing conduct that adhere to the legal agreements that are in place with the clinical agency to which they are assigned and the College.

**Purpose:** To assure a professional learning environment that respects the requirements of the Nurse Practice Act, that is ethically sound, and considers the student’s learning needs to enter a profession without jeopardizing patient safety and meets the BCCC contractual obligations with clinical agencies.

**Procedures:**

I. **Criminal Record: FBI, Pennsylvania Criminal Record Check, Child Abuse History Clearance**

The criminal background check is not a requirement for admission to the nursing program; however, the process will be completed after a conditional acceptance for admission is received by the student and before a clinical rotation. The student will submit within the required timeframe, a FBI fingerprint check, PA Criminal Record Check, and Child Abuse History Clearance every academic year between June and July. The cost of the checks will be the student’s responsibility.

Background check reports and other submitted information by the student will be maintained in the Director’s Associate Degree Nursing Office. Students must sign a waiver for audit review by clinical agencies, the Accreditation Commission for Education in Nursing (ACEN) and the PA-SBN.

The student must provide the original documentation to be kept on file in the Director’s office.

The student must meet the criteria for hire in the agency assigned or the meet the requirements listed in the agency contract. The Nursing Student will not be given special consideration for placement based on the results of any criminal record.

If a student has a criminal record, the student must meet with the Director of the AD Program.

- If the offense is a felony, the student will immediately be declined admission/continuation in the AD Program because a clinical agency cannot be assigned and therefore the student cannot meet the objectives of the Program.

- If the offense(s) is any misdemeanor, consideration will be given to the nature and seriousness of the offense(s) or event(s), the circumstances surrounding the offense(s) or event(s), the relationship between the duties to be performed as part of the educational program and the offense(s) committed, the age of the person when the offense(s) or event(s) occurred, whether the offense(s) or event(s) was an isolated or repeated incident, the length of time that has passed since the offense(s) or event(s), employment and evidence of successful rehabilitation, and the accuracy of the information provided by the applicant or student as long as the conviction does not violate clinical agency contracts.
• If the conviction(s) is listed on the Older Adults Protective Service Act 9 (See attached) the Older Adults Protective Services Act (35 P. S. § § 10211—10224) or the 23 Pa. C.S. Chapter 63 (relating to the Child Protective Services Law), the student will immediately be declined admission/continuation in the program because a clinical agency cannot be assigned and therefore the student cannot meet the objectives of the Program.

The nursing student must not have a Driving Under the Influence (DUI) conviction or a violation of the Cosmetic and Substance Abuse Act within the last five (5) years prior to admission in the Program or be convicted while in the Program. The student will immediately be declined admission/continuation in the Program because a clinical agency cannot be assigned and therefore the student cannot meet the objectives of the Program.

If a nursing student is arrested for any offense while in the Program, the nursing student must immediately self-disclose to the Director. The Director, under the direction of the college counsel, may notify the clinical agency of charges pending. If patient safety is potentially at risk, if the agency declines the student placement, or if falsification of information occurs, including omission of relevant information, denial of admission or dismissal from the educational program may occur. The College does not have an obligation to place the student in another facility. If the student does not self-disclose and the Program Office learns of the arrest/conviction, the student will be immediately dismissed from the Program.

II. Drug screens

The nursing student, at their own expense, will utilize the clinical lab selected by the College that meets the criteria of the Department of Health and Human Services as an approved/certified lab and be a forensic study for a 9 panel screen in the timeframe specified each academic year. The student must be free of non-prescribed and illegal substances in order to attend clinical.

A reported positive drug screen will be handled in the following manner:

• Upon reporting of the results, the student will meet with the Director of the AD Program and submit to a repeat drug screen within 14 days at the student’s expense at the designated Laboratory service.

• The student will see a counselor and provide documentation to the Director that the meeting occurred.

• At the student’s expense, submit to random drug screens in the course of the semester as determined by the Director.

• The clinical seat will not be held for the student if a break in the above timeframe occurs or if the second drug screen is positive.

III. Patient/Student Relationships

The student will maintain patient relationships at a professional and therapeutic level at all times.

The nursing student is not permitted to:

• Give home telephone numbers to patients

• Call patients at home or at the agency
• A visit patient after the clinical day and the instructor is not in the building.

• Engage in conduct that could be viewed as a sexual violation or sexual impropriety with a patient.

• If a student is found to have committed an infraction of this area the student will not be allowed back in the clinical area and therefore be unable to meet the objectives of the Program and it will result in a clinical failure for the course.

IV. **Documentation and Maintenance of Accurate Records.**

The clinical instructor will inform the nursing student of the facility’s charting policy and access to electronic health records.

Instructors will assure the nursing student is aware of specific agency policies regarding charting.

The nursing student is responsible to recognize variations in different clinical agencies’ policies and comply with specific agency requirements.

A student is not permitted to witness any agency (hospital) documents, e.g., wills, consent forms, etc.

A student may not call the agency (hospital) or staff to relay patient information. i.e. (If you forgot to chart information or something, call your instructor not the agency)

The student’s entries must be legible and based on the student’s assessment. (Refer to the Integrity Policy.)

V. **Protecting Patients’ Rights and Nurses’ Responsibilities**

The student must treat all patients with dignity and respect and will not make judgmental statements or give less than the standard of care based on a patient’s age, marital status, sex, sexual preference, race, religion, diagnosis, socioeconomic status, or disability.

A student does not speak “over a patient” or converse with another individual in a manner that the patient cannot understand.

The student is expected to share observed behaviors with the instructor that could jeopardize patient safety.

The student may not leave the clinical area without proper notification and permission of the instructor.

The student must properly report and notify the appropriate department head or personnel prior to leaving an assignment.

**Medication Administration. May only be done with the Nursing Instructor present.**

21.14 A licensed registered nurse, responsible for administering a drug, may supervise a graduate nurse or a nursing student in an approved nursing education program in the administration of the drug. In this section, “supervise” means the licensed registered nurse is physically present in the area or unit where the student or unlicensed graduate is practicing.

The nursing student may undertake a specific practice only if the student has proper supervision and knowledge.
The nursing student must notify the Director AD Nursing or clinical instructor of any conflict of interests that may exist in caring for patients, including but not limited to, the possibility of being assigned to a clinical agency where the student was terminated, a unit where the student works, family members, close friends, business associates, or a past history of being a patient on a unit assigned.

The nursing student must follow the “Nurses Guide to the Use of Social Media” published by National Council of State Boards of Nursing of Nursing (NCSBN) for Social Media. If a picture is posted of faculty, permission must be obtained. No patient pictures will be posted (Refer to the Confidentiality Policy), and no clinical agency names should be referenced.

The Nursing Student may not use cellular/electronic devices in the classroom or college lab during instructional time without the faculty member’s permission, including texting, recording, or posting pictures or video. If access to such devices is observed, the instructor may consider the student as unsatisfactory for the day. Record may only be done with the permission of the faculty and fellow students. (see the confidentiality policy)

VI. CPR for Healthcare Providers

All certification and recertification must be done in yearly June and July.

Certification must be kept current at all times while in the clinical component of the Program.

No student is permitted in the clinical area without a valid CPR Certification

The Director or designees must view the original card and then a copy of the card must be submitted and kept on file in the Director’s office.

VII. Professional Liability Insurance

The nursing student will be covered by a blanket liability policy. The College will charge the student for this coverage. This coverage is valid only when the student is functioning as a student under the direction of the assigned instructor.

VIII. Specific Clinical Agency Policies

The clinical instructor assigned to a particular agency will inform the students of the specifics of the agreement and or clinical agency policies. If the nursing student violates a clinical agency policy and the clinical agency disallows the student back to the clinical site, the College is not obligated to find the student another clinical site. When a clinical agency cannot be assigned the student cannot meet the objectives of the Program and a course failure will result.

The student is responsible to recognize and comply with the variations in different clinical agencies’ policies and comply with specific agency requirements.

Smoking

60
Most clinical agencies are non-smoking campuses. Any student found violating the clinical agency’s Smoking Policy, will receive a clinical unsatisfactory for the day. If the clinical agency disallows the student back to the clinical site, the College is not obligated to find the student another clinical site. When a clinical agency cannot be assigned the student cannot meet the objectives of the Program and a course failure will result.

**Parking**

The nursing student will park in the area designated for nursing students. If a student is found parking in a patient only parking area, the student will receive a clinical unsatisfactory for the day; the second offense will result in dismissal from the clinical area. If the clinical agency disallows the student back to the clinical site, the College is not obligated to find the student another clinical site. When a clinical agency cannot be assigned the student cannot meet the objectives of the Program and a course failure will result.

**Computer/IT Access**

The nursing student must follow all IT Policies of the clinical agency. If the nursing student violates the clinical agency policy, the student will receive a clinical unsatisfactory for the day; if the clinical agency disallows the student back to the clinical site, the College is not obligated to find the student another clinical site. When a clinical agency cannot be assigned the student cannot meet the objectives of the Program and a course failure will result.

The nursing student may not share passwords, security codes to secure areas, or chart under someone else’s log-on. Further guidance can be found at: [http://www.bucks.edu/catalog/info/records/eCommunications/](http://www.bucks.edu/catalog/info/records/eCommunications/)

**Cell Phones/electronic devices**

The nursing student may not access cell phones or electronic devices in nurses’ stations, patient care areas, or any area not specifically allowed by agency policy. This would include the post conference area if such devices are not allowed at the clinical site. If a student is found violating the clinical agency’s Cell Phone Policy or rules, the student will receive a clinical unsatisfactory for the day. If the clinical agency disallows the student back to the clinical site, the college is not obligated to find the student another clinical site. When a clinical agency cannot be assigned the student cannot meet the objectives of the Program and a course failure will result.

_All the above behaviors and requirements are essential to safe and professional nursing care. A violation of the behaviors will result in a minimum of an unsatisfactory/unsafe conference note to a maximum of immediate dismissal from the clinical component of the AD Nursing Program and result in a Failure for the course._

STUDENT SERVICES

There are many student services available at BCCC. Please check the college catalog or www.bucks.edu for information. Catalogs are available in the Admission’s Office. Below includes a partial listing that is particularly important for nursing students.

Advising

STUDENT ADVISEMENT BY NURSING FACULTY

- Full-time faculty are available to the nursing student during their office hours. Each faculty member has five office hours per week. Students have the opportunity to discuss any of their perceived needs or problems at these times.
- Faculty office hours are posted on each office door at the college. You may expect a rapid reply with via email during posted Electronic Office hours.
- Faculty may have one hour of office hours in the clinical area (1 hour each day). Before or after the specific clinical time. Please check with your clinical instructor, as to the time they have designated, for an office hour in the clinical area.
- Part Time faculty may have scheduled office hours in the clinical area. All part-time faculty will have an office assigned to them at the college. Please check with them as to when they will be available on campus.

Articulation: RN-BSN Planning

- Early during your BCCC nursing program start thinking about your articulation for an RN-BSN. Visit www.bucks.edu/transfer check out the agreements and equivalencies. If you have questions call 215-968-8031 for further information.

Counseling Center:

- The college has a staff of full-time professional counselors that provides group, and individual psychological counseling. Some of the areas students have discussed with counselors are loneliness, marital, and family adjustments, depression, addiction concerns, and feelings about self. To make an appointment with any of BCCC counseling staff, please call 215-968-8182 or email counseling@bucks.edu. The counseling center is open Monday through Friday 8 am to 4:40 pm; and Monday through Thursday evenings from 5:30pm to 9:00pm.

The group counseling program is available to all students. The scope of this program is varied and includes groups that deal with transactional analysis, assertive training, male and female awareness, dealing with separation or divorce, and dealing with general adjustment concerns.
Career and job placement counseling

- Offered through the Career Development Center. Educational counseling is offered for help with study skills, course advising, and resume writing.

Students are responsible for obtaining permission from the nursing faculty member for these recommendations. Ask the faculty member first, before using any of their names. Ask them in person, do not leave a note. Be sure the faculty member is still on campus when you leave the recommendation form. The Transfer & Placement Center located in the Rollins Center first floor, student services center. The Transfer and placement center offers a job fairs that are open to students every Fall and Spring.

Bookstore

The Bookstore is located next to the Library, and is owned and operated by the College. The bookstore carries all the required and recommended textbooks for all classes. The Bookstore has a limited number of uniform items and other related nursing student supplies such as pens, and non-required review books. For the convenience of nursing students, your initial purchase of books may be placed on your student account and paid over the course of the first semester.

Learning Resources

The library has 3 locations (Newtown, Lower Bucks, and Upper Bucks) each location is able to support your learning needs in a variety of ways. For an index of library services including data bases, FAQs, policies, hours, go to: http://www.bucks.edu/library/

The Tutoring Center provides tutorial services at no additional cost to students enrolled in select courses offered by the College. Those students who need assistance in mathematics, accounting, computer science, writing, reading, study skills, American English as a second language, and foreign languages may get help.

On-Line Learning Specific Information for On-Line learning is available at: https://learning.dcollege.net/webct/logonDisplay.do?insId=443721749021&insName=Bucks%20County%20Community%20College&glcid=URN:X-WEBCT-VISTA-V1:abd413c5-9076-1e67-006f-fb14a1945703

THE HUB

The HUB is located on the lower level of Pemberton Hall and is a one stop service for students where bills may be paid, financial aid information can be obtained, and admissions/registration paperwork can be completed in one stop.

Admissions, Registration and Records

Application for graduation is made to the office of admissions, registration and records. Students are responsible to request course transfer waivers on all courses brought in as “999.” A student cannot be registered for a Nursing Course unless the course pre-requisites are met or the student is concurrently registered in course co-requisites or has the co-requisite courses completed.
**Financial Aid & scholarships**

Financial Aid Office hours are 8:00 a.m. to 4:30 p.m. Monday through Thursday 8:00-4:00 Friday during the fall and spring semesters. The Office is also open in the evening during the first week of classes. The telephone number of the Financial Aid Office is 215-968-8200 (Fax: 215-504-8522).

All available scholarship for students can be found at the following link: [http://www.bucks.edu/about/foundation/scholarships/#d.en.7813](http://www.bucks.edu/about/foundation/scholarships/#d.en.7813)

**Students who are awarded scholarships are expected to attend the Honors Convocation on graduation day for the opportunity to meet the generous benefactors. Students are also requested to provide long term follow-up information if contacted**

Scholarships that are available to nursing students during the clinical component include at the time of this printing:

| Paramedic Daniel W. McIntosh Memorial Scholarship    | Early Spring       | The scholarship is open to all students who, at the time of application, meet the following requirements:  
Completed at least 30 credits at BCCC.  
Possess a minimum 2.5 cumulative grade point average.  
• Enrolled in a minimum of six (6) credits in the Department of Social and Behavioral Sciences as a Criminal Justice transfer major, or the Department of Health, Physical Education, and Nursing starting in NURS 101 or NURS 201.  
• Intend to re-enroll at BCCC in a minimum of six (6) credits the following fall semester after the award is made.  
• Preference is given to Bucks County residents.  
• Applicants must submit two letters of recommendation. |
from a non-relative, one of whom must be from a BCCC faculty member, provide a brief statement summarizing extracurricular and/or volunteer activities, and answer the required essay question (maximum 250 words). At all times, applicants must be in good standings and in conformance with the College’s Code of Conduct. In order to apply for this scholarship, all applicants are subject to a criminal background check performed by the Bensalem Township Police Department.

**Student Accounts**

In order to be in good standing with the College, you must have a zero balance by the published deadlines. Failure to receive a statement will not be accepted as a reason for missing the payment deadline. You will not be able to register for the next semester until your balance is zero. It is important to note that by registering for classes or having the nursing program representative register you, you are agreeing to pay tuition and fees by the published date. Written notice must be submitted to the Admissions Office by the published deadline to cancel registration and have charges removed or reduced. Students that have an account balance will not be eligible for graduation; therefore, the student will not be eligible to sit for the National Council Licensure Exam until the account is reconciled. BCCC nursing students authorize the college to use Title IV program funds to pay for the ATI review textbooks and services that are required by the Associate Degree Nursing Program of Study. The student may rescind this authorization at anytime by notifying the Financial Aid Office. If this authorization is rescinded, the student understands they are responsible for the cost of the materials.

**COURSE SPECIFIC FEES FOR NURSING**

General expenses for Bucks County Community College can be found in the College Catalog or at [this link](http://www.bucks.edu/admissions/tuition/). The course specific fees for Nursing include:

<table>

STUDENT GRIEVANCES:

If the purpose of the grievance relates to concerns unrelated to the nursing program, students are referred to the college catalogue for “resolutions of Student Concerns” or http://www.bucks.edu/catalog/records/concerns/

Bucks County Community College
Department of Health, Physical Education, and Nursing
Associate Degree Nursing Program

STUDENT GRIEVANCE POLICY

POLICY:

Students have a right to address an issue or concern if they perceive they have been evaluated or treated in an unfair manner.

PURPOSE

To provide guidelines for a nursing student to follow so the student can register and seek resolution of a grievance. A student grievance is described as an issue and/or concern by the student who feels they have not been evaluated according to stated criteria or feels they have been the object of inappropriate verbal or physical actions by a member of the nursing program instructional staff.

PROCEDURE

If the student grievance relates to concerns unrelated to the nursing program, students are referred to the college catalogue or web.

The student has the opportunity to discuss their concerns with the involved faculty member within five (5) working days of the incident.

After identifying that a grievance exists, the involved faculty member will document the meeting on a conference note.

The original copy of the document will be placed in the student’s file, with subsequent copies forwarded to the student, faculty member, Director of the Associate Degree Nursing Program and Assistant Academic Dean of the Department of Health, Physical Education, and Nursing.

Upon receipt of documentation from the involved faculty member, the Director of the Associate Degree Nursing Program will meet simultaneously with the faculty member* and student to resolve the grievance.

If the above process has been completed and the grievance has not been resolved, the student will meet with the faculty member*, Director of the Associate Degree Nursing Program, and the Assistant Academic Dean of the Department of Health, Physical Education, and Nursing.

If a resolution is unable to be accomplished, the student will be directed to the appropriate college wide committee or the Provost and Dean of Academic Affairs.

*Union representation as per contract

ACADEMIC REGULATIONS

Grade Changes and Challenges:
“The College provides an appeal procedure for students who believe that the recorded grade is not the one earned in a course. Students should first see the course teacher to resolve the matter. If resolution is not achieved, then the Nursing Program Director should be consulted as well as the assistant academic Dean of Health, Physical education and Nursing. The final step in the appeal process is the Committee on Academic Performance. It should be noted that only the teacher of a course makes a grade change. Other steps in the appeal process are advisory. Students are urged to retain all graded work until the final grades have been received from the college."

Cheating and Plagiarism:
Students are referred to review the college’s regulation regarding plagiarism and cheating, [http://www.bucks.edu/catalog/records/cheating/](http://www.bucks.edu/catalog/records/cheating/) as well as the Associate Degree Nursing Program’s Integrity Policy.

CLASSROOM CONDUCT POLICIES

A. **Children in Classrooms & Nursing Arts Laboratory**

Children or visitors are not allowed in the classrooms or the College Laboratory. Children will not be permitted to remain unattended in the corridors. There will be no exceptions to this policy. (College Catalog concerning Children on campus).

B. **Beepers and Cell Phones**

Beepers are to be either turned off or on vibrate during class periods. Cell phones are to be turned off during class periods.

C. **Tape Recording**

Taping may only be done with the permission of the faculty and fellow students. The confidentiality policy applies to this setting.

STUDENT ORIENTED ACTIVITIES

Student Representation on Faculty Committees

The Bylaws of the Nursing Program encourage student representation. Students’ voting rights are specified in the Bylaws. Meeting dates are posted and representatives may share discussions and actions with other classmates. Students’ input into committee activities is valued.

A. Class Representatives

The purpose of the class representatives is to plan and implement all the student’s activities related to the Nursing Program.

B. Selection Process

Nursing I and Nursing II: Each class will select one representative from each class.

Nursing III and Nursing IV: Same as above.

Alternates are required.

C. Meetings

Faculty Meetings: 4th Tuesday every month, 12:30 to 1:30, P442.

Level Meetings: Dates determined by coordinator. Tuesday, Time and dates TBA.

NOTE: A portion of the meeting may be closed, i.e.; discussion about confidential matters. Students are not permitted in that portion of the meeting.

A Nursing Faculty member will act as the Advisor to the classes and to the Nursing Club.

Nursing Club:

The Nursing Club is a college recognized organization that provides support to nursing students in the clinical component. The Nursing Club sponsors speakers and plans service oriented activities throughout the school year.

Nursing Recognition: The Pinning Ceremony

The Pinning Ceremony at BCCC was originated in 1971. The ceremony is the Nursing Program’s function. It is organized by the Director and faculty with student input. It is the faculty’s belief that Commencement and the Pinning Ceremony have their own significance, neither of which replaces or embodies the other. The graduating class enters the preparation of the ceremony with the full understanding and agreement to attend the graduation activities. The student uniform will be the uniform worn at the pinning ceremony. The professional attire policy guidelines related to uniforms will be used for the Pinning Ceremony.
By-Laws
Bucks County Community College
Nursing Club

Article I

The name of the organization shall be the Bucks County Community College Nursing Students Club.

Article II

Membership

1. Membership to all nursing students enrolled in Nursing 101, 102, 201 and 202.
2. Associate membership is open to students who are in the Program of Study 2035.
3. Only full members can hold office and vote.
4. There will be a voluntary $5.00 fee annually.

Article III

The functions of this organization are:

1. To provide regularly scheduled meetings of its members so they become aware of today's concerns of the nursing profession and campus wide activities.
2. To promote unity and general welfare of the members.
3. To provide programs and speeches on topics of interest to the members.
4. To provide at least two community service projects per year.

Article IV

Officers

1. The board is made up of all officers.
2. The officers shall be president, vice-president, secretary, treasurer, and activity director.
3. The term of office for president and vice-president will be for one year from April to graduation.
4. Any member may be elected as secretary, treasurer, and co-treasurer. Election for the officers will be held in December of every year.
5. Voting will be a closed ballot.
6. In the absence of the president the vice-president shall assume all the duties of the president.
Article V

Duties of the Officers

President
1. Shall preside over all membership meetings and board meetings.
2. Will be responsible for informing advisors of club meetings.

Vice-President
1. Will substitute for the president when he/she is not available.
2. Will act as a liaison to the new club members.

Secretary
1. Shall record minutes of all meetings and handle all correspondence. All minutes will be kept on file and available.

Treasurer
1. Will be responsible for the financial records for the club, itemizing all receipts and expenditure, and will prepare for all meetings
2. Will deposit all proceeds from the fundraisers with the proper college officials.
3. Will authorize payment of all bills for the organization after membership approval.

Article VI

Meetings

Meetings will be set on a semester basis at the convenience of the majority of the membership. The board meetings will be called at the discretion of the president, but at least once a semester. Meetings will be conducted using Robert’s Rules of Order.

Order of Meetings:

Call to order
Reading of club and board minutes
Communications from President

Old business
New business
Committee Reports
Treasurer’s report

Adjournment

Article VII

Provisions to Fulfill Vacancy

In the event a class officer is unable to fulfill the responsibilities of the position, the vacancy will be filled by moving officers up one position and eliminating the activities position until next election.

Article VIII

Committees

At the discretion of the Board
I have read, reviewed, understand, and agree to follow all contents of the Bucks County Community College Associate Degree Nursing Program Student Handbook 2012-2014.
