Connecting to the Bucks wireless network on a Chromebook

Follow these directions to connect your Chromebook wireless network for students.

1. Click the wireless settings in the bottom right corner of your screen, then click No network.

2. Ensure that your Wi-Fi is turned on. Click the BUCKS Wi-Fi network.
3. Enter the information in as follows:
   - **EAP method**: PEAP
   - **Identity**: Enter your Bucks username. This is the same username used to access Canvas, MyBucks, and campus computers.
   - **Password**: Type in your Bucks password.
   - **Anonymous identity**: Enter your Bucks username again.
4. Click Connect.
