COVID-19 Update Information

As we continue to manage COVID concerns and restrictions for training we wanted to provide you and your departments with information, regarding what Bucks County Community College has developed, so that you understand your role.

As we continue into 2022 we are continuously monitoring the COVID-19 pandemic. We at Bucks County Community College continue to work on a plan to ensure continuity in providing training both virtual and face to face training methods for our students. Our primary goal is to ensure the safety of all students, instructors, and staff as we continue to provide face to face hands on training. Please note that restrictions are ever changing and we will continue to monitor the recommendations of the CDC, college, and county making changes as deemed necessary.

In this section we will look at the responsibilities all staff, instructors/supervisors, and students will need to address when coming to the Training Centers for completing hands-on training sessions.

These responsibilities will include the following:

- All students, instructors, or staff will remain at home when feeling sick or ill, if a household member is feeling sick or ill, if a household member is quarantined, or if a household member tested positive for COVID-19.
- If a student, instructors, or staff does become sick or ill, they shall contact their health provider for guidance and assistance, as well as, their direct supervisor.
- All students, instructors, or staff will self-report sickness, illness, quarantine, or exposure to their direct supervisor who will notify the field director for that area.
- All acquired correspondence and information will be reported to the Bucks County Community College Human Resources Department through the colleges reporting systems after the field directors report the incident to the college. Exposed persons will be notified in accordance with applicable laws and directives.
- All students, instructors, or staff are required to wear face covers, indoors, that cover mouth and nose when not wearing respiratory protection and when not eating or drinking. (Note: Designated teaching boxes allowing for social distancing may be used inside by instructors or staff to allow for removal of their mask while actively teaching.) These restriction requirements may change as the restriction requirements change from the CDC, College, and County.
- All students, instructors, or staff will practice current CDC social distancing recommendations of 3 feet indoors.
- All students, instructors, or staff when possible will wear gloves when handling equipment or operating apparatus. If equipment or apparatus are handled without gloves, all touched areas will be wiped down with a sanitizing wipe or solution prior to the additional use.
- All students, instructors, or staff will be provided restroom accessibility. Current social distancing recommendations apply.

The College's exposure control policy during training requires all participants to maintain social distancing and face covers indoors regardless of vaccination status. Refusal to follow this policy could result in dismissal from the course/session; however, students will be permitted to complete their training at a later date, if they so desire and abiding the restriction at that time. Anyone requesting an accommodation regarding this policy must contact their field director in writing prior to the start of the session.

Updates as of August 27, 2021. (Note: This update is subject to change at any time as conditions, applicable laws, and CDC, County, and/or College restrictions/mandates are updated.)

Administrative Information

Bucks County Community College operates two full-time public safety training campuses within the County of Bucks. Both facilities are supported through a partnership with the County of Bucks to provide Emergency Services Personnel with safe and maintained facilities for training, from entry to advanced levels across all areas of Fire Suppression, Hazardous Materials, and Rescue. Centrally located in the County is the Bucks County Public Safety Training Center (BCPSTC), also known as the Doylestown Training Facility, located at 1760 South Easton Road, Doylestown PA 18901. In the lower end of the County is the Lower Bucks Public Safety Training Center (LBPSTC), also known as the Bristol Training Facility, located at 2912 River Road, Croydon PA 19021.

Mission Statement

To provide our customers with an opportunity to receive a quality education in the fields of public safety operation and management, public safety professional certification, emergency management and industrial safety that will enhance their ability to deliver life saving services, in a manner consistent with specific work practices and while maintaining their safety, as well as the safety of their co-workers and the public they serve.

Accreditation

The Bucks County Community College is accredited by the [National Board on Fire Service Professional Qualifications](#) (ProBoard). This means that the levels of accredited professional certification offered by the Bucks County Community College meet or exceed [Occupational Safety and Health Administration \(OSHA\)](#) and [National Fire Protection Association \(NFPA\)](#) Standards, along with all requirements set forth by ProBoard. The process to become accredited is voluntary and only the most capable agencies apply for consideration. When an emergency services training agency applies for the accreditation their policies are studied, procedures and processes are tested to ensure their certification testing process is evaluated and held to the standards of the accrediting body and compliance with the current NFPA standards. The Bucks County Community College is also an accredited through the [Middle States Commission on Higher Education](#), which brings additional value knowing your training and certification needs are coming from an accredited higher educational institution.

Training Philosophy

Courses contain an appropriate amount of theoretical and practical content. Many of the courses build on the knowledge of previous courses and create “tracks” that students can follow to achieve their potential.

Advisory Committees

In addition to National Fire Protection Association comments and standards revisions, the Bucks County Community College Department of Public Safety Training and Certification relies on FEEDBACK from students, emergency service professionals, Bucks County Emergency Services and the Bucks County Fire Chief’s and Firefighters Association to ensure courses meet the training needs of these groups.

Partnerships

A unique partnership between the County of Bucks and the Bucks County Community College has created the Public Safety Training Center. In addition to this very valuable partnership, the Public Safety Training Center works closely with the Pennsylvania State Fire Academy to ensure consistency in course content and delivery.

**Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog**

The Bucks County Fire Chief's and Firefighters Association offer a Scholarships program for members of the fire service. More information can be found on the [Bucks County Fire Chief's and Firefighters Association](http://www.buckscandff.com) website (<http://www.buckscandff.com>) under downloads.

Staff

From the instructors on the frontlines to our administrative and support personnel, every staff member at the Bucks County Community College, Department of Public Safety Training and Certification is dedicated to one goal: working together to deliver top quality training that meets the needs of our customers.

Instructional staff members are carefully selected for a combination of technical skills, practical backgrounds, and teaching abilities. All are certified to the NFPA 1041 standard of Fire Service Instructor, level 2, with most holding additional professional certifications.

Fairness and Equal Opportunity in Education

Bucks County Community College Non-Discrimination Statement

Bucks County Community College does not discriminate in its educational programs, activities or employment practices based on race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, veteran status, union membership, or any other legally protected category. This policy is in accordance with state law, including the Pennsylvania Human Relations Act, and with federal law, including Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967 and the Americans with Disabilities Act of 1990.

Bucks County Community College shall not discriminate in the selection process for any educational course, seminar, professional certification testing, certification process, or other programs.

Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex in any educational program or activity sponsored by the College. Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of handicap in any educational program or activity sponsored by the College, and Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race in any educational program or activity sponsored by the College.

It should be further noted that in addition to the above laws and regulations, the College is committed to the premise that all students and applicants for admission are entitled to an equal opportunity to acquire training, education, and professional certification testing at Bucks County Community College regardless of their sex, race, national origin, religion, color, sexual orientation, age, or handicapped condition.

The College will not tolerate any behavior by staff or students which constitutes sexual harassment of a student.

Harassment and Sexual Assault Policy

Sexual Assault Policy

The Bucks County Community College Sexual Assault Policy has been developed to ensure that a consistent procedure and coordination of College and community resources is followed in the unfortunate

Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog

event of having to investigate a sexual assault. Sexual assault is a fundamental violation of an individual. It threatens the person's safety, well-being, educational experience, and career. Our policy is intended to meet the medical, legal, safety, and psychological needs of the victim and to maintain confidentiality. This policy is applicable to both on- and off-campus students and College employees. The policy also provides for measures and structures that will deal with the prevention of sexual assault through educational programming as well as a continuing institutional dialogue to assess services for victims.

Sexual assault violates the standards of conduct expected of every member of the College community and is strictly prohibited.

Sexual Harassment Policy

Bucks County Community College is committed to providing a place of work and study free of intimidation, exploitation, or discrimination. It is expected that students, faculty and staff will treat one another with respect.

Sexual harassment violates the College's long-standing policy, established at its founding, prohibiting discrimination on the basis of sex. Further, sexual harassment is a violation of state and federal law, including Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. It will not be tolerated at Bucks County Community College.

This Harassment Policy applies to all persons who are enrolled, employed, or serve in any official capacity at the College while they are on College property or are participating in any College-sponsored activity off-campus. Individuals who violate this policy are subject to the full range of internal institutional disciplinary actions from reprimand up to and including separation from the College.

The College is also committed to broad dissemination of information to raise the level of understanding concerning the nature of harassment.

Harassment is a prohibited act of sexual discrimination and is unlawful. It is the creation of an environment in which verbal or physical conduct, due to its persistence and/or severity, interferes with the performance of students or employees. The two presently recognized elements of harassment are:

Quid Pro Quo Harassment

Quid pro quo ("something for something") harassment is sexual coercion perpetrated by someone who is in a College position of influence over the individual being harassed. It exists where sexual advances or requests are made under circumstances implying the submission or refusal might affect academic or employment decisions. For example, a supervisor who suggests that a subordinate employee could get a promotion or a professor who suggests that a student could get a higher grade by submitting to sexual advances is making a sexually discriminatory *quid pro quo* offer and is engaging in sexual harassment.

Hostile Environment Sexual Harassment

Sexual harassment exists where unwelcome sexual conduct is sufficiently severe or pervasive that it creates a hostile or abusive atmosphere. A discriminatorily abusive work or educational environment can and often will detract from employees' or students' performance, discourage them from remaining at the College, or keep them from advancing in their careers. When the workplace or academic environment is permeated with discriminatory intimidation, ridicule, and insult that is sufficiently severe or pervasive to alter the conditions of the victim's employment or education and create an abusive working or educational environment, federal law and College policy are violated.

**Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog**

Sexual harassment can be verbal, visual, physical or communicated in writing or electronically. Continuous incidents of unwelcome sexual harassment such as sexual comments, gestures, sexual advances or touching constitute sexual harassment when they result in a pattern of behavior that creates a hostile environment which impairs an individual's ability to work, learn, or participate in any College function.

Not every act that might be offensive to an individual or a group necessarily will be considered as harassment and/or a violation of the College's standards of conduct. Whether an environment is "hostile" or "abusive" can be determined only by looking at all circumstances. These may include the frequency of the discriminatory conduct; its severity; whether it is physically threatening or humiliating, or a mere offensive utterance; and whether it unreasonably interferes with an employee's or student's performance.

A single egregious sexual incident such as coerced sexual intercourse or other physical assault is sufficient to constitute harassment.

Any member of the College community who believes that he or she has been the victim of sexual harassment is encouraged to take action by obtaining further information or initiating either informal or formal procedures to resolve a complaint by one or more of the following means:

- All College counselors are available to provide information and counseling, on a confidential basis, concerning incidents of sexual harassment.
- A concern or complaint that a College employee engaged in sexual harassment may be reported to the alleged offender's administrative supervisor.
- Employees working under a collective bargaining agreement may contact the appropriate union officer in regard to resolving a concern or complaint of violations of the nondiscrimination provision of their contract.
- A concern or complaint about a student may be reported to the Director for Student Life Programs.
- Information or assistance in filing a complaint is available from the Director of Human Resources, who is the BCCC Equal Employment Opportunity (EEO) Officer and College Coordinator for Sexual Harassment Policy compliance efforts (Room 135, Tyler Hall, 215-968-8090).

Referenced from Bucks County Community College Catalog: <http://www.bucks.edu/catalog/info/regulations>

Resolution of Student Concerns

The Bucks County Community College Student Complaint Policy has been developed to ensure that a consistent procedure to provide a mechanism by which a student may lodge a complaint regarding a service or academic encounter at the college. The college seeks to provide a quality education and support for all students and to continuously improve satisfaction of the services provided to students.

Bucks County Community College welcomes discussion and interaction between faculty members, administrators, college staff, and students. Communication is key in resolving concerns at the level in which the concerns have developed. If these concerns are unable to be resolved a student may initiate a formal complaint.

Referenced from Bucks County Community College Catalog: <https://www.bucks.edu/catalog/info/records/concerns>

Discrimination Complaint Information

If a student or employee feels as though they are being discriminated against The College has developed a non-adversarial complaint process allowing for an internal investigation and resolution. The discrimination complaint form can be found at <https://www.bucks.edu/policy/compliance/>. The student or employee can complete this form and submit it online to diversity@bucks.edu or in writing to the Chief Diversity Equity & Inclusion Officer (CDEIO).

Referenced from Bucks County Community College Catalog: <https://www.bucks.edu/policy/compliance>

Drugs and Alcohol Policy

The unlawful manufacture, distribution, dispensation, possession, or use of alcohol, narcotics, or illicit drugs is prohibited on the campus of Bucks County Community College. Any student or employee of the College discovered to be violating these rules is subject to immediate suspension or dismissal. Such action will be taken independently of any criminal action that may arise from a violation of civil law governing these areas.

Referenced from Bucks County Community College Catalog: <http://www.bucks.edu/catalog/info/regulations>

Accessibility

Bucks County Community College Accessibility Office is a great resource offered to student's looking for assistance when securing access to equal education for those with documented disabilities. As a student of the Department of Public Safety you will work with the accessibility office when documenting disabilities and obtaining classroom and testing accommodations. As the student, regardless of age, you must make the contact with the Accessibility Office at 215-968-8182 or accessibility@bucks.edu to request accommodations.

Please note this must be the student making contact and not parents or department officers. Information to provide during initial contact:

- Student First and Last Name
- Student ID Number (if known-Id number can also be found at the bottom left hand corner of any certificate already received from Bucks County Community College Department of Public Safety)
- Bucks County Community College Email address (if you have one)
- Identify that you are taking courses for Public Safety
- Student Cell Phone number (Home phone if student does not have a cell phone – cannot be a parent's cell phone number)

For more information regarding the Accessibility Office please visit their website at <https://www.bucks.edu/resources/accessibility/>. Please Note: Students are required to contact the Accessibility Office themselves. Parents and Department Officers will not be permitted to contact the Accessibility Office on the student's behalf.

Smoking / Clean Air Zone

As an educational facility concerned about the health of students, employees and visitors, Bucks County Community College prohibits smoking, use of tobacco products, or use of e-cigarettes during class time. Smoking and use of tobacco products or e-cigarettes should be done during breaks and outside of the classroom, in designated smoking areas. Many organizations do not allow smoking on their property or inside their facilities. These rules will take precedence over College policy, if more stringent.

General Information

Emergency Closure / Inclement Weather

When inclement weather or other emergency conditions exist that could put the health and safety of a student and/or instructor at risk, a Director may decide to close BCPSTC and/or LBPSTC along with offsite classes. All reasonable efforts will be made to notify candidates as soon as possible. All attempts will be made to reschedule courses that may be cancelled due to closure.

Bucks County Community College uses the “e2campus” notification system that can send text and/or emails to anyone who subscribes to this free service. Since this is a College-Wide system, all Public Safety Training Students should register to the “Fire School” group. Registration can be done online at <http://www.e2campus.com/my/bucks/signup.htm>. It is encouraged that all students and their supervisors register for this free notification to ensure the information is received timely to all those who may be affected.

Be aware that there are times that Bucks County Community College may close College Campuses (Newtown, Upper Bucks, Lower Bucks) but the BCPSTC and/or LBPSTC may remain open, as well as, times when the BCPSTC and/or LBPSTC may close and the College Campuses may remain open.

All efforts will be made to have the County of Bucks Emergency Dispatch Center announce any closures and update the voicemail message at both facilities:

- Doylestown Training Facility (BCPSTC) – Main Line: 215-340-8417
- Bristol Training Facility (LBPSTC) – Main Line: 267-685-4888

Facial Hair

In accordance with United States Law, 29 CFR 1910.134, the mandate from the Office of the Pennsylvania State Fire Commissioner, and NFPA 1403, 1404, & 1500, any course requiring the use of a SCBA or other respiratory protection (APR, PAPR, etc.) will require the participants to be clean-shaven. This means there will be no facial hair anywhere along the jaw line, the chin, or under the lower lip. A well-trimmed mustache is permitted. Any student out of compliance with the policy will be given the option of shaving prior to the start of class or not attending the program.

Dress Code / Appearance

Bucks County Community College Department of Public Safety Training and Certification prides itself on professionalism. Students shall present a clean, neat, and professional appearance at all times. Hair will be well kept and groomed as to not interfere with PPE and SCBA. Jewelry should be limited to avoid loss, damage, and/or injury. Students should wear clothing that is appropriate for the course work they are attending. The following three (3) levels of dress have been established, along with recommended and unacceptable dress to provide direction to students.

- **Classroom Setting:** Students in the classroom will wear long pants, shorts and/or skirts. Shorts and skirts must cover their entire buttocks area and must extend to fingertip length plus 2 inches. Shirts will cover the entire midriff and shoulders of a student. Shoes must cover the entire foot.
- **Training Ground Setting:** Students on the training grounds will wear long pants (recommended) or shorts of a nature that are durable such as jeans or station pants. They will not have holes in them and will not hang/slide down below the waistline. Shirts will cover the entire midriff and shoulders of a student, same as in the classroom. Shoes will be at least work boots or bunker boots that cover the entire foot when on training grounds.

Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog

- **Suppression Activities:** Students participating in fire suppression activities are required to wear long pants and a long sleeve shirt. The long sleeve shirt should be made of cotton and can be a T-shirt or sweatshirt, if the student wishes to add a second layer. If the long sleeve is used as a second layer, the layer underneath must be a shirt that will cover the entire midriff and shoulders of a student, same as classroom and training ground settings.
- **Recommended Dress for all Students:** It is recommended that students wear some type of station uniform. This would include a fire department T-shirt or uniform shirt with some sort of insignia on it, dark station pants, and black shoes or boots. This is a preferred dress and is ***not mandatory*** to attend classes.
- **Dress that is Not Acceptable:** If any of the below attire is on a student when they report for classes they will be asked to correct their dress before the class begins. If they do not correct the situation they will not be allowed to participate in class for the day, and the instructor will advise the student to leave the facility. The student will then have to make up the class at a different time.
 - 1) Any items with profanity, drug paraphernalia, or any type of discriminatory wording, phrases, or images printed on them.
 - 2) Shirts/blouses that have spaghetti straps.
 - 3) Muscle shirts.
 - 4) Shorts/Skirts that expose the buttocks or genitals in any manner.
 - 5) Pants that have large holes in them and have the potential of exposing students' buttocks or genital areas.
 - 6) Sandals / Open toed shoes of any kind.

Personal Protective Equipment (PPE)

When required for a given training course, the student is responsible to bring his/her Personal Protective Equipment (PPE) and Respiratory Protection (SCBA) for the training courses provided by Bucks County Community College. This will ensure the PPE and SCBA will properly fit. The Bucks County Community College reserves the right to inspect the PPE and/or SCBA of any individual attending a training course, and may exclude that student from training if the PPE and/or SCBA are not adequate and/or safe.

The PPE and SCBA ensemble shall include the following National Fire Protection Association (NFPA) approved elements: (1) structural firefighting helmet with eye protection (*acceptable: face shields, goggles, or safety glasses; unacceptable: bourkes*), (2) firefighting hood, (3) structural firefighting bunker coat, (4) structural firefighting bunker pants, (5) firefighting gloves, (6) firefighting boots, (7) Self-Containing Breathing Apparatus (SCBA), and (8) Personal Alert Safety System (PASS) Device.

Structural Firefighter Protective Ensemble – Multiple elements of protective clothing meeting the design specifications of NFPA 1971 that, when properly donned and worn together, provide protection from many of the risks of emergency operations. These elements shall consist of the following:

- 1). Structural firefighting helmet
- 2). Structural firefighting hood
- 3). Structural firefighting coat
- 4). Structural firefighting pants
- 5). Structural firefighting gloves
- 6). Structural firefighting boots
- 7). Self-contained breathing apparatus (SCBA) meeting the design specifications of NFPA 1981.

Sufficient air shall be provided to ensure the student is able to complete the evolution without the low air alarm activating.

- 8). Personal alert safety system (PASS) device meeting the design specifications of NFPA 1982.
- 9). Approved safety glasses.

The Bucks County Community College uses a checklist routine inspection of personal protective equipment (PPE) and self-contained breathing apparatus (SCBA). This inspection is in no way a substitute for advanced professional evaluation of the clothing established by NFPA 1851 *Selection, Care, and Maintenance of Structural Fire Fighting Protective Ensemble*.

Physical Health

All students participating in courses with physical activities should meet the requirements of NFPA 1582, Standard on Medical Requirements for Fire Fighters and Information for Fire Department Physicians, within a reasonable period of time prior to entering into physical training or testing to ensure his or her ability to safely perform the required tasks.

All fourteen (14) Essential Job Tasks and Descriptions from NFPA 1582, 2022 Edition that must be met are:

- 1) Wearing personal protective equipment (PPE) and self-contained breathing apparatus (SCBA) while performing firefighting tasks (e.g., hose line operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry), rescue operations, and other emergency response actions under stressful conditions, including working in extremely hot or cold environments for prolonged time periods
- 2) Wearing an SCBA, which includes a demand-valve-type positive-pressure facepiece or HEPA filter mask, which requires the ability to tolerate increased respiratory workloads
- 3) Exposure to toxic fumes, irritants, particulates, biological (i.e., infectious) and nonbiological hazards, or heated gases, despite the use of PPE and SCBA
- 4) Climbing at least six flights of stairs or walking a similarly strenuous distance and incline in jurisdictions without tall buildings while wearing PPE and SCBA, commonly weighing 40–50 lb (18–23 kg) and carrying equipment/tools weighing an additional 20–40 lb (9–18 kg)
- 5) Wearing PPE and SCBA that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2°F (39°C)
- 6) Working alone while wearing PPE and SCBA, searching, finding, and rescue-dragging or carrying victims ranging from newborns to adults weighing over 165 lb (75 kg) to safety despite hazardous conditions and low visibility
- 7) While wearing PPE and SCBA, advancing water-filled hose lines up to 1 ¾ in. (45 mm) in diameter from fire apparatus to occupancy [approximately 150 ft (50 m)], which can involve negotiating multiple flights of stairs, ladders, and other obstacles
- 8) While wearing PPE and SCBA, climbing ladders, operating from heights, walking or crawling in the dark along narrow and uneven surfaces that might be wet or icy, and operating in proximity to electrical power lines or other hazards
- 9) Unpredictable, prolonged periods of extreme physical exertion as required by emergency operations without benefit of a warm-up period, scheduled rest periods, meals, access to medication(s), or hydration

**Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog**

- 10) Operating fire apparatus or other vehicles in an emergency mode with emergency lights and sirens
- 11) Critical, time-sensitive, complex problem solving during physical exertion in stressful, hazardous environments, including hot, dark, tightly enclosed spaces, that is further aggravated by fatigue, flashing lights, sirens, and other distractions
- 12) Ability to communicate (i.e., give and comprehend verbal orders) while wearing PPE and SCBA under conditions of high background noise, poor visibility, and drenching from hose lines or fixed protection systems (e.g., sprinklers)
- 13) Functioning as an integral component of a team, where sudden incapacitation of a member can result in mission failure or in risk of injury or death to members of the public or other team members
- 14) Working in shifts, including during nighttime, that can extend beyond 12 hours

Student Participation

The Bucks County Community College Department of Public Safety Training & Certification has a 100% course completion requirement. All course sessions and all course objectives must be successfully completed in order to receive a certificate for any training course. In addition, all students should complete all assigned homework, readings, or other projects as assigned in class to help meet the objectives. All students are expected to conduct themselves in a professional manner, see Student Conduct below. This includes being respectful and responsible with the use of cellphones and other electronic devices while in class.

Student Conduct

Bucks County Community College Department of Public Safety Training and Certification supports the National Society of Executive Fire Officers (NSEFO) and Congressional Fire Services Institute (CFSI) “Firefighter Code of Ethics” and has adopted this as the standard in which all students shall conduct themselves during courses offered by Bucks County Community College.

Today’s fire service leaders face a variety of challenges managing budgets, personnel, and programs. Occasionally, ethical issues emerge for which there are no easy answers. To provide guidance to address these complex questions, the National Society of Executive Fire Officers (NSEFO) and Congressional Fire Services Institute (CFSI) jointly have released a firefighter code of ethics that can be adopted by local fire and emergency medical service organizations. The ethics statement is the result of almost two years of effort by the Board of Directors of NSEFO. [Source: [U.S. Fire Administration](#)]

To download a copy of the “Firefighter Code of Ethics” visit our website under *Forms and Documents* at www.bucks.edu/publicsafety or the U.S. Fire Administration website.

Minimum Age Requirements / Junior Fire Fighter

Bucks County Community College Instructors are required to follow the guidelines regarding minimum age requirements and specifically Junior Firefighter Rules, as identified by the Child Labor Law, Pennsylvania State Fire Academy, and NFPA Standards. Students under the age of 18 are not permitted to enter a burning structure, operate within an IDLH (immediately dangerous to life and health) atmosphere, or operate hydraulic tools or stabilizers in accordance with the "Child Labor Law".

**Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog**

Students under 18 years of age must have an employment certificate. The Chief and/or Training Officer is required to verify that the junior firefighter does have his or her working papers. Junior firefighters should be properly identified during training sessions. Be aware that minors may not be able to complete the entire session of a nighttime class; this should be considered before enrolling them into a course. We recommend all minors enroll in weekend programs to avoid this issue. If a question arises regarding junior firefighters, consult the appropriate Regional Field Director (see page 19 for staff directory). A copy of the Junior Firefighter Compliance Manual can be found in the [Forms and Documents](#) section of our website.

Some exceptions may apply, but not limited to students in a Technical High School Program while participating in class, during school hours, and days under the direct supervision of the Technical High School Instructor. The same exceptions may not apply to Professional Certification; the student should consult with the Certification Department for specific details.

Student Preregistration and Requirements for Course

All Courses advertised through the Bucks County Resident Training Catalog require registration before the course start date to guarantee a seat and the course to run as scheduled. This section will go over the process of preregistration and the requirements to be accepted into the course

The preregistration form shall be submitted to either BCPSTC or LBPSTC in advance of the start date of the course. Preregistration deadline dates are identified within the course meets section under each course found within the catalog. Preregistration deadline dates have been established to ensure enough time for the registration process to be completed and confirmations to be sent using constant contact. Preregistration forms received after the deadline provide no guarantee to obtain entrance into the program prior to the start date of that course section. Preregistration forms can be found in the Bucks County Resident Training Catalog, our website (www.bucks.edu/publicsafety), or at either Training Facility. In order to be accepted, each preregistration form must be filled out completely along with the student meeting all of the requirements for enrollment. Tuition for the course is indicated in the catalog or can be obtained by contacting either BCPSTC or LBPSTC. All courses will be filled on a first come, first serve basis. All preregistrations shall be submitted as soon as possible and forms should be completed fully and correctly to avoid a delay in acceptance or failure to accept into a course.

- **Prerequisites:** All prerequisites are required prior to entry into any program. They should be sent in with the preregistration form for the course to avoid delays of being registered.
- **Age Restrictions:** All students are required to meet the minimum age requirements on the first day of the course. Age restrictions are based on Child Labor Laws, NFPA Standards, and PA State Fire Academy Policy.
- **Physical Health:** All students participating in courses with physical activities should meet the requirements of NFPA 1582, Standard on Medical Requirements for Fire Fighters and Information for Fire Department Physicians, within a reasonable period of time prior to entering into physical training or testing to ensure his or her ability to safely perform the required tasks.
- **Enrollment Minimum and Maximum Size:** A minimum and maximum course size is established for all courses. All courses will be filled on a first come, first serve basis. Cancellation will be made fourteen (14) days prior to the start date. The Bucks County Community College reserves the right to cancel or postpone any course because of insufficient enrollment or other unforeseen circumstances.

**Bucks County Community College – Department of Public Safety Training and Certification
2022 Resident Catalog**

- **Notification of Acceptance:** No confirmation letter (Notification of Acceptance) will be sent until the minimum course enrollment is reached. In the event a course reaches its maximum number of enrollment, then a notification of being placed on the waitlist will be sent out to the student. If space opens up in that course, then students will be placed in the course on a first come, first serve basis. *Students that just show up to a course that is full will be sent home.*

Course Tuition

The Bucks County Community College Department of Public Safety Training and Certification provides training and administrative processing at no cost for members of the Bucks County Emergency Services and Departments participating in the Training Membership Program as a Silver or Gold member. All other PA County Municipal Emergency Services and Out of State (or Non-PA Municipal) Responders are charged based on the course fees, certification costs, and any other fees that may apply for the listed classes/certifications. Each course fee in the Resident Catalog is listed with the course and the three specific categories listed above. Courses being offered that are not listed in the Resident Catalog may have different fees that apply. For more information on the Training Membership Program, please visit [our website](#).

- **Tuition Payment:** Tuition payment for classes can be made at the time of registration (before the course start date) or after the course (once the student has been invoiced). Tuition rates can be found in the Bucks County Resident Training Catalog or by calling the BCPSTC or LBPSTC. Acceptable payment methods are Company/Department Check, Personal Check, or MasterCard/Visa. Agencies may send Purchase Orders in ahead of the class to have billing sent direct to agency after the course. If payment is not made prior to the course, an invoice will be sent to the student(s) after the course and can be paid by the same means.
- **Tuition Refund:** Approved refunds will be issued back to the payee as follows: If you paid by Credit Card, then the card will be credited. If you paid by Cash or Check, the College will issue a refund check. The College does not issue cash refunds.

Class/Course Cancellation

Cancellation due to low enrollment: If the minimum enrollment to run a course is not met within fourteen (14) days of the course start date, cancellation due to low enrollment will be made. All students pre-registered for this course will be notified via phone/email, from information found on the form, of the course cancellation.

Emergency Closures / Delayed Starting: Any cancellation or delayed starting of a class session due to inclement weather or for any other reason will be announced over the Bucks County Emergency Services Communication and through the College Emergency Notification System (e2campus). See the [Emergency Closure / Inclement Weather](#).

Withdrawing from a Course & the No Show / No Cancellation Policy

In the event a student must withdraw from a course, the student should send in a cancellation form as soon as possible to allow a space for someone who can attend. A cancellation form should be submitted to the BCPSTC or LBPSTC at least **72 hours** prior to the start of the course; in return, a student will be provided a cancellation number that they should keep for their records.

In the event of less than **72 hours** prior notice, the same policy should be followed. Based on the reason for withdrawal, a decision will be made on a case by case basis to a full refund or removal of the “No Show / No Cancellation Fee”. If no cancellation form is received and the student does not show, then the ***No Show / No Cancellation of Registration Policy*** will be followed.

No Show / No Cancellation of Registration Policy

It is the policy of the Bucks County Community College to provide availability for attendance in courses based on minimum and maximum enrollment requirements. Students who register and do not attend or cancel their application prohibit other students from attending the course, resulting in administrative costs.

It shall be the policy of the Bucks County Community College to charge an administrative fee for any student who fails to attend a course that they have registered, unless they provide notification **72 hours** prior to the start of the course.

Procedure:

1. The student or authorizing chief is required to fill out the cancellation form and send it into the training center **72 hours** prior to the start date of the course. Once received, the student will be dropped from the course. **It is the student's responsibility to contact the office to receive their cancellation number** (Be sure to keep this number in case you or your organization/company is billed for this course). *The cancellation form can be found on our website.*
2. If the student or authorizing chief does not cancel the student from the course 72 hours prior to the start of the course an invoice will be issued for the following rate per student:
 - a. **Courses up to 6 hours in length- \$35.00**
 - b. **Courses over 6 hours in length- \$75.00**
3. The invoice will be generated to the student indicating their name, date of course, course title, and the administrative fee.
4. Special circumstances will be reviewed on a case by case basis.

Certificates

Upon successful completion of the course, certificates will be mailed to the student's home. If the hosting agency requires a copy for records or payment it is the student's responsibility to provide the records. After successful completion of most classes, the student will receive a certificate from the Bucks County Community College.

Students, who successfully complete professional certification programs, will receive a certificate that is numbered by the National Board on Fire Service Professional Qualifications (ProBoard).

Course Completion Certificates

Class certificates are processed by the Bucks County Community College Department of Public Safety & Certification from the information provided on the Bucks County Community College "Registration Form - Non-Credit Course" which is completed by the student at the start of course. A student must meet all of the course objectives, including attendance and prerequisites in order to receive a course certificate. No special certificates will be issued to a student that has not met *ALL* of the requirements.

After the certificates are printed, they are mailed to the student's home address on file from the registration form filled out on the first day of the course. The turn-around time for certificates is approximately six (6) to eight (8) weeks after the lead instructor's completed paperwork is received.

DOH Vehicle Rescue Certification

All courses leading up to DOH (Department of Health) Vehicle Rescue Certification Testing will be handled by Bucks County Community College. Administering, grading, and issuance of a DOH Certification for Basic Vehicle Rescue Technician or Special Vehicle Rescue is managed by DOH, not BCCC. Since the certifications are not issued by BCCC, we cannot provide accurate information on turn around time or replacement options.

Text Book Information & Purchasing

Bucks County Community College provides handouts and/or student participant guides for most courses. Professional Certification programs and several other programs may use published textbooks. For information on what is required or provided, you can check the course description in both the Bucks County Resident Training Course Catalog or the Local Level Emergency Services Training Catalog. Both are available at our facilities and on our website (www.bucks.edu/publicsafety).

The courses that require the student to have purchased a required text for the first meeting of class are indicated on the description and include the publisher, title, and edition. It is recommended that if a text has a workbook or study guide the student purchase them for their benefit. However, it is not required and not all texts have workbooks or study guides available. Below you will find recommended places to purchase required text(s); however you can find them elsewhere if you choose. Please note that editions of text books do change through the year and questions should be directed to the Training Center.

All required books must be purchased and available on the first day of class.

	A.	Meets the qualifications and age requirements to attend including all of the necessary prerequisites. Copies of certificates must be brought to first day of class.						
	B.	Is covered by his/her company's WORKERS' COMPENSATION INSURANCE, or is covered by his/her own Health and Medical Insurance while attending any course sponsored by the Bucks County Community College.						
	C.	Will abide by all the rules and regulations established by the Bucks County Community College and the Pennsylvania State Fire Academy.						
	D.	Will abide by 29 CFR 1910.134 and the Pennsylvania State Fire Academy for being clean-shaven for classes requiring the use of APR or SCBA.						
	E.	Has no knowledge of conditions that will prohibit full participation in all activities required for successful completion of the class.						
	F.	Will be responsible to pay for any tuition and/or fees associated with the course, unless otherwise notified by the sponsoring Organization/Employer that is listed in Section above. (See section 5 for information on who should be invoiced and the payment method)						
	G.	Junior Fire Fighters (age 17 and under) will abide by all regulations under the Pennsylvania Child Labor Laws and will not register for or participate in any class with drills involving live fire or smoke generated by live fire.						
	H.	The candidate should meet the requirements of NFPA 1582, Standard on Medical Requirements for Fire Fighters and Information for Fire Department Physicians, within a reasonable period of time prior to entering into physical training or testing to ensure his or her ability to safely perform the required tasks. (See back of this page for further detail of the essential job tasks and descriptions.)						
	I.	I, the Student have never been convicted of an offense that constitutes the crime of "arson and related offenses" under 18 Pa.C.S §3301 or any similar offense under any Federal or state law. I hereby certify that the statements contained herein are true and correct to the best of my knowledge and belief. I understand that if I knowingly make any false statement herein, I am subject to penalties prescribed by law, including, but not limited to, a fine of at least \$1,000.						
By signing this form below you, the student, agree to the first nine items (A thru I) listed above. Registrations will not be processed without Signature of Student.								
SIGNATURE OF STUDENT		DATE SIGNED		SIGNATURE OF CHIEF/SUPERVISOR		DATE SIGNED		
Registrations will not be processed without Signature of Student on day of class, and Pre-registrations will not be processed without Signature of both Student and Chief/Supervisor.								

Essential Job Tasks and Descriptions from NFPA 1582, 2022 edition

- 1) Wearing personal protective equipment (PPE) and self-contained breathing apparatus (SCBA) while performing firefighting tasks (e.g., hose line operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry), rescue operations, and other emergency response actions under stressful conditions, including working in extremely hot or cold environments for prolonged time periods
- 2) Wearing an SCBA, which includes a demand-valve-type positive-pressure facepiece or HEPA filter mask, which requires the ability to tolerate increased respiratory workloads
- 3) Exposure to toxic fumes, irritants, particulates, biological (i.e., infectious) and nonbiological hazards, or heated gases, despite the use of PPE and SCBA
- 4) Climbing at least six flights of stairs or walking a similarly strenuous distance and incline in jurisdictions without tall buildings while wearing PPE and SCBA, commonly weighing 40–50 lb (18–23 kg) and carrying equipment/tools weighing an additional 20–40 lb (9–18 kg)
- 5) Wearing PPE and SCBA that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2°F (39°C)
- 6) Working alone while wearing PPE and SCBA, searching, finding, and rescue-dragging or carrying victims ranging from newborns to adults weighing over 165 lb (75 kg) to safety despite hazardous conditions and low visibility
- 7) While wearing PPE and SCBA, advancing water-filled hose lines up to 1 ¾ in. (45 mm) in diameter from fire apparatus to occupancy [approximately 150 ft (50 m)], which can involve negotiating multiple flights of stairs, ladders, and other obstacles
- 8) While wearing PPE and SCBA, climbing ladders, operating from heights, walking or crawling in the dark along narrow and uneven surfaces that might be wet or icy, and operating in proximity to electrical power lines or other hazards
- 9) Unpredictable, prolonged periods of extreme physical exertion as required by emergency operations without benefit of a warm-up period, scheduled rest periods, meals, access to medication(s), or hydration
- 10) Operating fire apparatus or other vehicles in an emergency mode with emergency lights and sirens
- 11) Critical, time-sensitive, complex problem solving during physical exertion in stressful, hazardous environments, including hot, dark, tightly enclosed spaces, that is further aggravated by fatigue, flashing lights, sirens, and other distractions
- 12) Ability to communicate (i.e., give and comprehend verbal orders) while wearing PPE and SCBA under conditions of high background noise, poor visibility, and drenching from hose lines or fixed protection systems (e.g., sprinklers)
- 13) Functioning as an integral component of a team, where sudden incapacitation of a member can result in mission failure or in risk of injury or death to members of the public or other team members
- 14) Working in shifts, including during nighttime, that can extend beyond 12 hours

Firefighter Code of Ethics

I understand that I have the responsibility to conduct myself in a manner that reflects proper ethical behavior and integrity. In so doing, I will help foster a continuing positive public perception of the fire service. Therefore, I pledge the following...

- Always conduct myself, on and off duty, in a manner that reflects positively on myself, my department and the fire service in general.
- Accept responsibility for my actions and for the consequences of my actions.
- Support the concept of fairness and the value of diverse thoughts and opinions.
- Avoid situations that would adversely affect the credibility or public perception of the fire service profession.
- Be truthful and honest at all times and report instances of cheating or other dishonest acts that compromise the integrity of the fire service.
- Conduct my personal affairs in a manner that does not improperly influence the performance of my duties, or bring discredit to my organization.
- Be respectful and conscious of each member's safety and welfare.
- Recognize that I serve in a position of public trust that requires stewardship in the honest and efficient use of publicly owned resources, including uniforms, facilities, vehicles and equipment and that these are protected from misuse and theft.
- Exercise professionalism, competence, respect and loyalty in the performance of my duties and use information, confidential or otherwise, gained by virtue of my position, only to benefit those I am entrusted to serve.
- Avoid financial investments, outside employment, outside business interests or activities that conflict with or are enhanced by my official position or have the potential to create the perception of impropriety.
- Never propose or accept personal rewards, special privileges, benefits, advancement, honors or gifts that may create a conflict of interest, or the appearance thereof.
- Never engage in activities involving alcohol or other substance use or abuse that can impair my mental state or the performance of my duties and compromise safety.
- Never discriminate on the basis of race, religion, color, creed, age, marital status, national origin, ancestry, gender, sexual preference, medical condition or handicap.
- Never harass, intimidate or threaten fellow members of the service or the public and stop or report the actions of other firefighters who engage in such behaviors.
- Responsibly use social networking, electronic communications, or other media technology opportunities in a manner that does not discredit, dishonor or embarrass my organization, the fire service and the public. I also understand that failure to resolve or report inappropriate use of this media equates to condoning this behavior.

Developed by the National Society of Executive Fire Officers

Basic Fire Academy Programs

Fire Fighter 1 Professional Certification (NFPA 1001)	192	Hours	DOH Con-ed Units	0.0 CPC : 0.0 Other
	This course provides instruction to the student in basic fire fighting necessary to function as a responding member of a fire department. The following topics will be covered in this program:			
	Building Construction	Ladders	Search & Rescue	Fire Behavior
	Personal Safety Equip.	Vehicle Fires	Fire Extinguisher	Ropes & Knots
	Fire Hose & Streams	Ventilation	Safety	Water Supply
	Forcible Entry	SCBA	Wildland Fire	
	This course presented in 8 sections:			
		Sections	Cost	
	1.	Bucks Basic Fire Academy [Age 14 and up] (112 hrs)	\$ 210.00	
	2.	Test Taking 101 [Age 14 and up] (3.5 hrs)	\$ 35.00	
3.	Hazardous Materials Awareness [Age 14 and up] (4 hrs)	Included		
	Hazardous Materials Awareness Professional Certification Testing [Age 14 and up]	\$ 25.00		
4.	Basic First Aid (4 hrs)	\$ 35.00		
5.	Healthcare Provider CPR (6 hrs)	\$ 55.00		
6.	Hazardous Materials Operations [Age 16 and up] (24 hrs)	Included		
	Hazardous Materials Operational Core Level w/ PPE and Product Control Mission Specific Competencies Professional Certification Testing [Age 16 and up]	\$ 150.00		
7.	Structural Burn Session [Age 18 and up] (16 hrs)	\$ 130.00		
8.	Fire Fighter 1 Professional Certification Testing [18 and up]	Included		
(Cost breakdown is based on Out of County (In State) Emergency Service Providers)				
When pre-registering for this course you will be placed in all the course sections that your age allows you to take part in, unless clearly indicated you are not taking part in a module you are old enough to take part in.				
There is a final written exam for everyone in the course. Students over 18 years of age will take the Fire Fighter 1 Professional Certification Exam. Ages 14 to 17 years old will test for Bucks Basic Fire Academy course.				
** All students will be billed \$5.00 for First Aid and \$10.00 for CPR cards; Out of County and Out of State tuition has this cost built into the price.				
Prerequisites:	Age 14 and up, IS-700: An Introduction to the National Incident Management System, and ICS-100: Introduction to the Incident Command System **It is strongly recommended that personnel ages 14 to 17 years old take part in the weekend or daytime courses to avoid missed hours because of Child Labor Laws.**			
Required Textbook(s):	IFSTA, Essentials of Fire Fighting 7 th Edition, AHA, Heartsaver First Aid, AHA, BLS for Healthcare Provider (CPR & AED) and pocket mask, and Jones & Bartlett, Hazardous Materials Awareness and Operations 2 nd Edition, see page 22 for additional information.			
Required Equipment:	Turn out gear, SCBA, and Computer with audio capability and internet access			
Cost of Course:	Bucks County / TMP Option Silver or Gold:		\$ 0.00**	
	Out of County (In State):		\$ 640.00	
	Out of State (Non-PA Municipal Responders):		\$ 1,350.00	
Course Start Date (See attached schedule):	FSC #:	Locations:		
January 15, 2022 Tues/Thurs 7PM-11PM & Sat 8AM-5PM	913.501S	Quakertown FC (Sta. 17) & Bucks County PSTC, Doylestown		
Preregistration Deadline January 8, 2022				
January 16, 2022 Mon/Wed 7PM-11PM & Sun 8AM-5PM	913.603S	Lower Bucks PSTC, Croydon		
Preregistration Deadline January 9, 2022				
June 20, 2022 Mon-thru-Thurs 8AM-5PM	913.600S	Lower Bucks PSTC, Croydon		
Preregistration Deadline June 13, 2022				
August 1, 2022 Mon/Wed 7PM-11PM & Sun 8AM-5PM	913.603F	Lower Bucks PSTC, Croydon		
Preregistration Deadline July 25, 2022				
August 9, 2022 Tues/Thurs 7PM-11PM & Sat 8AM-5PM	913.502F	Bucks County PSTC, Doylestown		
Preregistration Deadline August 2, 2022				

This certification can earn you 3 credits towards your Fire Science Degree or Academic Certificate through Bucks County Community College, see page 95 for more information.

See a full schedule of the class on one of the following pages.

It is **required** that students complete the FEMA Emergency Management Institute NIMS IS-700 and ICS-100 online courses which can be accessed at the following link: <https://training.fema.gov/nims/>

Fire Fighter Certification Challenges & Review

Fire Fighter 2 Certification Preparation	24 Hours	DOH Con-ed Units 0.0 CPC : 0.0 Other
<p>This course is designed to help prepare a fire fighter for the Fire Fighter 2 certification practical and written examinations. This is done by providing application assistance, quizzes on each of the topics included the Fire Fighter 2 skill stations and hands-on (or discussion when hands-on is not practical), review of the Fire Fighter 2 skill stations. If time permits, the last class will be a “mock” Fire Fighter 2 certification test including a selection of some of the Fire Fighter 2 skill stations.</p> <p><i>This is course alone does not completely meet the Advanced Fire Fighter Training requirements of NFPA 1001 for the Fire Fighter 2 level. Interested candidates should contact the Training Center at 215-340-8417 for additional information and direction from the Certification Department on meeting this requirement.</i></p> <p>Prerequisites:</p> <ul style="list-style-type: none"> • Fire Fighter 1 Professional Certification (IFSAC or ProBoard) • Hazardous Materials Core Operations Level with Personal Protective Equipment and Product Control Mission Specific Competencies (NFPA 472 or 1072) Professional Certification (IFSAC or ProBoard) 		
Prerequisites:	Age 18 and up, See above for training & certification requirements	
Required Textbook(s):	<i>IFSTA, Essentials of Fire Fighting 7th Edition, see page 22 for additional information.</i>	
Required Equipment:	Turn out gear, SCBA, and Computer with audio/video capability and internet access	
Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>	\$ 0.00
	<i>Out of County (In State):</i>	\$ 150.00
	<i>Out of State (Non-PA Municipal Responders):</i>	\$ 300.00
Course Meets:	FSC #:	Locations:
September 24, 27, October 4, & 8, 2022 Tues 7PM-11PM & Sat 8AM-5PM Preregistration Deadline September 13, 2022	207.600F	Lower Bucks PSTC, Croydon

Fire Fighter Certification Challenges & Review

Fire Fighter 2 Professional Certification Practical Skills Challenge (NFPA 1001)	8 Hours	DOH Con-ed Units 0.0 CPC: 0.0 Other
	<p>Practical evaluations are intended to measure the manipulative skills of the Fire Fighter 2 and will follow guidelines set forth in accordance with the policies and procedures of the Bucks County Community College. The agency is capable of testing 100% of the practical objectives; however, the examination will only test a randomly pre-selected 50% of the total Fire Fighter 2 skills. A score of 100% shall constitute a passing grade for the candidate. A copy of all the practical skill stations is provided with confirmation letter sent out prior to testing.</p> <p>See Fire Fighter 2 Professional Certification Written Examination Challenge (NFPA 1001) for information on the written exam dates and times.</p> <p>Prerequisites:</p> <ul style="list-style-type: none"> • Fire Fighter 1 Professional Certification (IFSAC or ProBoard) • Hazardous Materials Core Operations Level with Personal Protective Equipment and Product Control Mission Specific Competencies (NFPA 472 or 1072) Professional Certification (IFSAC or ProBoard) • Advanced Fire Fighter Training that meets the intent of NFPA 1001 (<i>Interested candidates should contact the Training Center at 215-340-8417 for additional information and direction from the Certification Department on meeting this requirement.</i>) • ICS-200: Basic Incident Command System for Initial Response <p>Testing DOES NOT stop for lunch. You should bring lunch and/or snacks as well as water or other hydrating beverages.</p>

Command and Management Programs

Legal Aspects: Command Officer	8 Hours	DOH Con-ed Units	0.0 CPC : 0.0 Other
This program is to provide legal issue awareness to Line and Command Officers. This program will provide the student with an overview of the laws and standards as they apply to emergency service managers. Discussions will relate to specific laws and standards that relate to organizational operations and service delivery.			

Prerequisites: Age 16 and up

Required Textbook(s): Handouts will be provided

Required Equipment: Computer with audio/video capability and internet access

Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>	\$ 0.00
	<i>Out of County (In State):</i>	\$ 70.00
	<i>Out of State (Non-PA Municipal Responders):</i>	\$ 120.00

Course Meets:	FSC #:	Locations:
January 23, 2022 – Sunday 8AM-5PM Preregistration Deadline January 16, 2022	931.500S	Bucks County PSTC, Doylestown

Preparation for Initial Company Operations (PICO)	16 Hours	DOH Con-ed Units	0.0 CPC : 0.0 Other
This course is designed to prepare the student to function as a company officer, by developing the skills required to safely and successfully managing company tactical operations at structural fires. The first in the series of programs designed to meet the needs of fire officers and crew leaders with responsibilities to manage the operations of one or more companies in structural fire fighting operations. This course will provide a basic foundation for the management of one or more companies operating at a structure fire emergency. The focus of these five modules is a review of basic concepts and development of proficiency in critical skills. Key content includes Roles and Responsibilities, Readiness, Communication, Building Construction and Fire Behavior Factors, and Pre-incident Preparation.			

Prerequisites: Age 18 and up, EBM or ELIF or Bucks Basic Fire Academy or FF-1
*****Must submit prerequisite certificates with pre-registration form*****

Required Textbook(s): Handouts will be provided

Required Equipment: Computer with audio/video capability and internet access

Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>	\$ 0.00

February 7, 9, 11, 14, 16, & 18, 2022 Mon/Wed/Fri 8AM-11AM and 12PM-3PM Preregistration Deadline January 30, 2022	656.500S	Conducted via Canvas LMS which includes Zoom Video instruction (per meeting dates)	
August 1, 3, 6, 8, 10, 15, 17, & 20, 2022 Mon/Wed 7PM-10PM & Sat 8AM-11AM and 12PM-3PM Preregistration Deadline July 24, 2022	656.500F	Conducted via Canvas LMS which includes Zoom Video instruction (per meeting dates)	

Command and Management Certification

Fire Service Instructor 1 Professional Certification (NFPA 1041) with Educational Methodology for Local Level Instructors (EMLL)	40	Hours	DOH Con-ed Units	0.0 CPC : 0.0 Other
	This course is designed to prepare persons to effectively instruct adults in the emergency services professions. Agencies accept the EMLL course as entry-level instructor training, including the PA Department of Health (PADOHEMS), Municipal Police Officers Education and Training Commission (MPOETC), PA Emergency Management Agency (PEMA) and other state agencies. With these other agencies relying on this training, the PSFA has determined that the minimum Job Performance Requirements (JPRs) listed for Instructor I in National Fire Protection Association (NFPA) 1041, Professional Standards for Fire Service Instructors, is inadequate for the needs of the diverse consumers of this training program.			
<i>NOTE: Per PA State Fire Academy EMLL can only be delivered Face to Face at this time.</i>				
Prerequisites:	Age 18 and up			
Required Textbook(s):	IFSTA Fire and Emergency Service Instructor 9 th Edition; see page 22 for additional information.

	<i>Out of County (In State):</i> \$ 150.00
	<i>Out of State (Non-PA Municipal Responders):</i> \$ 250.00

Course Meets:	FSC #:	Locations:
October 15 & 16, 2022 Sat/Sun 8AM-5PM Preregistration Deadline October 8, 2022	745.500F	Bucks County PSTC, Doylestown

Trench Rescue Operations I (TRRE)	16	Hours	DOH Con-ed Units	2.0 CPC : 3.5 Other
This course will introduce the student to the knowledge and skills necessary to perform complex rescue operations in collapsed trench excavations safely and effectively. Course work will include practical drills and demonstration in simulated trench excavations.				

Prerequisites: Age 18 and up
Recommended: [Confined Space Rescue \(CSR\)](#) and [Rope / High Angle Rescue I](#)

Required Textbook(s):	Handouts will be provided
Required Equipment:	Helmet with chin strap, Eye Protection (face-shield not acceptable), Work Clothing or Coveralls, Leather Gloves, Work Shoes/boots
Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i> \$ 0.00
	<i>Out of County (In State):</i> \$ 130.00
	<i>Out of State (Non-PA Municipal Responders):</i> \$ 230.00

Course Meets:	FSC #:	Locations:
November 5 & 6, 2022 Sat/Sun 8AM-5PM Preregistration Deadline October 29, 2022	323.500F	Bucks County PSTC, Doylestown

Rescue Programs

Water Rescue for the First Responder Awareness Level (WRFR-A) PA Fish & Boat Commission	3	Hours	DOH Con-ed Units	2.5 CPC: 0.0 Other
	This course will provide information that the first arriving emergency services personnel will need at a water incident to recognize risks and dangers associated with water emergencies and take actions to ensure their safety. The course will address scene assessment, activation of emergency response system, evaluation of potential and existing water hazards, scene management, rescue vs. recovery, and personal safety measures.			
Prerequisites:	Age 18 and up **Must submit prerequisite certificates with pre-registration form**			
Required Textbook(s):	Handouts will be provided			
Required Equipment:	None			
Cost of Course:	Bucks County / TMP Option Silver or Gold:			\$ 0.00
	Out of County (In State):			\$ 25.00
	Out of State (Non-PA Municipal Responders):			\$ 40.00
Course Meets:		FSC #:	Locations:	
April 5, 2022 Tues 7PM-10PM Preregistration Deadline March 28, 2022		580.500SF	Conducted via Zoom Video instruction (per meeting dates)	

Technical Rescuer Certification Programs

Confined Space Technical Rescuer at the Awareness, Operations, and Technician Level Professional Certification (NFPA 1006)	32 Hours	DOH Con-ed Units 0.0 CPC : 18.5 Other
	This program is designed to enhance the student's ability to perform critical skill sets in the field of technical rescue for confined space rescue. During this course, students will review technical rescue theories, techniques, and challenges to accurately and safely execute the skill sets required for professional certification. Topics include: scene management, mechanical advantage systems, rope management, anchor systems, rescue knots, size-up considerations, hazard control, permit & non-permit required confined space areas, OSHA and NFPA applicable standards and laws, and patient care. This course is designed for the experienced rescuer with a strong working knowledge of technical rescue in accordance with NFPA 1006 Chapter 7 Confined Space Awareness, Operations and Technician and 1670.	
Prerequisites:	Age 18 and up; Rope Technical Rescuer Awareness and Operations Levels Professional Certification (IFSAC or Pro Board); Hazardous Materials Awareness Professional Certification (IFSAC or Pro Board); Non-Expired First Aid (front and back); Non-Expired CPR (front and back) **Must submit prerequisite certificates with pre-registration form**	
Required Textbook(s):	CMC, <i>Confined Space Entry and Rescue Manual 2nd Edition</i> ; see page 22 for additional information.	
Required Equipment:	Helmet with chin strap, Eye Protection (face-shield not acceptable), Work Clothing or Coveralls, Leather Gloves, Work Shoes/boots	
Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>	\$ 0.00
	<i>Out of County (In State):</i>	\$ 250.00
	<i>Out of State (Non-PA Municipal Responders):</i>	\$ 550.00
Course Meets:	FSC #:	Locations:
April 21, 28, May 5, 12, 14, & 21, 2022 Thurs 7PM-11PM & Sat 8AM-5PM Preregistration Deadline April 14 2022	1047.500S	Bucks County PSTC, Doylestown

Technical Rescuer Certification Programs

Rope Technical Rescuer at the Awareness, Operations, and Technician Professional Certification (NFPA 1006)	72	Hours	DOH Con-ed Units	8.5 CPC : 63.5 Other
	<p>This program is designed to enhance the student's ability to perform critical skill sets to meet the intent of NFPA 1670 Rope Rescue Awareness – Operations – Technician in the field of technical rescue. During this course, students will review rope rescue systems, application theories, and high angle challenges to accurately and safely execute the skill sets required for professional certification. Topics include: rescue incident management, technical vs. non-technical rescue considerations, rescue strategies and tactics, resource management, access and removal considerations, hazard identification and control, rope management, ascending and descending systems, rope rescue equipment identification and application, patient removal techniques and selection criteria, basic patient care, packaging, and removal, basic and advanced anchor systems, and applicable OSHA and NFPA laws and standards. This course is designed for the experienced rescuer with a strong working knowledge of technical rescue in accordance with NFPA 1006 and 1670. The course is designed to prepare the rescuer for professional certification testing (written and skills) in accordance with NFPA 1006 Rope Rescue Awareness, Operations and Technician.</p>			
Prerequisites:	<p>Age 18 and up; Hazardous Materials Awareness Professional Certification (IFSAC or Pro Board); Non-Expired First Aid (front and back); Non-Expired CPR (front and back) **Must submit prerequisite certificates with pre-registration form**</p>			
Required Textbook(s):	CMC, <i>Rope Rescue Manual 5th Edition</i> ; see page 22 for additional information.			
Required Equipment:	<p>Helmet with chin strap, Eye Protection (face-shield not acceptable), Work Clothing or Coveralls, Leather Gloves, Work Shoes/boots</p>			
Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>			\$ 0.00
	<i>Out of County (In State):</i>			\$ 400.00
	<i>Out of State (Non-PA Municipal Responders):</i>			\$ 750.00
Course Meets:	<p>April 2, 3, 4, 6, 9, 10, 11, 13, 18, 20, 23, & 24, 2022 Mon/Wed 7PM-11PM & Sat/Sun 8AM-5PM: Preregistration Deadline March 26, 2022</p>		FSC #: 1430.500S	Locations: Bucks County PSTC, Doylestown

Technical Rescuer Certification Programs

Structural Collapse Technical Rescuer at the Awareness, Operations, and Technician Professional Certification (NFPA 1006)	80	Hours	DOH Con-ed Units	0.0 CPC: 0.0 Other
	<p>This program is designed to enhance the student's ability to perform critical skill sets to meet the intent of NFPA 1006 Structural Collapse Rescue in the field of technical rescue. During this course, students will review collapse extrication theories, shoring techniques, and challenges to accurately and safely execute the skill sets required for professional certification. Topics include: rescue incident management, collapse types and building construction considerations, extrication strategies and tactics, resource management, stabilization and shoring systems, hazard identification and control, atmospheric monitoring and ventilation methods, search & rescue techniques, collapse equipment identification and application, patient removal methods and selection criteria, basic patient care, packaging, and removal, basic and advanced shoring techniques, and applicable OSHA and NFPA laws and standards. This course is designed for the experienced rescuer with a strong working knowledge of technical rescue in accordance with NFPA 1006 and 1670. The course is designed to prepare the rescuer for professional certification testing (written and skills) in accordance with NFPA 1006 Structural Collapse.</p>			

This course will next be offered in the 2023 Resident Catalog so please plan accordingly for those interested

Technical Rescuer Certification Programs

Trench Technical Rescuer at the Awareness, Operations, and Technician Professional Certification (NFPA 1006)	48	Hours	DOH Con-ed Units	0.0 CPC: 0.0 Other
	This program is designed to enhance the student's ability to perform critical skill sets to meet the intent of NFPA 1006 Chapter 11 Trench Technical Rescuer at the Awareness, Operations, and Technician levels. During this course, students will review trench extrication theories, shoring techniques, and challenges to accurately and safely execute the skill sets required for professional certification. Topics include: rescue incident management, trench configuration and soil types, extrication strategies and tactics, resource management, stabilization and shoring systems, hazard identification and control, shoring panel construction, technical rescue equipment identification and application, patient removal methods and selection criteria, basic patient care, packaging, and removal, basic and advanced shoring techniques, and applicable OSHA and NFPA laws and standards. This course is designed for the experienced rescuer with a strong working knowledge of technical rescue in accordance with NFPA 1006 and 1670. The course is designed to prepare the rescuer for professional certification testing (written and skills) in accordance with NFPA 1006 Trench Rescue.			
Prerequisites:	Age 18 and up; Rope Technical Rescuer Awareness and Operations Levels Professional Certification (IFSAC or Pro Board); Hazardous Materials Awareness Professional Certification (IFSAC or Pro Board); Non-Expired First Aid (front and back); Non-Expired CPR (front and back) **Must submit prerequisite certificates with pre-registration form**			
Required Textbook(s):	<i>Jones & Bartlett, Trench Rescue: Awareness, Operations, Technician 3rd Edition; see page 22 for additional information.</i>

October 16, 17, 19, & 23, 2022 Mon/Wed 7PM-11PM & Sun 8AM-5PM Preregistration Deadline October 9, 2022	472.603F	Lower Bucks PSTC, Croydon
October 22, 25, 27, & 29, 2022 Tues/Thurs 7PM-11PM & Sat 8AM-5PM Preregistration Deadline October 15, 2022	472.502F	Bucks County PSTC, Doylestown

For Professional Certification (ProBoard) you must attend both a [Hazardous Materials Operational Core Competencies with Product Control and PPE Mission Specific Competencies Written Examination Challenge \(NFPA 1072\)](#) and [Hazardous Materials Operational Core Competencies with Product Control and PPE Mission Specific Competencies Professional Certification Practical Skills Challenge \(NFPA 1072\)](#). If you have additional questions please contact the Certification Department.

Hazardous Material Programs & Certifications

Hazardous Materials Core Operations with Personal Protective Equipment and Product Control Mission Specific Competencies Professional Certification Practical Skills Challenge (NFPA 1072)	8	Hours	DOH Con-ed Units	0.0 CPC : 0.0 Other
	Practical evaluations are intended to measure the manipulative skills of the Hazardous Materials Operations and will follow guidelines set forth in accordance with the policies and procedures of the Bucks County Community College. The agency is capable of testing 100% of the practical objectives; however, the examination will only test a randomly pre-selected percentage of the total Hazardous Materials Operational Core and Mission Specific skills. A score of 100% shall constitute a passing grade for the candidate. A copy of all the practical skill stations is provided with confirmation letter sent out prior to testing.			
	See Hazardous Materials Core Operations with Personal Protective Equipment and Product Control Mission Specific Competencies Written Examination Challenge (NFPA 1072) for information on the written exam dates and times.			
	Testing DOES NOT stop for lunch. You should bring lunch and/or snacks as well as water or other hydrating beverages.			
Prerequisites:	Age 16 and up, Hazardous Materials Awareness Professional Certification, Hazardous Materials Core Operations Level with Personal Protective Equipment and Product Control Mission Specific Competencies Training **Must submit prerequisite certificates with pre-registration form**			
Required Textbook(s):	Jones & Bartlett, Hazardous Materials Awareness and Operations 2 nd Edition; see page 22 for additional information.			
Required Equipment:	Turn out gear and SCBA			
Cost of Course:	Bucks County / TMP Option Silver or Gold:		\$ 0.00	
	Out of County (In State):		\$ 150.00	
	Out of State (Non-PA Municipal Responders):		\$ 300.00	
Course Meets:	FSC #:	Locations:

Hazardous Material Programs & Certifications

Hazardous Materials Incident Commander (NFPA 1072)	40 Hours	DOH Con-ed Units	0.0 M/T : 0.0 Other
<p>Through classroom sessions and practical fieldwork, this course will give the student the ability to function safely and effectively as an Incident Commander in an area exposed to a hazardous materials release. After successful completion of the program, the student will test for professional certification at the Hazardous Materials Technician IC level in accordance with NFPA 1072. Subjects to be covered include site safety procedures, personal protective equipment selection, containment techniques, response strategies, decontamination selection and strategies, incident management system, and skills evaluation through integrated exercises. This course also meets the requirements defined in 29 CFR 1910.120</p> <p><i>This certification can earn you 3 credits towards your Fire Science Degree or Academic Certificate through Bucks County Community College, see page 95 for more information.</i></p> <p>NOTE: Certification Written Examination will be conducted outside of the listed sessions and not online through this course. During the class you will be provided with specific information on how to coordinate the written exam at our facilities, a pre-determined test site within PA, or a third party approved site inside or outside of PA. This will account for the final 4 hours of the course. NOTE: The student may be responsible for any third-party agency testing fees if applicable</p>			
Prerequisites:	Age 18 and up, Hazardous Materials Core Operations Level (NFPA 472 or 1072) Professional Certification <i>**Must submit prerequisite certificates with pre-registration form**</i>		
Required Textbook(s):	Jones & Bartlett, <i>Hazardous Materials: Managing the Incident 4th Edition plus the Field Operations Guide for the text; see page 22 for additional information.</i>		
Required Equipment:	Computer with audio/video capability and internet access.		
Cost of Course:	<i>Bucks County / TMP Option Silver or Gold:</i>	\$ 0.00	
	<i>Out of County (In State):</i>	\$ 150.00	
	<i>Out of State (Non-PA Municipal Responders):</i>	\$ 500.00	
Course Meets:	FSC #:	Locations:

Training Requests

The Local Level Emergency Services Catalog (found on our website) can provide you with a list of courses available by completing the "Local Level Course Application" in the back of this catalog. The application should be submitted to the Bucks County Community College – Department of Public Safety Training and Certification to either the Doylestown Training Facility at 1760 South Easton Road, Doylestown, Pa 18901 or the Bristol Training Facility at 2912 River Road, Croydon, PA 19021. The application should be submitted at least **eight weeks** prior to the course starting date. This will allow sufficient time to contract instructors and forward course materials to the training site.

We recommend that you contact the instructor(s) to establish dates and times acceptable for both parties, before submitting the course application to the Public Safety Training Center. This will speed up the application process and ensure instructor availability. If you cannot locate an instructor or need assistance with processing the "Local Level Course Application", contact the Training Center and we will assist you.

Course Locations

Sessions are traditionally held at local emergency service stations where the necessary apparatus, tools, and equipment are available to the instructor and the class. Course locations and section numbers may be found on our website. Contact the Training Center for additional detailed information.

Instructor Credentials

Instructors are selected from the list of certified state instructors approved by the Pennsylvania State Fire Academy. Each instructor must meet the Pennsylvania State Fire Academy instructor requirements for each course taught. Bucks County Community College must contract all instructors, including assistants, prior to their teaching of a course.

Travel expenses may be the responsibility of the sponsoring agency if the instructors assigned to teach the course did NOT receive approval for travel expenses by Bucks County Community College.

Student Responsibilities

Students are responsible for the material presented in each class. It is each student's responsibility to make up assignments and attendance in a course as required. Individual student requirements and conduct shall be in accordance with established Pennsylvania State Fire Academy and Bucks County Community College policies as stated by the instructor at the beginning of class. Students will be removed from class if they are in violation of these established policies. Tuition, lunch, and facility use fees (where applicable) will **NOT** be refunded to the student or their sponsoring organization.

College Programs and Credit Opportunities

The Bucks County Community College offers over 80 academic programs of study. To add additional value to our Public Safety Training and Certification Program has done an extensive evaluation of our credit and non-credit programs to allow for prior learning assessment (PLA) credits to be awarded. A number of other PLA credit opportunities also exist for different FEMA IS courses, PEMA G Series courses, and DOH (FR, EMT-B, & EMT-P) Certifications. Because of this evaluation, Bucks County Community College has aligned specific Industry/Professional Certifications with its Fire Science and Emergency Management Degree and Academic Certificate Programing. *(NOTE: To be awarded PLA credits you must be enrolled and complete an academic semester in a program of study at Bucks County Community College that requires the courses outlined in these offerings.)*

The following programs have all been designed to be completed online (with the exception of Fire Investigation 1 & 2 and an Internship if required or elected), assign with FESHE requirements, and Industry/Professional Certifications. More information on each of the programs can be found at the following links below or by contacting us at FireSchool@bucks.edu.

Associates in Fire Science

The Associates of Arts in Fire Science program consists of a minimum of 61 credits. Upon successful completion of the program, a graduate will be awarded an associates of arts degree.

Found at: <http://www.bucks.edu/catalog/majors/business/fire/>

Academic Certificate in Fire Science

The Academic Certificate in Fire Science program consists of a minimum of 31 credits. Upon successful completion of the program, a graduate will be awarded an academic certificate.

Found at: <http://www.bucks.edu/catalog/majors/business/firesciencecertificate/>

Academic Certificate in Fire Prevention and Investigation

The Academic Certificate in Fire Prevention and Investigation program consists of a minimum of 34 credits. Upon successful completion of the program, a graduate will be awarded an academic certificate.

Found at: <http://www.bucks.edu/catalog/majors/business/firepreventioninvestigation/>

Associates in Emergency Management

The Associates of Arts in Emergency Management program consists of a minimum of 62 credits. Upon successful completion of the program, a graduate will be awarded an associates of arts degree.

Found at: <http://www.bucks.edu/catalog/majors/business/emergencymanagement/>

Academic Certificate in Emergency Management

The Academic Certificate in Emergency Management program consists of a minimum of 38 credits. Upon successful completion of the program, a graduate will be awarded an academic certificate.

Found at: <http://www.bucks.edu/catalog/majors/business/emergencymanagementcertificate/>

College Programs and Credit Opportunities

Courses offering PLA credits available in this Catalog:

Fire Company Officer 3 (NFPA 1021) ProBoard/IFSAC Professional Certification <i>FRSC-208: Principles of Fire & Emergency Services Administration</i>	<i>3 credits</i>
Fire Fighter 1 (NFPA 1001) ProBoard/IFSAC Professional Certification <i>FRSC-100: Introduction to Fire Science</i>	<i>3 credits</i>
Fire Inspector 2 (NFPA 1031) ProBoard/IFSAC Professional Certification <i>FRSC-104: Fire Prevention and Code Enforcement</i>	<i>3 credits</i>
Fire Investigator (NFPA 1033) ProBoard/IFSAC Professional Certification <i>FRSC-206: Fire Investigation I</i>	<i>3 credits</i>
<i>FRSC-216: Fire Investigation II</i>	<i>3 credits</i>
Hazardous Materials Technician or Hazardous Materials Incident Commander (NFPA 472/1072) ProBoard/IFSAC Professional Certification <i>FRSC-202: Hazardous Materials</i>	<i>3 credits</i>
Health and Safety & Incident Safety Officer (NFPA 1521) ProBoard/IFSAC Professional Certification <i>FRSC-209: Occupational Safety & Health for Emergency Services</i>	<i>3 credits</i>
Plans Examiner 2 (NFPA 1031) ProBoard/IFSAC Professional Certification <i>FRSC-214: Fire Plans Review</i>	<i>3 credits</i>
Public Fire and Life Safety Educator 2 (NFPA 1035) ProBoard/IFSAC Professional Certification <i>FRSC-210: Fire and Life Safety Education</i>	<i>3 credits</i>

Additional PLA is also available for EMR, EMT, Paramedic, and various FEMA courses

Firefighters who desire to begin a college degree program should consider attending a local community college, securing an Associate degree and then pursuing a Bachelors program. Bucks County Community College offers excellent programs as reasonable costs.

Articulation Agreements, formal and informal, are available to different four-year universities to allow for smooth and easy transition to complete your Bachelors and in some cases fast track to a Masters at the same time.

Expectations of Firefighter Candidates

Always be ready

Take pride in your firehouse and apparatus

Make sure your gear is ready at all times

Look out for every member

Be combat ready for every call

Know your job

Finish the job

Uphold the company pride

Always represent the company with honor and professionalism

Respect those that came before you

Improve every bad habit

Learn all of the time (never stop learning)

Teach someone something

Don't be afraid to make a mistake

Admit mistakes and learn from them

Be the best

Never accept failure

Don't get lazy
