April 3, 4, 5, 17, 18, 19, 2020
66th Annual Cambria County Fire School
DEADLINE FOR REGISTRATION IS MARCH 10, 2020

PRE-ENROLLMENT AND FEES
Applicants must be 14 years of age or older and must present their working papers to the Fire School Committee before they can take any program. In addition, they must have approval from their Chief Officer. Participants are limited in number in each class. Pre-enrollment is necessary and should be done early.

ALL PRE-ENROLLMENT FORMS MUST BE ACCOMPANIED BY CHECK OR MONEY ORDER made payable to the Cambria County Firemen’s Association to guarantee placement in selected courses. Please check course descriptions for the price of the classes. Any changes made by a student after the deadline to switch classes will require an additional $20.00 fee. Send pre-enrollment forms and checks to: CAMBRIA COUNTY FIREFIGHTERS’ ASSOCIATION, c/o Brett Gromley, 3860 Laurel Run Rd., Penn Run, PA 15765. Bucks County Community College is your educational provider and does not charge fees for these programs. All fees collected are used by the local fire school committee for facility use and lunches. All out-of-state students are subject to an additional $300.00 fee and must submit a separate check or money order for $300.00 made payable to Bucks County Public Safety Training Center. This payment must be mailed to: Attn: Robert Grunmeier, Bucks County Public Safety Training Center, 1760 Southeaston Road, Doylestown, PA 18901.

For additional information, applications, class confirmations or brochures, you can write CAMBRIA COUNTY FIREFIGHTERS’ ASSOCIATION, c/o Brett Gromley, 3860 Laurel Run Rd., Penn Run, PA 15765, call 724-464-7960, or email: brettgromley22@gmail.com or fireschool@cambriavolfireassn.com or visit our website: www.cambriavolfireassn.com

WE NOW OFFER ONLINE REGISTRATIONS.
This course is designed for the fire and emergency medical personnel who are responsible for administering and operating a rehabilitation area for firefighters and emergency service responders at emergency scenes. The course will provide the student with the information and training necessary for the rehabilitation center for emergency providers who are operating at an emergency event.

FSC 026.007
Consecutive and Fast Food Restaurant Fires (4 HRS) $10.00
This course will describe the construction, hazards, and response incidents involving convenience store and fast food restaurants.

FSC 029.007
Small Gains of Chaos (HRS) $10.00
The presentation will discuss the current Small Gains of Chaos Act Rules and Regulations pertaining to the operation and enforcement of local Small Gains of Chaos Act laws. This will include a discussion of practical ways to use the Small Gains of Chaos Act to improve the business's understanding of the current law and to provide recommendations for improving the efficiency of the enforcement process.

Saturday 8 Hours Classes April 4, 2020
Start Time 08:00 AM
FSC 047.007
Clandestine Drug Laboratory - Operation Level (HRS) $35.00
Prerequisites: Age 16 and up, EBM or Intern: Firefighter: Live Fire Exercises (ELIF) or Intern: Live Fire No Live Fire Exercises (ELIF) or Bucks Basic Fire Academy or FP-1. This course will address the safety and security considerations for emergency responders planning for clandestine drug labs. This course addresses how to identify and respond to clandestine drug labs. It will teach the student the rules for drug labs, as well as how to ensure that those rules are being followed.

FSC 048.007
Thermal Imaging Camera Operations (HRS) $35.00
Prerequisites: Age 16 and up, and Thermal Imaging for the Fire Service Gear, TOG, SCBA.
This course is designed to enhance the student's understanding of thermal imaging technology. Various operation and application strategies will be presented in this program. The student will understand the difference between the Pyrocam II and the Pyrocam IV. Students will learn about the advantages and disadvantages of the two cameras, as well as the different applications for which they can be used.

FSC 050.007
RAMP Program (Saturday) and (4 HRS) $10.00
VFW Class 18 и 19

FSC 090.007
Confined Space Entry Awareness (HRS) $10.00
Prerequisites: Age 16 and up.
This course is designed for individuals who work in or around confined spaces and open trenches. This course will provide an overview of the hazards associated with working in these areas, including the dangers of asphyxiation, contamination, and fire. The course will also cover the procedures and equipment necessary to safely enter and exit these areas.

FSC 070.007/Cambria County Coroner – Scarc Preservation for First Responders (HRS)
This course will provide participants with basic understanding of access and control of evidence that may be encountered at a fire scene. This course will also address the legal aspects of evidence preservation for hospital personnel and first responders for emergency responders. The cost of this class is $10.00 per person. The age requirement is 18 years old. Students will only receive a Cambria County Fire Training Site Certificate for this class.

FSC 018.007
Elevator Rescue Awareness (HRS) $10.00
Prerequisites: Age 16 and up.
This course will provide fire and rescue personnel with the ability to function accurately, safely, and effectively during an elevator malfunction or when fire and mechanical public transportation. Topics include pre-inception planning, hazard assessment and size-up, resource considerations, equipment identification, and execution of rescue instructions.

FSC 066.007
Rehabilitation for Firefighters Working in Environmental Hazards (3 HRS) $35.00
Prerequisites: Age 16 and up.
This course provides a comprehensive introduction to the process of rehabilitation for firefighters and emergency service responders who are exposed to environmental hazards. The course will cover the various factors that can affect the rehabilitation process, as well as strategies for improving the efficiency of the process.

FSC 067.007
First Day of Class (HRS)
This course is designed to give firefighters and emergency personnel who are responsible for rehabilitating and operating a rehabilitation area for firefighters and emergency service responders at emergency scenes. The course will provide the student with the information and training necessary for the rehabilitation center for emergency providers who are operating at an emergency event.

FSC 029.007
Consecutive and Fast Food Restaurant Fires (4 HRS) $10.00
This course will describe the construction, hazards, and response incidents involving convenience store and fast food restaurants.

FSC 029.007
Small Gains of Chaos (HRS) $10.00
The presentation will discuss the current Small Gains of Chaos Act Rules and Regulations pertaining to the operation and enforcement of local Small Gains of Chaos Act laws. This will include a discussion of practical ways to use the Small Gains of Chaos Act to improve the business's understanding of the current law and to provide recommendations for improving the efficiency of the enforcement process. We will provide a detailed review of these changes, in order to help businesses understand the current law and to provide recommendations for improving the efficiency of the enforcement process. We will also provide an overview of the current law and to provide recommendations for improving the efficiency of the enforcement process.

FSC 048.007
Thermal Imaging Camera Operations (HRS) $35.00
Prerequisites: Age 16 and up, and Thermal Imaging for the Fire Service Gear, TOG, SCBA.
This course is designed to enhance the student's understanding of thermal imaging technology. Various operation and application strategies will be presented in this program. The student will understand the difference between the Pyrocam II and the Pyrocam IV. The course will cover the various factors that can affect the rehabilitation process, as well as strategies for improving the efficiency of the process.
PAGE 2

Using lecture and practical exercises, this course will provide insight to the need for an apparatus System (nImS), An Introduction) & nImS ICS-100 (Introduction to the Incident Command System). This course does not meet or exceed the PA essentials of Firefighting Program, and will not permit attending the longer course at this time. It will prepare these responders to make basic fire operations and handle the "combat engineers" of fire attack operations. Likewise, engine Companies are the primary operations support needs.

Many wildland fire responders are trained through "Wildland Firefighting" training and may arrive first on the scene of a fire. It consists of material extracted from the longer nFA OSHA definition of the operations level of hazardous materials response. Students will learn and construct basic rigging systems. This course provides students with an opportunity for hands-on training and/or rejection by the instructors prior to use.

Participants in this 16 hour course will also be familiar with building construction, Fire Safety Surveys/Life and Safety Presentation, General operations, Fireground tactics, Technical rescue service, and Falls, Combustible Gas and Liquid Fire Control, Foam, Coordinating Fire Ground Operations Communications, and Advanced Origin. Cause and Arson. must be at least age 16. This course will prepare the student with a comprehensive understanding of the importance of pre incident planning. This course will outline the planning criteria for an effective emergency response. The student will gain a better understanding of risks and hazards associated with emergency responses. Topics include: planning criteria, command structure, communications, and operational considerations.

Students must be at least age 16.

16 yOA by first day of class.

This course is appropriate for all emergency responders (fire, fire police, police, and emS) who might arrive first on the scene of a fire. It consists of material extracted from the longer nFA OSHA definition of the operations level of hazardous materials response. Students will learn and construct basic rigging systems. This course provides students with an opportunity for hands-on training and/or rejection by the instructors prior to use.

Participants in this 16 hour course will also be familiar with building construction, Fire Safety Surveys/Life and Safety Presentation, General operations, Fireground tactics, Technical rescue service, and Falls, Combustible Gas and Liquid Fire Control, Foam, Coordinating Fire Ground Operations Communications, and Advanced Origin. Cause and Arson. must be at least age 16.

**Weekend 1 April 3, 4-5, 2020**

**Friday Night Classes April 3, 2020**

**Start Time 18:30**

**FSC: 066.037**

**PTSD Awareness for the Fire Service (HR) $70.00**

This program defines PTSD, risk factors for firefighters, signs and symptoms to look out for in Fire Departments and what to do if one of your members is showing these signs. Discussion will provide students with the tools they need to help prevent the onset of response injuries in personnel dealing with and discussing behavior issues.

**FSC: 094.067**

**Continuing Ed and Food Service Training (FF) $150.00**

This course will describe the construction, hazards, and response incidents involving convenience stores and fast food restaurants.

**FSC: 029.037**

**Small Games of Chance (HR) $10.00**

The presentation will discuss the current Small Games of Chance Act Rules and Regulations pertaining to the operation and enforcement of local Small Games of Chance Acts; legal status of the games; types of licenses; violation of regulations; the use of funds collected; and the use of equipment. Students will be shown guidance on how to use resources for investigating and enforcing the local Small Games of Chance Acts.

**FSC: 066.037**

**Redemption for Firefighters Working in Environmental Hazards (HR) $10.00**

This course is designed to increase the knowledge and skills of firefighters for operating in environmental hazards. The course curriculum includes topics such as identification of a hazardous environment, protective equipment, and protective clothing and personal protective equipment. This course is designed to enhance the firefighter’s knowledge and skills for operating in hazardous environments.

**FSC: 070.037**

**Fire Service Operations on Rating (HR) $10.00**

19 YOA first day of class.

Description: In this class, you will learn ISO’s Public Protection Classification (PPC) program. PPC is one of the fields of study that contribute to the fire suppression, emergency medical, and fire prevention and suppression preparedness. This program will provide students with a comprehensive understanding of the PPC program and how to use it effectively to prioritize the allocation of resources.

**FSC: 029.037**

**Firefighting: no Live Fire exercises (eLIF) or bucks basic Fire Academy or FF-1 (HR) $70.00**

Firefighting: no Live Fire exercises (eLIF) or bucks basic Fire Academy or FF-1 (HR) $70.00

**FSC: 047.037**

**Clandestine Drug Laboratory – Operations Level (HR) $35.00**

Prerequisites: Age 16 and up, EBM or Intravenous: Fire Line Exercise (ELF) or Intravenous: Fire Line Exercise (ELP) or Bucks Basic Academy for FF-1.

This course will inform the student of the hazards encountered at vehicle fires and other emergencies. Proper strategy and tactics are covered as well as the charges that have occurred in various events. This course will also address the legal aspects of evidence gathering and personnel behavior. This course is designed to enhance the firefighter's knowledge and skills for operating in hazardous environments.

**FSC: 047.037**

**Firefighting: no Live Fire exercises (eLIF) or bucks basic Fire Academy or FF-1 (HR) $70.00**

Firefighting: no Live Fire exercises (eLIF) or bucks basic Fire Academy or FF-1 (HR) $70.00

**FSC: 064.037**

**Basic Fire Policing (FF) $170.00**

Prerequisites: Age 16 and up.

Students will receive a Cambria County Fire School Certificate for this class.

**FSC: 039.037**

**Part 2 - Lead for Mini Drill (HR) $70.00**

In this class, you will learn about ISO’s Public Protection Classification (PPC) program. PPC is one of the fields of study that contribute to the fire suppression, emergency medical, and fire prevention and suppression preparedness. This program will provide students with a comprehensive understanding of the PPC program and how to use it effectively to prioritize the allocation of resources.
