# seeing believing

September 2008–June 2009

THIS STIMULATING EXHIBITION explores the many methods that artists can employ to create the illusion of depth on a two-dimensional surface. Through their encounters with original works of art, students are introduced to the basic principles of overlapping forms, scale, color, modeling, focus, and perspective that have been used throughout history. Contemporary artworks—both realistic and abstract—in a variety of two-dimensional media are featured. Participating artists include Daniel Anthonisen, Gail Bracegirdle, Myles Cavanaugh, Thomas B. Chesar, Eric N. Fausnacht, James Feehan, Alan Fetterman, Elizabeth W. Fram, John L. Goodyear, David Graham, Catherine Jansen, Gwendolyn Kerber, Richard Lennox, Jan Lipes, Margaret C. Mattheson, Steve Messenger, Susan Roseman, Stacie Speer Scott, Rena Thompson, Charles Wells, and Rebecca Whittemore.

Artmobile offers diverse educational programming to engage students in learning about art. An Artmobile Educator meets each class and involves students in inquiry-based discussion geared to their grade level. Hands-on, interactive displays, a vital part of every Artmobile exhibition, reinforce the concepts presented and offer students opportunities to experiment with each principle and deepen their understanding. Additionally, *Teachers' Manuals* are sent to each school prior to our visit to enrich and extend the visit by helping teachers incorporate the Artmobile experience into their curricula.

*ARTMOBILE is a non-collecting, traveling museum dedicated to providing the school children and residents of Bucks County access to fine, original works of art. It is a vital component of Bucks County Community College which provides important cultural outreach programs in accordance with the college's mission. We are committed to fostering an understanding of art, art making and the value of art in our communities and our lives by exhibiting and interpreting works of art.*
