### Course Offering Options

In addition to the traditional face-to-face courses that run for the standard academic semester, Bucks offers a range of learning opportunities to help students make the most efficient use of their time. All of these are fully accredited courses. The content of each course and the number of credits earned will be the same, regardless of the modality that is used to offer the course. Detailed course information for each eLearning and hybrid course is available at [www.bucks.edu/welcome](http://www.bucks.edu/welcome).

#### eLearning courses
- taught completely online
- may require an on-campus orientation
- allow flexibility in the student schedule
- are identified as “eLearning” in the course listing below

#### Hybrid courses
- a majority of course work takes place online
- on-campus meetings required for remainder of course work
- allow some flexibility in the student schedule
- are identified as “hybrid” in the course listing below

### For course descriptions, visit [www.bucks.edu/catalog/descriptions.html](http://www.bucks.edu/catalog/descriptions.html)

Times listed include the minimum number of instructional minutes. Actual class time may be longer to accommodate class breaks.

#### Service Learning:
Courses designated as service learning include a service learning component. Students will perform some volunteer work at a non-profit agency to enhance learning through a hands-on experience.

#### WebAdvisor:
All enrolled students are assigned a WebAdvisor account. A number of services (registration, course seat availability, grades, transcripts, Program Evaluation, etc.) are available via WebAdvisor. Go to [www.bucks.edu](http://www.bucks.edu) and click WebAdvisor to access them. You will need your BCCC Username and your Password to access your personal student records (and to register) over the web. New students and those not currently enrolled can browse for courses using WebAdvisor by clicking the “Students” button and then “Search Credit Sections.”

Upper Bucks Campus
eLearning and Hybrid courses offer flexible choices to fit your schedule and travel needs!

eLearning and Hybrid courses have the same application and registration procedures, tuition/fees, assessment tests, prerequisites, and credits earned as face-to-face sections of the same course. All courses have specific beginning and ending dates. Students are responsible for checking the meeting and technology requirements for a course prior to registering.

- **eLearning courses are taught completely online** (there may be one face-to-face orientation meeting at the beginning of the semester).
- **Hybrid courses combine on-campus meetings with online components.** Some courses may have as few as two on-campus meetings; others may meet on a regular basis.

**BEFORE You Register**
1. Consult the Online Learning website (www.bucks.edu/online) to be sure that online learning is appropriate for you.
2. Read the Course Information Page (www.bucks.edu/welcome) of the specific section you are considering. **DO NOT REGISTER FOR A COURSE THAT HAS A REQUIRED ORIENTATION OR SCHEDULED ON-CAMPUS MEETINGS THAT YOU CANNOT ATTEND.**

Valerie-Anne Lutz ('89) earned an associate degree in liberal arts from Bucks, then went on to earn two bachelor’s degrees and a master’s degree from Temple University, and a master’s in library and information science from Drexel University. For more than a decade, she’s worked at the American Philosophical Society Library in Philadelphia, where she’s currently head of manuscripts processing. She says she chose Bucks for its quality, value, and location, and received even more than she expected.

“My years at Bucks provided an excellent foundation for my transfer to Temple and for pursuing four additional degrees. Bucks was at least as challenging academically as the universities that I attended, and some of my Bucks classes were even more so – in a good way. My Bucks professors were very memorable, not only for the breadth and depth of knowledge that they conveyed to us, but also for their dedication to teaching and their genuine concern for our education and well-being.”

Brandon Shorts attended Bucks for two years as a chemistry major, then transferred to West Virginia University in 2012 where he’s completing his bachelor’s in chemical engineering. The Perkasie resident chose Bucks because it made good financial sense, saving him up to $50,000 over two years. Once here, he found it gave him a solid foundation in science and math.

“There’s no way I’d be doing as well as I am in organic chemistry if I didn’t have Dr. [Michaeleen] Lee for Chem I and Dr. [William] Yorke for Chem II. Bucks is really a stepping stone that can take you anywhere.”

Latasha Campbell ('12) accomplished what few could imagine, earning her associate degree at Bucks while simultaneously completing a bachelor’s degree at La Salle University in Philadelphia, both in business administration. The mother of two young children was able to accomplish this while maintaining a 3.8 grade-point-average, for which she was able to join Phi Theta Kappa, the international honor society for two-year schools.

“Bucks is a great place to start. It kept me organized and disciplined, and inspired me to reach higher academically through a dual-admissions agreement with La Salle. If you’re planning to attend a four-year college, Bucks is the right path to begin your new journey.”
