- Sports Management – 85%

**Currently only available for the three Bucks County Technical Schools.*

Online Courses = Flexible Choices

Online courses are taught entirely online*. They follow the same master course outline, require the same work, fulfill the same program requirements, receive the same credit, and cost the same as their face-to-face counterparts. With online courses you can:

- “Attend” a course at anytime, from anywhere—over 300 are available.
- Access course material 24 hours a day, 7 days a week.
- Select from 4, 7, 9, 12, and 15-week sessions.

**Some courses require proctored testing.*

Things to Consider

- The work required in an online course is no less than that of a face-to-face course. Online courses offer convenience, not ease. Can you devote the time required?
- Our online courses have specific start and end dates; they are not self-paced. Can you keep yourself on-task and on-time?
- Just like our face-to-face courses, our online courses are instructor led. Still, are you able to handle college-level work and study independently?
